Burlington and Hebron Continue In Win Column

In Six-Man Football Games During Past Week.

Burlington's Eagles and Hebron's Cardinals continue their supremacy in the Northern Kentucky 6-Man Football Conference last week-end with victories over the Florence Knights and the New Haven Tigers.

Coach George Maines of the Eagles took the wraps off his entire squad and came up with several high scoring combinations from the reserve and third team youngsters.

Maines used his regulars only on defense in ringing up a 85 to 18 win. The unexpected display of strength from way down the line on the bench definitely marks the Eagles as a better ball club than was expected earlier in the season.

The lack of reserve strength was to have been the team shortcoming, but now it appears that Coach Maines may elevate some second stringers to starting assignments.

About every boy that played showed definite promise but especially outstanding was the passing of Kelly, running of Rice and the play of R. Smith, B. Smith and Patterson.

The Knights touched pay dirt first in the game and held a six to nothing lead for a few minutes, but the superior manpower and experience of the Eagles told the difference. Hudson, Lipscomb and Denier furnished most of the Florence offense.

Irvin Luck, right end of the Knight team, was injured during the contest.

Hebron again showed their strength by downing a good New Haven six by 52-20 at Burlington Saturday night. The Cards were paced by their eighth grade passing sensation, quarterback Gary Purcell, who hit his pass targets Parelli fashion. Hodges, Black and Powers were bright spots on the Card defensive. Hebron led at half-time by a 32 to 6 margin.

Coach McAllister's Tigers again played a good ball game but were greatly handicapped by a lack of reserve strength.

Next Week's Schedule
Hebron at Blackey Saturday, September 21.
New Haven vs. Crittenden at Burlington Friday, Sept. 21.
Florence at Dry Ridge, Friday, September 21.

TB Still Kentucky's Top Health Problem Says Joe D. Miller

Five New Hospitals Opened In State Since 1948.

Tremendous strides have been made by the State in treating tuberculosis during the past year but it still remains Kentucky's prime public health problem, Joe D. Miller, acting executive director of the Kentucky Tuberculosis Sanatoria Commission, reported to Gov. Lawrence W. Wetherby.

Miller cited the opening of the five new hospitals with 100 beds each, and the expenditure by the State of approximately \$2,500,000 since July 1, 1948 in administration of an intensified treatment program—exclusive of the cost of new buildings—at each of the six hospitals operated by the State.

During the last year there were 2,295 cases of tuberculosis given treatment at the hospitals, with 1,181 cases being hospitalized. The present picture indicated 5,000 cases will be treated during the current fiscal year.

There were 318 chest surgery operations performed, according to Miller, with Hazelwood having a record in this field second to none in the country.

In addition to the cases given treatment at the hospitals, there were 16,106 chest examinations made, and 3,978 out-patient clinic visits given during the year.

Miller declared that at relatively small expense, 250 additional beds could be added at existing hospitals thus enabling the care of additional patients threatened with the "dreaded white plague".

It is planned to make full utilization of all facilities at all the hospitals thus permitting "even greater accomplishments," Miller declared.

Teen-Agers Should Stay In School, Wetherby Says

Frankfort, Ky.—Teen-age children should stay in school instead of being lured away by defense production jobs, Gov. Lawrence W. Wetherby advised today.

The Governor made the statement as a result of figures received from the United States Department of Labor showing that many youngsters have left school to take defense jobs since the fighting started in Korea. The Department of Labor is calling on governors of all the states to urge children to finish their education.

"Teen-agers" quitting school to take jobs can be a serious waste of manpower in Kentucky," the Governor said. "We need not only production jobs since the fighting started in Korea. The Department of Labor is calling on governors of all the states to urge children to finish their education."

SCALDING NEEDED IN FREEZING VEGETABLES

That scalding is a necessary step in preparing most vegetables for freezing, regardless of how short or how long a time they are to be stored, is emphasized by Miss Florence Imlay of the College of Agriculture and Home Economics, University of Kentucky. She calls attention to a U. S. Department of Agriculture report on experiments made on green beans and corn.

When the vegetables were frozen without blanching, both developed off flavors, while those scalded before freezing showed little if any change. Unscalded green beans lost their attractive color, developed an off-flavor in three weeks and were inedible in a month.

Corn in the husk was unpalatable by the time it was frozen. Husked, packaged, and frozen, but not preheated, it changed flavor in a week.

"Scalding is a very necessary step in the successful freezing of corn and beans," Miss Imlay stated.

Several Hickman county farmers filled silos with grass silage for August use, and will refill with grain silage in the fall.

On the farm of Robert Bishop in Rowan county, an average of 200 pounds of beef to the acre were produced.

Sketches Of Old-Time Petersburg Residents As Written By E. Y. Chapin

Solon Early

He was one of our villagers who managed to read books where they were so scarce. His intelligence manifested itself in other ways. When he gave our first Lyceum on a stage of boards laid on top of whiskey barrels in our Methodist Church, he made us shout with laughter as the star in "The Clock Maker's Hat."

He was the only skilled plasterer in the village and my grandfather called him in when he added a room to his house.

There was a hymn of those days, which recited how you were not debarrd from religious service by lack of material resources. One verse began, "If you have not gold or silver" and I can hear Solon's lutey baritone as he added his own improvised line, "Then you have no business here."

My adoration for him attained its apex when he consented to represent me at the marble yard. By this, I do not mean the sculptor's studio where cupids and urns and other memorial emblems are carved, but the tightly packed cinder sidewalk along Snyder's Store, where we urchins played marbles for "keeps."

Solon was a wonderful shot with the agate taw, which I furnished him, and retained enough fondness for the game and for me to act for me in these contests. The results were, not only a well-filled marble bag, but some cherished memories of famous shots at marbles in the ring.

Later, through inheritance, Solon's mother became a landed proprietress and Solon undertook to cultivate her farm. With his customary enterprise, he did not con-

tent himself with the local market, but drove a wagon, laden with the products of his gardening, to Lawrenceburg and Aurora, neighboring Indiana towns.

His thrift and enterprise were rewarded and nothing but an untimely death prevented him from leaving an estate of consequence.

I can never forget his bright mind and winning ways. I had great admiration for his intellectual gifts, but I must confess that the accuracy with which he could knock a plaster or a crystal out of the ring had its influence. He was one of the boasted ornaments of our village.

—E. Y. Chapin.

STATE NEEDS SECRETARIES FOR WORK IN FRANKFORT

The State of Kentucky needs experienced secretaries and stenographers to work in its Frankfort offices.

George T. Stewart, director of Personnel, said that there are a number of jobs now open and that no applicants have filed for them. Salaries are from \$180 to \$210 a month and typing and shorthand are required. Applicants must be between 20 and 40 years of age.

Stewart said that applications may be made by letter or by contacting his office personally. Written examinations for the positions can be arranged any day, Monday through Friday, he said.

There are also a few jobs open for engineers, accountants and draftsmen, Stewart reported.

Twenty-eight burley growers in Graves county ordered a carload of coke through the Farm Bureau.

COON HUNTERS GIVEN BREAK BY DIVISION

The Game and Fish Commission gave the coon hunters a break at their last meeting, the Division of Game and Fish reported last week. During the month of November coons and possums may be taken with dogs only. This period is meant primarily, the Division says, as a month in which the coon hunter may train his dogs. The regular

season for furbearing animals opens on December 1 and continues thru January 31.

QUESTIONS ABOUT THE NEW SOCIAL SECURITY LAW

Do you have any questions about the newly amended Social Security law?

Many people have questions about the social security program but hesitate to contact the office. They ask their friends, their relatives, and everyone else, and as a result they receive many different answers, become confused, and many times monthly benefits are lost.

If you have any questions about

social security, you should contact the nearest office of the Social Security Administration and know that you will receive an answer that is based on the law. Your questions might pertain to your wage record, your eligibility for benefits, how benefits are calculated, or in regard to your social security account number card.

Residents in communities outside commuting distance of Covington should contact the social security representative when he visits your city. Ask your Postmaster for the date. Meanwhile, if you will drop

a card, or telephone the Covington, Kentucky Social Security office, you can receive your free copy of the latest booklet on the new social security program. Ask for Book No. 35.

MISSION STUDY

Mrs. Charles Goodridge entertained the Friends of the Christian Missionary Society with a covered dish supper on her lawn Friday evening, Sept. 7th. After enjoying delicious food and a pleasant social hour, we were invited into the living room where our president, Mrs. Harold Conner opened the meeting. We were led in prayer by Mrs. Geo. Newman. Roll was called by the secretary, Mrs. Clarence Wolfe, answered with a verse of scripture. Mrs. Conner presided over the business session after which Mrs. Harve Baker took charge of the program.

Several papers were read on foreign missions, what they are doing and the help they so much need to accomplish this great work. Mrs. John Schram talked on "Global Highlights, News of the World through the eyes of the Church." Mrs. Thomas McHenry had the devotion.

Our meetings are helpful and enjoyable and we would like more of our church members and friends to attend. We wish to thank Mr. and Mrs. Goodridge for a lovely evening. Our next meeting will be at the church Oct. 5th, 8 o'clock.

—Publicity Chairman.

GROUND OBSERVER CORPS NEEDS 12,000 VOLUNTEERS

Frankfort, Ky.—Some 12,000 Kentucky volunteers will be needed to form a Ground Observer Corps for Civil Defense, Major Roscoe L. Murray, State Civil Defense director, has announced.

The volunteers will be used in emergency as aircraft spotters in observation posts that will be set up all over the state and in filter centers in Louisville and Lexington that will receive information from the posts.

Preliminary surveys indicate that Kentucky will need about 450 posts with about 25 persons trained to man each post. An additional 1,000 volunteers will be needed at the filter centers.

All of the observers will be civilian volunteers, Murray said, and none will be asked to put in any time except during an emergency and during Civil Defense exercises. They will be given instructions by the Air Force which will also provide five officers and airmen to help operate each filter center.

Recruiting will be done by local Civil Defense directors and the administration of the observer program will be the responsibility of the state office. Murray said that he hoped to have the organization in operation by Nov. 1.

Millions Suffer

N. TULCH

Foot Comfort Specialist at—
PEOPLE'S SHOE STORE
814-816 Madison, Covington

It has been proven that you cannot be well with unhappy feet! Those headaches, those backaches, those leg pains are caused by the shoes you are wearing. Why not demand the same progress in shoe construction as on trains, planes, and other transportation? You walk miles each day, stand hours and yet wear shoes that will surely lead to ill health and awkward posture.

Parents scold children for slouching and slumping when their shoes are to blame. People suffer mental upset, nervousness, aches, and pains when proper shoes (shaped to fit and support those fifty-two bones in your feet) would benefit the entire body and preserve your general health.

Fortunes are spent on patent medicines and appliances when a correct shoe alone is the answer. Why suffer long? Why take chances with your health, comfort and peace of mind? Visit the store that has been schooled in foot anatomy and foot mechanics to insure getting the proper type shoe for your particular feet.—Adv.

Cards and Eagles Will Tangle For Top 6-Man Honors

Winner Will Take First Place In Conference Standing.

"The game" . . . the one the fans have been waiting for will take place Friday night when the defending conference champion Burlington Eagles take on Hebron's Cardinals in a 6-man football contest at the Burlington field. The largest crowd in the history of the game here is expected to be on hand for the big clash.

Opinion seems to be about evenly divided as to which of the two "bigs" of Northern Kentucky 6-man football will take the game and thus first place in the conference standings.

Hebron is sporting a three and nothing record this season with two of the wins being in conference play. They have defeated Florence 66 to 6, New Haven 52 to 20 and Stuart Robinson of Blackey, Ky., 14 to 0. The Eagles have defeated New Haven 40 to 13 and Florence 85 to 18.

Coach Ransler has a number of veterans for the crucial contest but will depend a lot on his star eighth-grade quarterback Gary Purcell to pitch the team to victory. Other stalwarts in the Card lineup will be Hodges, Tanner, Townsend, Black and Powers.

Coach George Malmes may be without the services of co-captain Ray Holbrook, who has been sidelined with a knee injury, but he will still have veteran performers in most positions. A youngster, Hobart Adams, who began the season as third string center has been moved up to regular defensive center and though inexperienced he has added a lot to the defensive team.

The game shaps up as a natural with the fireworks being supplied by the passing of Purcell and running of Dock and Ed.

Tigers At Crittenden
New Haven's up and coming Tigers will try to make it two straight when they go against the Crittenden Bulldogs at Crittenden Friday. The Tigers massacred the Bulldogs last week in a game at Burlington. Dry Ridge will entertain Blackey (Sept. 29) night.

Games Last Week
In games played last week Hebron's Cardinals defeated a strong Stuart Robinson six at Blackey, Ky., by a 14 to nothing score in a game played on a soggy field and in a downpour of rain. The game was a scoreless deadlock at the halfway period. Though the weather was bad and the Cards didn't have much chance to open up their offensive the game did prove that Blackey has one of the top six-man outfits in the state. The win was Hebron's third of the young season against no losses.

Knights Lose
The Florence Knights were defeated by Dry Ridge's Cardinals by a 62-32 score at Florence last Friday afternoon. The halftime score was 39-13 in favor of the visitors.

The winners were paced by Howe, who was outstanding both offensively and defensively. The Knight team showed a considerable improvement in offensive play over previous games. They penetrated the big Cardinal line often and were able to rack up six touchdowns. The Dry Ridge team, position for position, is the largest six-man team in the conference and show signs of being a powerhouse before the season closes.

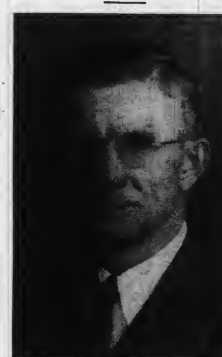

Tigers Win
New Haven's Tigers hung up their first win of the young season as they drubbed the Crittenden Bulldogs by a 60 to 0 score at the Burlington field last Friday night. The Tigers ran wild through and over a weak Crittenden line and they had little trouble in smothering what little attack the Bulldogs could muster.

Youthful Grower Of County Seeks Vegetable Crown

Frank E. Butler, of Walton Is Boone County's Entrant In Contest

Boone County has one candidate for the national junior vegetable growing championship.

The competition is the 11th annual production-marketing contest of the National Junior Vegetable Growers Association, which will be climaxed in December with \$6,000 in cash scholarship awards provided by A & P Food Stores going to young farm folk throughout the country.

John S. Gardner, Extension Horticulturist, University of Kentucky and state NJVGA chairman, announced that Boone County contestant is Franklin E. Butler, Walton.

He explained that the contest is an educational program "designed to teach farm youths enrolled in the program the most profitable methods of growing and marketing vegetables." The champion, he added, wins national acclaim as a farm youth leader as well as the \$500 first prize. More than 225 other awards are made on a regional, sectional and state basis. The winner in 1950 was James Bee of Phillips, W. Va.

Winners are named after the records of growing and marketing activities of each contestant are studied by panels of experts made up of officials of the U. S. Department of Agriculture, college personnel and other experts in the fields of production and marketing.

Bob and Gene Take First Game In KAG Championship Series

Thirteen Innings Required To Determine Winners.

Bob and Gene will meet Grants Lick Sunday at Florence in the second of their three-out-of-five series for the champion of the K. A. G. Baseball League.

Bob and Gene took the first game last Sunday at Grants Lick by 2 4 to 1 score. It was a 13-inning thriller in which Bob and Gene came from behind to tie the score after two were out in the ninth. Whitey Brown drove Tom Imfield home with a single over second. In the thirteenth Bussman walked and Ritter laid down a perfect bunt. Bussman tried for third and was thrown out with Ritter taking second. Tom Imfield drove Ritter home with what proved to be the winning run. Alessandro singled Benson walked and Ritter beat out an infield hit which scored Imfield and Alessandro scored on a fielder's choice and that was the ball game.

Grants Lick scored their run in the seventh on a single, stolen base and another single. Gene Bussman pitched for Bob and Gene and allowed 8 hits. He struck out 11. Allen Flaughner hurled for Grants Lick and allowed 13 hits but struck out 18. He was relieved by Allen Nagel with one out in the thirteenth.

Every member of Bob and Gene's team had at least one hit, however, Whitey Brown had three and Imfield and Ritter each had two. Allen Flaughner batted out three hits for Grants Lick, one of which was a triple.

Bob and Gene played errorless ball and executed two double plays. Bussman or Ryan and Bauman will probably be the battery for Bob and Gene Sunday, with Flaughner and Goetz opposing them for Grants Lick.

Approximately a thousand people saw last Sunday's game.

Elsmere Home Damaged By Gas Blast Thursday

Damage To Two-Story Frame Dwelling Set At \$2,000.

A two-story frame dwelling at 40 May Street, Elsmere was severely damaged Thursday when a faulty connection to a kitchen stove caused a gas explosion, according to reports. Damage was estimated at \$2,000.

Adrian Sorrell, who was moving his family into the second floor apartment, was burned on the hand trying to put out the blaze. He was taken to St. Elizabeth Hospital for treatment.

The fire was confined to the second floor by Elsmere firemen. All kitchen furnishings were lost and some damage was caused in the living room where furniture was scorched and smoke damaged.

Chief Crowell said Mr. Sorrell had connected the stove and had lighted it to test it when the explosion occurred.

The fire department was delayed reaching the scene because the person telephoning the alarm was interpreted as saying "40 Main Street." The firemen immediately retraced their route when they found they had gone to the wrong address.

Revival Services Are Set At Bullittsville Christian Church

The Bullittsville Christian Church will observe its annual Preaching Mission October 3-12th. Rev. J. A. McCullough, Lawrenceburg, Ky., will deliver the messages each evening at 8 o'clock.

On October 7th, "World Day of Communion" will be observed at the 11 o'clock service. Rev. Young will bring the communion message.

Wilton Stephens Named President Of Commissioners

At State Meeting Held In Louisville Last Week.

Wilton Stephens, well known Boone County Tax Commissioner, was elected president of the County Tax Commissioners Association at a meeting held in the Seelbach Hotel, Louisville, last week.

Stephens, who has served as Tax Commissioner of Boone County for the past eighteen years, is rated as one of the most outstanding tax commissioners in the State.

Pershing Story, Flemingsburg, was elected vice-president, and P. J. Wonn, Ashland, secretary-treasurer.

The commissioners will ask the next session of the General Assembly to change the deadline for automobile license tags from March 1 to January 1st. They believe the change would bring about greater convenience in figuring personal property assessments. Assessments are figured on the basis of property owned January 1st.

Another recommendation made by the commissioners at the conference was to ask the legislators to raise their minimum salaries from \$2,400 a year to \$3,000. About a fourth of the commissioners now make less than \$3,000, officers said.

The commissioners concluded their conference Friday.

American Legion Open Membership Campaign In County

Record Membership For 1952 Is Objective Of Group.

An intensive campaign to enroll every war veteran in this community in The American Legion for 1952 was announced today by Commander Francis Southern, Commander of Boone Post No. 4 of Department of Kentucky.

"Our objective is to establish a record membership for 1952," Commander Southern said. "The American Legion today is the greatest bulwark of genuine Americanism in this country. Every eligible veteran should belong to The American Legion. It is his organization. It exists primarily to promote the interests of America and of the defenders of America. There is a job waiting for every war veteran in The American Legion—a job that has to do with making this community a better place in which to live as part of a nationwide program of keeping America stronger, more secure, more prosperous and always American."

Commander Southern said that Ernest L. Cushman membership chairman of the local American Legion Post would be in charge of the 1952 enrollment drive.

"An intensive recruiting program will be carried on during the period from now until to December 15, 1951," Commander Southern said. "We will have several teams of membership workers calling on all local war veterans. The teams will compete with each other. The losing team will have to dine the winners."

The local American Legion Post mustered a membership of 105 in 1951.

"We have set our quota much higher for 1952," Commander Southern said. "Other Posts have enrolled all eligible veterans in their communities. We can do it here. The more members we can enroll, the more we can do in serving our community, our state and our nation. There has never been such need for a strong all-American organization as there is today when the tide of Communism is running high all over the world. As long as a strong American Legion exists, the Constitution of the United States of America is assured of a powerful champion and protector."

McGregor, Sand Run Baptist Church will hold revival services each evening at 8:00 p. m. beginning next Monday evening, October 1st and will continue through October 12th. Song services will be conducted by Bro. Bernard Wilson, another home boy and a member of Sand Run.

The pastor urges the people of the community to attend these services, and extends to each and everyone a cordial welcome.

North Bend Churches Plan Sunday School Meeting October 2nd

The associational meeting of the North Bend Baptist Churches will be held Tuesday night, October 2, 7:45 p. m. at the Erlanger Baptist Church.

This will be the first meeting of the new year, and Rev. Johnson, superintendent, is asking for a large attendance. A splendid program has been arranged with Bruce Campbell in charge of the song service. Special music has been arranged.

Several matters of business will be brought before the group at this time, and Rev. Ted Dougherty will bring the inspirational address, "The Open Door," following the business session.

It is the hope of the superintendent that all departments of the Sunday School work will move forward an accelerated pace. Goals for the association call for an increase in enrollment of 15 for every 100 members in the church; a teachers meeting or workers council in every church, plus a greater emphasis on bringing Bibles to Sunday School.

Slight Advances Anticipated In Farm Products

Outlook Given By Bill Davis, Boone County Agent.

Many factors may change expected developments in farm prices but at present the situation points to slight advances in prices of beef cattle, eggs, wool, and manufactured dairy products. Hogs and poultry should trend downward with sheep and lambs holding near present levels for top grades, according to Bill Davis, County Agent, Boone County.

A two-way price movement in beef cattle usually develops in September and October with better grade showing some upward movements, while prices of lower grades and grass-fed cattle decline. The price spread between higher and lower grades may not be as wide this year. Price control measures may prevent prices of top grades from showing a normal increase, while expected strong demand for beef will tend to hold lower grades at or near present levels.

Hog prices may continue to be seasonally downward during next 90 days. Prices during the next 30 days will show almost daily fluctuations depending on the volume of marketings. As the market changes from fall to spring pigs it is normally quite sensitive to variations in receipts and as a consequence prices change frequently.

The hog corn ratio at Chicago dropped from 13.2 early in August to 11.8 the latter part of the month. This was due to slight increases in corn prices and a decrease in price of hogs. The decline in feeding ratio has resulted in a weakening demand for feeder pigs.

The price of milk and manufactured dairy products will advance somewhat in the period just ahead. The price paid for manufacturing milk may show a moderate seasonal advance while the price paid by fluid milk markets in Kentucky will be considerably higher than prices last spring. Factors contributing to the upward trend will be the seasonal decline in milk production and a strong over-all demand for dairy products.

Lamb prices normally decline during the fall months as supplies increase and quality decreases. With exceedingly short supplies expected this fall and a strong demand, prices are expected to remain at or near present levels for good to prime lambs, but to decline on the poorer quality lambs.

Steady to higher prices for eggs and considerable fluctuation in the price of chickens and other poultry are in prospect in the weeks ahead.

As regards the general economic situation—the consumer's price index, a measure of retail prices, for July was 8% higher than that of a year ago. The rise in retail prices has been possible because disposable personal income is estimated to be 14% higher than a year ago. Furthermore since wage rates are moving upward in some industries and since employment is near peak levels the total disposable personal income continues to rise.

This indicates that some further price increases are probable. Also, the fact that plans for national security call for sharply increased expenditures tends to add to evidence that inflationary pressures will increase.

In comparison with this general economic situation, the index of prices received by farmers decline for the sixth consecutive month during the month ending August 15, but is still 8.4% above that of a year ago. At the same time, however, the index prices paid by farmers for commodities, interest, taxes, and wages in mid-August was 9.7 percent higher than a year ago and was within one point of the all-time record high. Thus, prices received and prices paid by farmers have changed about the same amount so that the parity ratio in mid-August was about the same as a year ago.

Burlington Stores Make Improvements

Two Burlington grocery stores have made extensive improvements during the past week. The stores are Gulley & Pettit and Smith's Grocery.

A complete renovation of Smith's store is noted, with the addition of a new dairy refrigeration unit. Gulley & Pettit have added a new vegetable refrigeration unit, and rearranged a section of their store.

Changes in both stores were made during the past week.

Lloyd Weaver is improving at Christ Hospital, after a recent illness.

Worship Service 10:30.**Is Your Child Ready For School?**

Now that your child is in school—is he or she at the peak of fitness for the ordeal?

A famous book, "Children's Health and Happiness," by Margaret Brady, M. Sc., will help to make your child fit in every way—physical, mental and spiritual.

Mrs. Brady is the mother of three wonderful children, and her book is practical. It has wide popularity in Great Britain, where it was published.

This wonderful book treats of everything a mother should know to enable her children to meet with the greatest possible success in school and in their adult years.

"Children's Health and Happiness" is a companion volume to the previously advertised "Having A Baby." Prompted by the very generous reception given this book, I am encouraged to offer "Children's Health and Happiness," at the same price, \$2.75.

Dr. Irene E. Barbasch, 2 West Pike S., Covington, Ky., phone AX 0746, is the sole United States importer and agent for this vitally interesting book.—Adv.

Mr. Hemphling was organizer and director of the Boone County Farm Bureau and probably was the most active man in the county in the various organizations, which are for the improvement of the county and state.

Hemphling, both of near Taylorsport; a sister, Mrs. Nita Bentham, Baltimore, Md.; his mother, Mrs. C. O. Hemphling, Taylorsport, and three grandchildren, Anita, Mary Beth and Sue Hemphling.

Meat Ceilings Are Issued By OPS Effective October 1

Wholesale Ceiling Are Necessary, According to Jos. H. Seissiger.

The Office of Price Stabilization today issued dollars and cents ceiling prices for 124 cuts at wholesale and in a separate regulation allowed retail prices to reflect the new wholesale ceilings.

Joseph H. Seissiger, Acting Chief of the Food and Restaurant Division of the Cincinnati district OPS, said the new regulations were effective October 1, 1951.

"The wholesale ceilings are set at a figure to reflect farm parity for live hogs," Seissiger explained. "This probably will result in some immediate higher ceilings for some wholesale pork items and will permit adjustments in present retail ceilings to reflect these increases."

It is estimated that the increases will average 1 1/2 cents to two cents in retail ceiling prices.

It is anticipated, however, that actual selling prices in meat markets will soon be below these ceilings because an unusually large marketing of hogs this fall is expected to bring down wholesale prices and in turn, retail prices.

"Price cuts for ham and bacon will result," Seissiger said, "because although these two items have been selling to butcher shops at five cents a pound under previous ceilings, many retailers have not been passing this reduction along to customers. Under the new regulation they must immediately reflect the wholesale price in their retail price."

"The wholesale ceilings are necessary at this time," Seissiger declares, "to adjust inequities of ceiling prices frozen under the General Ceiling Price Regulation and to permit wholesalers to realize their normal operating margins. The ceilings take into account current costs of operation, including recent wage and salary increases in the industry."

Eagle Squad Turn In Best Performance In Tilt With Hebron

Largest Crowd Reported Since Opening Of 6-Man Game.

Burlington's Eagles displayed their greatest performance in 6-man football last Friday night at the local field when they smothered a good Hebron Cardinal team by the lopsided score of 70 to 24. The hard-charging Eagles let it be known early in the contest that they were out to win the all important Conference game. It took the Eagles just two plays and one minute and ten seconds to hit pay dirt. Burlington lost the toss for opening kickoff and Lustenberg kicked to the Cards who fumbled on the B. H. S. twenty where it was recovered by Hebron, Eagle end. On the first play from scrimmage Jones picked up fourteen yards and on the next play Deck went the rest of the way thru the middle of the Card line for six points. Lustenberg added the two extra points with a perfect kick.

The Eagles went on to pile up a 28-6 first quarter lead. They increased this to 41-6 at halftime. They ran it to 57-18 at the end of the third quarter and in the final quarter Coach Maines emptied his bench to run up 13 more points while the Cards were getting their fourth touchdown.

For the Eagles, no particular player could be singled out as the outstanding performer. The entire regular line of Lustenberg and co-captains Rouse and Holbrook did a remarkable job of blocking and tackling. Quarterback Jerry Ryle called an almost perfect game and completed nine of thirteen passes. Halfbacks Jones and Deck furnished the running game.

Hebron's passing artist, Gary Purcell, had trouble all night. He failed to get the necessary pass protection and was consistently forced to hurry his passes. Zeigler showed most of the Card's offensive punch.

One of the largest crowds ever to attend a six-man contest was on hand for the crucial game.

In the only other contest the past week end Dry Ridge, defeated Blackey at Dry Ridge by a 18 to 13 score. This was a non-conference contest.

Buildings Drop Game

The Crittenden Bulldogs, members of the Northern Kentucky Six-Man Football Conference, announced last week that they will not play the remainder of their schedule. A shortage of boys and several injuries to key players were the reasons for the Grant County school's decision.

Coming Games

With the Bulldogs out of the Conference Burlington will be idle this week. The Eagles were to have played Crittenden Friday.

Dry Ridge will take on Hebron at Burlington Friday night and New Haven will play Florence in an afternoon game. Game time will be one o'clock.

It takes MONEY TO BUILD!

"I just had to have more barn room . . . and some of the other buildings needed repairing.

"But it takes money to build . . . more than we had saved up. Then, a neighbor tipped me off about a Federal Land Bank loan. He told me to see the National Farm Loan Association. It was a pleasant surprise to learn that the Association was made up of my friends and neighbors . . . all good, solid, substantial farmers.

"Well, today you'd hardly recognize the old farm, it looks so nice. I can keep my livestock and crops in better shape—can operate more efficiently and make more money. And I'm happy about that 4 percent Federal Land Bank loan. I can take 20 to 33 years to pay . . . or pay just as fast as I want to without any penalty whatsoever. And I didn't have to pay a cent in application fees, appraisal fees or commissions.

"If you need money to build or improve your farm in any way, let me suggest a Federal Land Bank loan."

OBITUARY

Paul Alley Cook, son of Jacob and Mary Alice Cook, was born December 27, 1897, in Boone County, Ky., and departed from this life September 13, 1951 at his home at Dam 39 in Indiana. His age is 53 years, 8 months and 17 days. He united with the Bellevue

Church of Christ at the age of 9 years. He was united in marriage to Mabel Presser, January 16, 1922. Mabel preceded him in death March 13, 1949. On February 24, 1951, he was united in marriage to Hessie Leap.

Paul had been employed by the United States Engineers since May 1925. During this time he served as Dam Tender at Maysville, Ky., for 6 years, and had been the Assistant Lockmaster at Dam 39 for the past 11 years. Paul was very well liked by the men who worked with him.

He was a member of the Masonic Lodge, being a Past Master. He had served as president and vice-president of the Southeastern Indiana Fox Hunting Association and is at the present time director in this association. He has many friends in this Fox Hunting Fraternity, not only in this community, but also in

Kentucky, Indiana, and the adjoining states.

He leaves to mourn his departure: his wife, Hessie Cook; his stepson, Ray Leup of Indianapolis, Ind.; his mother, Mrs. Alice Cook of Bellevue, Ky.; his brother George Cook, of Burlington, Ky.; his sisters, Mrs. Cam White and Mrs. Elizabeth Williamson, of Bellevue, Ky.; one nephew, Col. Harold White, serving with the U. S. Air Force in London, England; two nieces, Mrs. Percy Ryle and Mrs. Don Loomis, of Bellevue, Ky., and a great host of other relatives and friends.

Paul will always be remembered as one who was generous, as one who joined and enjoyed life, and as one who kept his pains and troubles to himself.

Paul, this is our prayer of faith to you:

"And there from some gold splashed hill top
In the happy hunting grounds
May you listen through the ages
To the music of your hounds." 1tp**CARD OF THANKS**

Our heartfelt thanks are extended to all our neighbors, other friends, both in Bellevue and Switzerland County, Ind., who helped in any way to lighten the burden of our sorrow at the death of our beloved husband, son and brother,

Paul Cook

We deeply appreciate the flowers, cards, food and other expressions of sympathy. We also thank the undertakers Ralph Stith, of Florence, Ky., and Haskell & Morrison, of Vevay, Ind.; the pallbearers; Rev. John Huntington and Dr. Geo. Edlerbrook for their services; Mrs. J. Huntington and Jack Purdy for the message in song; Mrs. Dudley Rouse for the music and the Baptist church for the use of their church. These kindnesses will always be gratefully remembered. 1tp

**"herd build-up starts with good HEIFERS,"**

says: Mr. G. B. Hays, Henderson, Ky.

Shown above is a group of Holstein heifers in the herd of Mr. G. B. Hays, owner of Henderson Creamery Farm, Henderson, Ky. Mr. Hays fed these heifers Calf Startena on the Purina Calf Plan until they were 4 months. At 4 months his calves are rugged, with big frames, weighing well over 300 lbs.

From 4 months to freshening they are fed a gallon of D & F Chow daily with hay on good pasture. They are ready to breed at 15 months weighing 750 lbs. and fresher by the time they are 2 years old.

Heifers properly grown and well fed are usually husky enough to last about 3 more years than the average. If it's bigger heifers you want, heifers reaching production 4 months sooner, then capable of remaining in the milking herd 6, 7 or 8 years, you will want a program such as this Purina Heifer Growing Program.

We have a booklet describing this plan. Please call or drop in to see us.

State Trooper Shot By Newark, N. J. Youths Thursday

Both Shoulders Broken
By Bullets; Condition
Is Reported Good

Two teenage youths were captured Thursday night in Grant County after the shooting of State Trooper Robert Gordon, at 9:20 a. m. the same day.

The two youths registered as Jos. Patrick Manz, 18, Newark, N. J., and his brother James Stanley Manz, 15, were captured on U. S. 25 near Corinth by Russell McMillan, Williams-town policeman and State Trooper Jesse Hamilton.

According to reports, the youths had been firing a rifle along the highway near Mason and several residents of the area had entered a complaint. Trooper Gordon had been assigned to check on the youths.

Gordon, arriving at the scene approached the car occupied by the youths, and was reprimanding them for shooting firearms on the highway. He reached into the car and took a rifle from the lap of the youngest brother. At this point, it was reported the older youth stepped from the car and opened fire on the patrolman. Two bullets struck Gordon, one in each shoulder knocking him to the ground. Gordon, although severely wounded, drew his revolver and fired six shots at the fleeing youth.

Trooper Gordon, a resident of Elsmere, was found on highway by a passing motorist, and was rushed to St. Elizabeth Hospital, where his condition is reported as good at this writing.

A huge posse was organized to search for the youths. Joining in the search were state troopers, Sheriffs from Grant and surrounding counties and their deputies, conservation officers and approximately 200 civilians. Bloodhounds and a state owned plane were brought into action in the search.

Following the arrest of the youths about five miles from the scene of the shooting, Joseph Manz admitted firing the shots which seriously wounded Trooper Gordon. He was charged with shooting with intent to kill. His brother also faces the same charge. Both were placed in Williamstown Jail after failing to post \$10,000 bond.

According to reports Joseph Manz the elder of the two was a fugitive from the Woodbridge Reformatory in New Jersey. Following his escape from that institution, police said, he stole an automobile and picked up his brother.

Trooper Gordon has been a member of the state police for the last seven years and is widely known throughout this area.

Crusade For Freedom Campaign Will Extend Thru Oct. 24

Funds Will Go To
Continue Radio Free
Europe's Air-Wave Battle

The Crusade For Freedom campaign will continue through October 24, the first anniversary of the dedication of the World Freedom Bell in Berlin, it has just been announced by George Hart, Kentucky Crusade chairman. He notified county chairman of the new closing date to conform with the national schedule.

Hart said he had been advised by Harold S. Stassen, national campaign chairman, that national response to the Crusade's truth campaign against Communism had been enthusiastic and that the nation is blanketed with local organizations seeking members and funds.

The Crusade, whose collected funds go to continue Radio Free Europe's air-wave battle against Soviet propaganda and tactics, "is really catching on in Kentucky," the State chairman said. The informational efforts by press, radio and television have been "splendid," he said, and the Kentucky Crusade hopes to have gifts and members from every county before the closing deadline.

Those who have not been contacted by any local Crusade organization may send their gifts to Crusade For Freedom, 205 W. Chestnut Street, Louisville 2, Ky., and the donations will be credited to the county from which they came, Hart announced.

W. P. McEvoy, Boone County Chairman stated that response to the local campaign had been rather slow, and urged all Boone Countyans to assist in the drive. Contributions can be mailed directly to Mr. McEvoy, County Chairman.

Hebron's Cardinals rebounded from their defeat of two weeks ago to hand Dry Ridge's up-and-coming team a 14-0 defeat a Burlington last Friday night. The game was a thriller from the beginning as both teams were scoreless at the end of the first quarter and Hebron held an 8-0 halftime advantage. The winners pushed over another TD in the final minutes of the contest.

According to local observers, the Dry Ridge team showed great improvement and should make it plenty rough on conference opponents throughout the remainder of the season. Coach Cole's team showed tremendous defensive power.

Tigers Trim Knights
Coach Bill McAllister's New Haven Tigers defeated the Florence Knights last Friday afternoon to the tune of 30 to 14 at Florence. The Tigers held a 13-8 halftime lead.

Scrap Drive To Open In County October 15th, Word

Heavier Scrap Needed
By Mills For Defense
Production.

Farm scrap is urgently needed and especially valuable for defense production. A concentrated scrap drive will be made between October 15 and November 15, according to Bill Davis, County Agent. The high grade, heavier type scrap found on farms is especially needed by mills for defense production.

Scrap is one of the principal ingredients used in making steel. Steel is approximately one-half scrap and one-half pig iron. Scrap adds to the quality of steel, helps to keep production costs down and shortens the refining process. For every ton of scrap used, we conserve approximately two tons of iron ore, one ton of coal and nearly one ton of limestone.

Rounding up scrap does take a farmer's time and effort and the financial returns are not high. However, higher prices are being paid for scrap now than during World War II and a little cash return is better than none at all. An adequate flow of iron and steel scrap helps guarantee raw materials for the farm machinery and equipment industry. Farmers can further help themselves by removing scrap to keep it out of the way of farm workers and livestock as a safety measure.

Some farm sources of scrap that can be used are worn out machinery, plow points and shares, horse drawn equipment that has been replaced with tractors, old electric wire, storage batteries, water tanks, baling wire and fencing.

Breeding Ass'n. Annual Meeting Held October 8th

Two Amendments To
By-Laws Made At
Meeting.

The Boone County Artificial Breeding Association held its annual meeting in Burlington, October 8th.

Two amendments to the by-laws were made at the meeting. The first amendment abolished the article requiring the association to carry bonds on the treasurer and inseminator. The Kentucky ABA which had been carrying the bonds, discontinued the practice and left the matter to the discretion of the local association. It was felt by the members that the regular association would prohibit any large shortage from occurring.

The second amendment raised the maximum fee that could be charged for first service to seven dollars instead of five. This will permit the association to charge seven dollars for first service without again changing the by-laws. A motion was then passed by the members attending to charge six dollars for first services. The extra dollar will go to the inseminator whose present income for his work is at a substandard level. The increased ratio will be effective November 1, 1951.

Two new directors elected are Wilford Scott, Burlington and Emerson Smith, New Haven. They will replace Grant Maddox and J. T. Stevens, retiring directors.

Ken Young, field agent for the KABA, showed slides of the bulls in the stud and some of their offsprings. These slides were used to show the ability of the bulls to pass on to their offspring the traits desirable in dairy animals.

A picture, "Man Made Miracles" was also shown. The picture showed the progress man has made in the breeding of various animals for specific purposes.

L. R. Dieckhaus, representative of the James Manufacturing Company, discussed barn waste systems, milking parlors and barn manure removing systems.

Door prizes and refreshments were furnished by Roberts Feed Mills, Hebron.

Funeral services for Henry C. Mills, 77, a retired farmer, who died Thursday at the home of his daughter, Mrs. Stanley Fooks, Verona, were conducted at 2:00 p. m. Saturday from the Walton Methodist church. Burial was in Independence Cemetery.

It takes MONEY TO BUILD!

"I just had to have more barn room . . . and some of the other buildings needed repairing.

"But it takes money to build . . . more than we had saved up. Then, a neighbor tipped me off about a Federal Land Bank loan. He told me to see the National Farm Loan Association. It was a pleasant surprise to learn that the Association was made up of my friends and neighbors . . . all good, solid, substantial farmers.

"Well, today you'd hardly recognize the old farm, it looks so nice. I can keep my livestock and crops in better shape—can operate more efficiently and make more money. And I'm happy about that 4 percent Federal Land Bank loan. I can take 20 to 33 years to pay . . . or pay just as fast as I want to without any penalty whatsoever. And I didn't have to pay a cent in application fees, appraisal fees or commissions.

"If you need money to build or improve your farm in any way, let me suggest a Federal Land Bank loan."

**C. Liston Hempfling
IN MEMORIAM**

C. Liston Hempfling, Director-Vice President of the Northern Kentucky Production Credit Association while returning home after attending a conference of the Kentucky Production Credit Associations at the Kentucky Lake Dam, September 29, 1951, was killed in an automobile collision by an intoxicated man without a sense of responsibility or regard for human life.

Mr. Hempfling gave 17 years of continuous service to the Northern Kentucky Production Credit Association before meeting his tragic death. Seventeen years is a short time in the sum of mankind's struggle, but in the life of a man it is ample time for him to demonstrate the motives and purposes of his life and for his associates to appraise them. While his loss to the members of the production credit association cannot now be fully evaluated this modest tribute to his memory is but a timely and becoming expression of our immediate sense of the profound loss we have sustained in his death.

Endowed with a vigorous and intense mind the heritage of noble parentage and a balanced sense of the real values of life; his preparation in the public schools of Kentucky and a close contact in farm life equipped him for a career of useful service in the field of his devoted endeavors of many years.

He was a director and member of the executive committee of the Association since its inception; this provided him a "labor of love"; throughout all the years his motive was never selfish nor his purpose ever base. He possessed deep and firm political, moral and religious convictions, fortified with courageous integrity and honesty. These virtues were always uppermost in his mind in the discharge of his responsibilities.

C. Liston Hempfling in his life's work was esteemed as a man with broad experience, sound judgment and safe council. In all councils and conferences seeking the right answer to vexations and disputed questions his opinion and judgment

were of great value in arriving at the right conclusion. In the matter of friendship he was loyal, indulgent and without guile. In this respect exemplified the conviction that friendship is "the most valuable and fairest furniture of life."

And now, it being the desire of the board of directors of the Northern Kentucky Production Credit Association that this appraisal of C. Liston Hempfling be employed and preserved for its purpose, therefore, be it resolved that this memorial be spread in full upon the record book of minutes and proceedings of this Board and that a copy together with the sympathy and solicitude of this Board be conveyed to the members of his family.

Respectfully submitted,

Farmers Given Tips To Lessen Effects Of Drouth Area

Hay and Corn Supplies Should Be Purchased Now, Says Agent.

"We all know of course that the only way to end a drouth is with several inches of rainfall, which, in this area, has not occurred." This statement was made by Bill Davis, County Agricultural Agent, Boone County. He went on to say, "We have no control over the rainfall, but there are several things farmers can do to lessen the seriousness of the drouth during the coming winter and spring."

The first thing to be done is to plant small grain crops for pasture and winter cover. There is still time to plant wheat and rye for these purposes. Balbo rye is probably the best under conditions such as we are now experiencing as it makes a quicker growth in the spring after late fall planting. The application of lime and plenty of phosphate and potash fertilizers will also increase growth. These small grains should not only be sowed on row crop land but on old lespezea fields and worn out pastures.

The application of 100 pounds per acre of ammonium nitrate on small grains in February will bring forth an early growth and enable

livestock raisers to turn on to good pastures in the very early spring and stop feeding hay that they will have to buy.

Pastures are still extremely short and it is an excellent practice to save back one pasture this fall and keep cattle out of it. Overgrazed pastures are slow to come back in the spring, while this one pasture saved back will make a rapid growth next spring.

Even though home grown feed will be short this winter, dairymen should purchase sufficient feed supplies to carry their herds thru the winter in good condition. Cattle out of condition and short of feed during the winter have a greater tendency to contract a disease called grass tetany when turned out to flush spring pastures.

Hay and corn supplies should be purchased now. The further we get into the winter feeding period the higher feed supplies are likely to be.

Many livestock men are contemplating a liquidation of their herds this fall to keep from buying winter feed. These same men plan to buy back replacement herds next spring. Dairymen considering this plan should examine the situation very closely before making such a move. With home grown feed in short supply, not many men are willing to buy extra animals to take through the winter, consequently the herds cannot be liquidated at a favorable price. Good replacement herds will undoubtedly be high in the spring when the pasture season is just ahead. Furthermore, good replacement cattle are always hard

to find.

Advice to dairymen contemplating such a move is to keep good cows and heifers and buy feed for them. The herds should be culled very closely to remove low producers, cows with damaged udders, old cows and bulls. Bulls especially should be removed from small herds. A bull eats as much as a producing cow and gives no return for the feed. With artificial breeding services available to all dairymen, there is little to be gained by keeping herd sires in small herds.

In regard to winter feeding, it will be advisable to pay particular attention to production and feed hay and grain accordingly. When purchasing feed supplies one must be extremely careful and feed according to production or losses rather than profits will result. It is not advisable to cut down on hay and substitute grains which may be cheaper. A cow is naturally a roughtage consuming animal and must have a proper amount of roughtage to produce at her best."

Dodge Prepares For '52 Models

The 1952 Dodge car will be introduced in mid-November, it was announced today by Earl M. Aylor, Hebron Garage, Hebron, Ky. Mr. Aylor has just returned from a regional dealer meeting at Cincinnati, Ohio, where plans were made for the 1952 model year.

"The new Dodge will be better than ever," Mr. Aylor said. "It will have attractive changes inside and out and there will be a new type of reducing agent, grease reducing window glass as an optional feature at a very low extra cost." All 1952 models will be available with Gyromatic time-proven transmission.

"With all the refinements and improvements this car is going to have I think the 1952 model will be the highest value car Dodge has ever built," he said.

He said he expected to have the new cars in his showrooms sometime in mid-November and would begin demonstration rides for the public immediately following the first showing.

What the FORD NAME means to those who feed America!

MODEL "T" FORD

LABORATORY RESEARCH

1917 FORDSON TRACTOR

TODAY'S FORD TRACTOR

From the beginning, the name "Ford" has identified a company that understands the needs and wants of farmers. To millions of farmers, the Ford name recalls the cars and trucks that could always "get through"—and Ford-built tractors that took away much of the drudgery of farming.

Just ahead of the "Model T" radiator cap were new and better farm markets—a practical way to carry farm goods to a better education—new vistas and opportunities for the fire farm family.

The Ford name means the millions of dollars that went into research for crops convertible into industrial products and for ways of converting them. The Ford Motor Company's soybean oil extractor, that opened a huge market for this great cash crop, is a notable example of the results of such research.

Such were some of the major Ford contributions to the betterment of agriculture and the entire nation. But many farmers regard the tractor, prime source of farm power, as a still larger Ford service to agriculture.

For the Fordson Tractor that came on the market in 1917 was the world's first mass-produced, really low-priced tractor. Fordsons went to the farms one-half million strong, powerful proof that they met basic needs.

Today's Ford Tractor

The name "Ford" on a tractor today means engineering experience, manufacturing skill, and volume production resources that few machines in any field command. These factors provide the Ford Tractor's high quality, low price.

Outstanding performance is another reason for Ford Tractor popularity. That helps assure its high resale value, as does the certainty that parts can always be had.

To the nation's farmers, getting ready for more efficient and abundant production, Ford Farming means better work, more production!

Boone Co. Pioneers

THEIR ANCESTORS AND THEIR DESCENDANTS

Displaced Persons

The Boone County Historical Society has asked the writer of these sketches—who is a native Kentuckian and a descendant of several of the immigrant ancestors whose stories are to be related—to compile a series of newspaper articles concerning the coming to America of the ancestors of the Carpenter, Zimmerman, Aylor, Rouse, Crisler, Blankenbaker, Utz, Clore, Tanner, Crigler, Garr, Whitte and other early Boone County settlers.

He is glad to comply with this request as a tribute to the Society's enterprise, as well as to assist it in permanently recording the family history of these Kentucky pioneers, and for the information of their descendants; there's nothing like a reputable family background for stiffening the backbone of a person in these critical days and making him proud that he is a free American citizen.

It's "a fur piece" as the Kentucky

pioneers used to say, from the progressive Boone County of 1951 back to the closing years of the seventeenth century in the Polatinat of Germany and the adjacent parts of Switzerland, France and Alsace-Lorraine, from whence these ancestors came, but that is when and where the story properly begins.

Then as now there were thousands of miserable, oppressed, persecuted and destitute men, women and children in Europe, human driftwood, left stranded as the aftermath of cruel, relentless war the conflict between the Protestant and the Catholic religions. Their homes, crops, orchards and vineyards had been ruthlessly destroyed and their property confiscated. They were without liberty, political or religious freedom; all that was left were their lives and their faith.

Their eyes turned longingly toward the New World, and England at the moment was seeking settlers for her colonies in America, especially for William Penn's Colony where religious freedom as well as free land was offered to all. The English government had issued and circulated among the homeless people of Europe the "Golden

Book," with a picture of "good Queen Anne" on the cover-page, inviting "les miserables," the miserable ones, to come to England and from there to embark for the American colonies. In London they were quartered in the counterpart of a modern concentration camp until they could arrange for their transportation. Some of them quickly succeeded in finding a vessel sailing for Philadelphia—John and William Zimmerman, brothers, who accepted the Anglican version of their name to Carpenter upon their arrival in Pennsylvania; John Rausch (Rouse); Jacob Kruger (Crigler); Andrew Farr (Garr); Vehler (Aylor); and Deobald Kreusler (Crisler); these and others later joined the Lutheran settlers in Madison County, Virginia.

Some of the other political and religious refugees who sought safety in crossing the Atlantic. In 1717 twenty families, numbering about eighty people, arranged with one Captain Scott for transportation. Immigrants to the English colonies if unable to pay in advance for their passage were taken to America to be "sold" as "indentured servants" to anyone who paid for their "importation" on arrival. As an incentive to the "importer," he was given fifty acres of land by the colonial government for every person he "imported" and the immigrant was "bound" to labor for him for seven years. It is not true as some of the old history books tell it, that the gay young blades of Jamestown "bought at auction" young women settlers when they arrived; they simply paid for their transportation across the Atlantic and received an "indentured servant" with a "dot" of fifty acres—"and then they were married, and lived happily ever afterwards."

Our little ancestral group got together what provisions they could assemble for their perilous voyage of eight, ten or twelve weeks—perhaps longer—when their ship's captain was arrested and thrown into prison for debt. When he was released at last they sailed for Pennsylvania, but misfortune still pursued them; their provisions gave out some of them died and "a great storm blew them far off their course"; they landed almost shipwrecked on the shores of Virginia—strangers in a strange land, whose language and customs they did not know, and where they were to be sold into slavery to discharge their indebtedness to the ship's captain. Their names are recorded in the Virginia Magazine of History and Biography for April, 1906. They were: John and Jacob Breills (Broyles); Frederick Copellor (Kobler); Christopher Zimmerman, (who refused to have his name changed to Carpenter); Henry Schneider (Snyder); with him also were his daughter, Ann Magdalena Aler, widow and her son, Henry Aler; Michael Schmidt, (Smith); Michael Koch, (Cook); Andrew Kerker; Christopher Parlar (Barlow); Nicholas Jager (Yager); Robert and Urban Tanner (Tanner); Michael Klobar (Clore); Balthasar, Matthias and Nicholas Blankenbaker (Blankenbaker); George Zouche (Utz), and some others.

Plans Formulated By Red Cross Chapter For Collecting Blood For Armed Forces At Meeting Held Thursday, October 11th

Local Chapter Is Given Important Assignment; Mobile Unit To Visit Co.

On Thursday night, October 11, the Boone County Chapter, American Red Cross again began to formulate plans for collecting blood for the Armed Forces. This meeting was held at the Florence Christian Church and all organizations and groups were asked to send representatives to hear details of the program at this planning meeting.

Your Red Cross has been asked by the Department of Defense to undertake one of the most important assignments in its long history of service. The Red Cross is the official agency for the collection of blood for our Armed Forces and it has also been asked to act in the same capacity for civil defense although details have not been worked out as yet. This blood is given immediately to the Department of Defense for its distribution to the Armed Forces for use wherever American troops are stationed in the entire world. Under the Defense Blood Program the blood collected here when the Mobile Unit visits our county, will be sent to Cincinnati, and from there within a matter of a few hours it will be sent to commercial laboratories for processing into plasma. Its ultimate destination and use is decided by the Department of Defense.

John O. McEvoy, Chapter Chairman will also serve as Chairman of the Defense Blood Program. Mr. McEvoy has appointed Mrs. Allen Gaines of Walton as Recruitment Chairman, Mrs. Eve Grater, Union, as Volunteer Chairman and Mrs. Ruby Caldwell, of Burlington as Chairman of Nurses. You will not have to go out of the county to give as the Mobile Unit will come to the Boone County Airport on Monday, October 29, for its first collection of blood in Boone County.

At this time precinct or community chairmen have not been appointed, but their names will be given in next week's edition of this paper. The Mobile Unit will visit Boone County five times before July 1, 1952 and the minimum quota is 100 pints each visit or a minimum quota of 500 pints for the year until July 1st.

Captain Houston of the Air Force, Boone County Airport, who attended the planning meeting at Florence stated that the Department of Defense needs blood and has requested that all service personnel give blood and that blood has helped cut down casualties in Korea to the point that only 2 percent of the wounded die for their country. Captain Houston also stated that at least forty of the Air Force men at the Boone County Airport have pledged to give blood Monday, October 29th, when the Mobile Unit comes to Boone County. Won't you do the same? Call Mrs. Allen Gaines, Walton or the Boone County Red Cross Headquarters, Florence 84 to make your pledge. Life is beautiful. Won't you donate your blood to give life to a serviceman, who is fighting to keep this country safe?

Scrap Is Much In Demand For Steel Production

Special Drive Opened Monday, October 15 Throughout State.

The making of tanks, ships, planes and guns to keep America strong can be found on nearly every Kentucky farm in the form of iron and steel scrap, believes R. O. Wilson, chairman of the Kentucky Agricultural Mobilization Committee.

Broken machine parts, outdated equipment, and even baling wire are some of the farm items which can yield valuable scrap, an essential ingredient in the manufacture of steel.

A special drive for rounding up scrap in Boone County has been set for the period October 15 to November 15, Bill Davis, County Agent, reminds farmers. He expresses the hope that farm operators throughout the county will give vigorous cooperation in this drive supporting the state and national mobilization program.

Farmers are a specially good source of scrap, say steel industry officials. The large tonnages of scrap contributed by farmers during World War II helped win that conflict. Numerous farm equipment manufacturers and dealers already have pledged their help in the current drive to seek out dormant scrap.

Many farmers may not realize, Mr. Davis points out, that new steel is made from approximately one-half scrap and one-half pig iron. Since scrap is already refined, it shortens the refining process and speeds the nation's current production facilities. The steel industry is even now fighting an uphill battle to raise the steel production rate from last year's 96 million tons to 117 million tons in 1952. Such an aim cannot possibly be attained without a continued and even increased flow of scrap to the mills. Meanwhile, supplies of scrap at some mills are dangerously low, it is emphasized.

"Steel," he continues, "is the crux of our defense readiness, the basis of the Nation's physical might. And America's enemies recognize no other language but military strength today."

Notes and Comments

From the Editor's Desk

Things Really Moving At Last

It has long been rumored in Washington, which is the rumor-center of the nation, that Secretary of State Dean Acheson is willing to retire to private life—but that he would not do so while under attack.

If that theory is correct, the Secretary would find it easy to step down now. His work at the Japanese peace treaty meeting has brought him praise from all quarters, including such previously severe critics as Senators Knowland and Taft. So far as public esteem is concerned, this was undoubtedly the high point of his public career.

There is more to it, however, than just the Secretary's conduct as chairman of one brief conference. A rather subtle change has been taking place for a long time in Acheson policies. Holmes Alexander expresses it in these words, "Acheson has gone over to a policy of America first, to give the matter another pitch, he has begun to assert American leadership, often to the annoyance of our allies and associates. A good enough example took place two months ago in Madrid. For years the state department had hesitated to irk laborite Britain and near-Communist France by casting an official eye toward Franco. But the need of Spanish bases at last outweighed the thought of offending our poor relations in Western Europe, and the deal was opened. Likewise, at Washington and Ottawa, Acheson has been calling the tune among the foreign ministers of the Atlantic pact."

Obviously, this very important change was not Mr. Acheson's personal invention. As Mr. Alexander also observed, it didn't come about until the Secretary, along with the whole Administration, was given "a good deal of prodding from congress and the country." For a very long time the State department seemed to be principally motivated by a fear of doing anything that might offend England or any Western European country. We were paying most of the bills, while the beneficiaries of our largesse were making most of the policies and Communism was making most of the gains. It doesn't seem possible that such a situation can continue, whether Acheson remains at the helm or someone else takes over. Congressional and public feeling just wouldn't permit it.

The big point is that America is now politely but forcefully demanding that Europe do more, much more, to build bulwarks against the onrush of world Communism. Up to recently, she had done woefully little, considering the enormity and the immediacy of the problem. The Korean war is officially a United Nations effort, but aside from the United States the UN members have sent only token forces there. It is no secret that General Eisenhower has been given all the verbal support on earth in his effort to build a European army at an unprecedented speed—but he hasn't been given much in the way of divisions. And it's divisions that talk when you deal with the Soviet Union.

So, of necessity, the US toughened up and things are really moving at least. This doesn't mean, for instance, that the projected Eisenhower army is practically in being, but it does mean that it is considerably nearer realization than seemed likely a while ago. It also means that the nation's less coding of the weak sisters in the ranks of nations which are supposed to form a solid line against the further spread of Communism.

What Competition Does The Wall Street Journal recently carried a news story from Washington written by staff correspondent W. C. Bryant. Here is how it began: "The government's inflation fighters are showing some embarrassment, because there's so little inflation to fight."

"They're even discussing, in quiet little sessions, whether it would be well to stop pretending to control a host of prices that are way below Federal ceilings." In other words, exempt a lot of things—clothing, house furnishings, many foods and the usual run of five and dime notions—from price control.

It looks as if the workings of the competitive economic system, which the higher planners seem to consider sacred, is making life rather tough for the control officials. The reason many items are selling for prices under the legal ceiling is simple enough. Manufacturers and merchants are always beating the bushes for business. And to get business, they have to sell at the lowest price possible. So, under such circumstances, a ceiling doesn't necessarily mean a thing. This is particularly evident at the

retail level, where all kinds of stores, from the biggest national chain to the newest one-man shop, are wooing the price-conscious consumer with every inducement they can think of. Nobody can long get the ceiling price for an article if someone down the street is selling it for less. Retail prices have consistently lagged behind wholesale prices. That's what competition does.

Burlington Eagles Tounce Dry Ridge Gridders 53-20

Tigers Trim Knights; Burlington and Hebron Will Meet Friday.

Coach George Maines' Burlington Eagles continues their mastery over Northern Kentucky 6-Man Football Conference teams last Friday night when they defeated the Dry Ridge Cardinals by 53 to 20 score. It marked the Eagles fourth consecutive win and they are without a loss for the season.

The Eagles, with several reserves seeing action during most of the first half, piled up a 40 to six lead at the halfway mark. During the last half Coach Maines used his regulars only a few minutes, but the Eagles scored 13 points while the Cards were scoring 14.

The team regulars, though several were hampered by injuries, played their usual steady game, but the bright spots of the game were supplied by such reserve players as Raymond Smith, Hobart Adams, Billy and Shorty Ryle, Edgar Rice, Donald Stamper, Kay Patterson, Kay Kelly and Frank Thaman.

Dry Ridge's power was mostly generated by Howe, their fast running halfback. Day, giant Card center, was their key defensive player.

Tigers Win

New Haven's Tigers, the fastest improving club of the conference, continued their winning ways last Friday night when they tounded the Florence Knights by a 60-24 score at the Burlington field. The Cardinals held a 27-12 halftime lead. The win was the Tiger's third of the year. The have lost twice, with both losses coming early in the season.

Coming Games

Games this week pit Hebron's Cardinals against the Burlington Eagles at Burlington Friday night in what may be a thriller. The Cards have not forgotten an affair that happened several weeks ago on the same field with the same opposition. Hebron needs this win in order to gain a tie with the Eagles for Conference leadership.

New Haven will travel to Dry Ridge Friday night to take on Coach Ken Cole's Cards. This should be the game of the week. The Tigers will be gunning for their fourth straight win and the Cards will be attempting to rebound from last week's loss.

Florence will be idle this week.

It takes MONEY TO BUILD!

"I just had to have more barn room . . . and some of the other buildings needed repairing.

"But it takes money to build . . . more than we had saved up. Then, a neighbor tipped me off about a Federal Land Bank loan. He told me to see the National Farm Loan Association. It was a pleasant surprise to learn that the Association was made up of my friends and neighbors . . . all good, solid, substantial farmers.

"Well, today you'd hardly recognize the old farm, it looks so nice. I can keep my livestock and crops in better shape—can operate more efficiently and make more money. And I'm happy about that 4 percent Federal Land Bank loan. I can take 20 to 33 years to pay . . . or pay just as fast as I want to without any penalty whatsoever. And I didn't have to pay a cent in application fees, appraisal fees or commissions.

"If you need money to build or improve your farm in any way, let me suggest a Federal Land Bank loan."

Sketches Of Old-Time Petersburg Residents As Written By E. Y. Chapin

Julia Dinsmore

Miss Julia was a transplanted exotic. In the wreck of her family fortunes following the Civil War, there was a piece of acreage in Kentucky along with the Louisiana plantation. It had but one thing in common with its fellow of the bayou country—it was fertile.

Miss Julia received this bit of the wreckage and made her home upon it. She tended it so skillfully that it not only yielded abundant other crops, but furnished the capital to build a home reminiscent of the plantation house in Louisiana. Miss Julia had nothing to fit her for Kentucky farm life except a keen intelligence and unsparring energy.

Very shortly, her farm became the model one of the vicinage and her mansion gathered equipment that caused the neighbors to open their eyes. The well-equipped library, which it boasted, was a wonder to a community that knew few books.

Lacking intelligent companionship close at hand, Miss Julia sought and found it in the wider spaces of the world. Among her

friends, who visited her, was Alice Roosevelt Longworth.

Under this inhospitable environment, Miss Julia developed a marked talent as a writer of verse. She published a little volume which was favorably received and noted.

A desirable parti, she chose to remain the unwed chateau of the home she had created and there she remained for the balance of her life. People too little acquainted with the elements of her talents, respected her intelligence nevertheless and she reigned in lonely intellectual splendor among an awed surrounding community.

She passed away at the end of a life which could only have been achieved under a marked touch of genius.

Lamb prices were lower last week, hog prices were again higher but veals and cattle were mostly unchanged on Kentucky's major auction markets. Reports to the State Department of Agriculture also show veal, cattle and hog receipts averaging much lower.

BREAK SOIL AS DEEP AS 18" with the DEARBORN SUBSOILER!

• This new Dearborn Subsoiler for the Ford Tractor is fine for breaking hard soil, loosening ground for ditching, scarifying pastures, preparing dirt for loaders and scrapers.

Hardened carbon steel beam can be turned end for end for double life. 3/4-inch beveled edge permits deeper work, lowers fuel consumption by reducing draft. Point, sharpened on both ends, is reversible.

The Dearborn Subsoiler is raised, lowered, and depth is regulated by Ford Tractor Hydraulic Touch Control. A great tool—see it!

PECANS DO WELL ON UK SUBSTATION FARM

Three kinds of pecans are doing well at the University of Kentucky Experiment Substation at Quicksand, Breathitt county. One kind called Major has been most productive, bearing a heavy crop in 1950. Green River bore a half crop and Busserson set a medium crop.

Thomas and Stabler, improved strains of black walnuts, are doing well on the substation farm at Quicksand. A young planting made in cooperation with the Tennessee Valley Authority is making good growth.

In an effort to improve the yield and quality of sorghum, substation land receiving complete fertilizer treatment produced 164 12-pound pails of 80 percent sirup an acre. Unfertilized land produced 72 pails.

The Irish potato crop in Elliott county was rated as being about the best in 10 years.

More than 100 tobacco barns in Madison county have been either altered or built the past year, with side-door ventilators ranging from 1½ to 3 feet per 12-foot bent.

By means of Swedish weaving, Washington county homemakers have decorated towels, luncheon sets, place mats and other household articles.

Garden Club Holds Meeting In Ault Park

Last week the Boone County Garden Club spent a beautiful October day in Ault Park, Cincinnati. A bountiful basket lunch was enjoyed, after which a regular business meeting was held in the warm autumn sunshine on a high point overlooking Lunken Airport. Mrs. Sam Denham, Sr., president, led the group in prayer and roll call was answered with description and information on various trees. After the meeting club members visited the Dahlia Garden which

was in full bloom and, needless to say, a very beautiful and impressive sight. A riot of color, there were dahlias of every description. The very large, showy type and the ever popular small varieties. In addition to the dahlias, the park has a variety of colorful berry-bearing trees and shrubs that are very attractive. After leaving the park, the club went to Fleischmann Gardens and saw many trees and plants of interest, among which was the Lotus plant, although not in bloom was most interesting. The Garden Club is happy to enroll a new member, Mrs. Eva Goodridge, Florence, and enjoyed two

visitors, Mrs. Nell Markland and Mrs. Harry Daugherty. Other members present were Mesdames Sam Denham, Sr., Harold Conner, R. C. Garrison, V. T. Williams, T. H. Hensley, F. O. Smith, Sam Denham, Jr., Ruby Hollis, Grant Maddox, C. F. Blankenbaker, Fanny Scott, Wm. Fitzgerald and Ralph Cody. The next Garden Club meeting will be on "American Birds." Plan to attend.

Dates Announced For Visit Of Mobile X-ray Unit To Co.

Free Chest X-ray Examinations Will Be Given Oct. 30, 31, Nov. 1

The state department of health in conjunction with the Kentucky Tuberculosis Association and the Boone County Tuberculosis Association is sponsoring a mobile X-ray unit in Boone County on Tuesday and Wednesday, October 30, 31, and Thursday, November 1. The goal of these organizations is to give free chest X-ray examinations to every person fifteen years of age or over within the limits of Boone County on the above dates.

The mobile X-ray unit scheduled for examinations as announced by Mrs. Sibbie Reimer, president of the Boone County Association, and J. J. Nichols, executive secretary of the Kentucky Tuberculosis Association, is as follows:

Oct. 30 at Burlington (unit located in front of Courthouse).

Oct. 31 at Florence, (Unit located in front of Community Center).

Nov. 1 at Walton, (Unit located on Walton School Grounds).

Operating time for the unit on each of the scheduled days will be from 9 a. m. till 12 noon and from 1 p. m. till 3 p. m. Mrs. Reimer stated. She also added that it is possible that the unit may operate on the evening of October 31 at the Florence location. An attempt is being made to have the unit operate the one evening for the convenience of individuals whose working hours make it impossible for daytime X-rays.

It's Free And It's Quick

Mr. Nichols, in stressing the importance of having X-ray examinations, made the following statement to County Association officers and volunteer workers at a meeting last week: "It's quick, it's easy, it's confidential and it's free. Chest X-rays take only a minute. There is no undressing necessary. Tell everyone to come and bring a car full of neighbors and friends."

A Personal Testimony

The following is a personal testimony of Rev. R. A. Johnson, concerning the benefits of X-ray:

"These words come from one who has had experience with the terrible germ called Tuberculosis, and without the X-ray the writer probably would not be living today."

"When I was thirty years of age I had a tired feeling, which is one of the first signs of TB. Following the advice of friends, I consulted a specialist who made X-rays of my lungs and found an active condition which demanded immediate attention. Through treatment my health was restored and I have enjoyed good health through these many years."

"Every person should take advantage of the free X-ray which will be extended to the people of Boone County when the mobile unit visits this section on the above dates."

"Remember this is a germ that we can have, not knowing it, and the X-ray will reveal it to us. In many instances treatment will restore the afflicted person to health, if the danger is discovered in its early stages."

"This is your chance to continue to enjoy good health, don't let the opportunity pass."

Burlington Eagles Take Conference Championship Fri.

By Defeating Hebron Cardinals; Tigers Shine In Game With Dry Ridge

The Burlington Eagles sewed up their fourth consecutive Northern Kentucky 6-Man Football Conference title last Friday night when they trounced the Hebron Cardinals, 42 to 6 at the local field. The victory was number five for the undefeated Eagles and it marked the 19th consecutive conference victory for the Eagles in the past four years. The only conference loss ever suffered by this year's winner was hung on them by Hebron in 1948. The Eagles' overall conference record for four years is 20 won and one lost. The Eagles' record for all games during the four-year span is 23 wins against two losses.

Tigers Shine

New Haven's Tigers really turned on the power as they trimmed the Dry Ridge Cardinals by a 52 to 19 score at Dry Ridge last Friday night. The win, which was the fourth straight for Bill McAllister's charges, put the Tigers in second spot in the Conference.

In the Burlington-Hebron game the passing arm of Jerry Ryle was the big difference. Ryle passed three touchdowns to Gayle Rouse and scored one time on a quarterback sneak after setting up on a series of passes. Rouse scored another touchdown on an end run and Deck scored the sixth TD on a line plunge after carrying the ball on two long runs to put the Eagles on the Hebron six-yard stripe. Lustenberg scored six points on three conversions.

Jack Zeigler scored Hebron's lone tally in the final period. Burlington led 8-0, 22-0, 34-0 and 42-6 at the stops.

Donnie Mason was the big offensive gun in New Haven's victory over Dry Ridge. He scored six TDs and made one conversion for thirty-eight points. Rhodes and Cook also aided in the scoring column for the winners. Howe and McWhorter showed most of Dry Ridge's offense.

Burlington Lodge To Confer F. C. Degree Thursday, October 25

The stated meeting of Burlington Lodge No. 264, F. & A. M. will be held at 7:30 p. m., Thursday (tonight), October 25, it was announced by Dudley I. Rouse, Master. Mr. Rouse stated that the Fellowship Degree would be conferred upon a class of candidates. This work will be under the direction of Clarence Wolfe, Senior Warden of the lodge.

Mr. Rouse is appealing to all members of Burlington Lodge to attend work meetings to hurry the completion of the lodge hall. "There is a tremendous amount of work remaining to be done," said Mr. Rouse. "For example, the cistern must be plastered, the septic tank and leaching bed dug, concrete must be poured for the window lintels, and the interior must be waterproofed and painted."

"While I know many of our members who operate farms have been extremely busy," continued Mr. Rouse, "yet the fact remains that we cannot complete the lodge unless we have more members in attendance at these work meetings. The lodge cannot expect that all the work will be done by the half-dozen or so who have given so much of their time."

There will be a work meeting every Saturday," said Mr. Rouse, and the hall will be open each evening for those members who can devote about three hours a week for having a dozen men on hand each evening, we can complete the hall within the next two weeks, or before the bad weather sets in. All Masons of Boone County, whether members of Burlington lodge or not, are urgently requested to assist us," he added.

Mr. Rouse also stated that W. Robert Ellis, who was crowned a 33rd degree Mason, would be on hand to tell of his experiences in Washington, an dthen Henry Sebastian, Petersburg, who represented Burlington Lodge at the Grand Lodge of Kentucky last week, would make his report to the lodge.

Max Edwin Ryle, son of Mr. and Mrs. K. W. Ryle, stationed at Langley Field, Va., spent the week-end at home.

DOUBLE YOLK EGG HAS SEAM AROUND CENTER

A double yolk egg, brought into this office Monday by John E. Crigler, of Hebron, had a seam completely around the shell, giving the appearance that it had been glued together.

There are many double yolk eggs reported, but this is the first time an egg has been displayed with the seam completely around the center of the egg.

The egg was laid by a White Leghorn, on the farm of Mr. Crigler and is on display at this office.

TO CONDUCT REVIVAL

Rev. Waltz

Burlington Baptist Revival Opens Oct. 29

A series of revival services will be held at the Burlington Baptist Church beginning October 29th and continuing through November 9th. It was announced this week by the pastor, Rev. R. A. Johnson.

Rev. Joe Waltz, pastor of Ludlow Baptist Church will be the evangelist and Rev. Morton Oliver has been selected as music director. Rev. Waltz has been pastor of the Ludlow Church less than one year, but has done a great work there. Morton is a Boone County boy, having been ordained in the Burlington church to preach the gospel, and is now pastor of Bethany Baptist Church in Owen County.

In announcing the revival services Rev. Johnson makes the following statement: "As pastor, and one who believes that our greatest need today in this world of trouble is a great revival of Christian living that will prove to the world that Christ is the answer to all questions, I urge you to attend this meeting. America must either return to God and follow the old paths that separates the Christian from the world or perish. What will your answer be as a Christian?"

Sunday, November 4th will be observed as Rally Day in the Sunday School with a goal of 400, and a goal of 350 bringing Bibles. The superintendent stated that if these goals are to be reached each officer and teacher, with all members of the various classes, put forth a special effort prior to the above date.

Red Cross Will Begin To Collect Blood October 29

Donors Will Receive Registration Cards Thru Mail.

The Boone County Chapter, American Red Cross which will begin to collect blood for the Armed Forces and Department of Defense on Monday, October 29 at the Boone County Airport will process this blood through the Cincinnati Defense Blood Center which has been established to collect blood for the defense needs of our country in an area of some 30 counties in Southwestern Ohio, Southeastern Indiana and Northern Kentucky.

You are probably wondering about the uses to which blood collected by a defense center will be put. Most of us today are aware of the uses of whole blood in surgical operations and to replace blood lost in accidents or in wounding. Whole blood also is used in the treatment of infections, hemorrhage diseases, and chronic anemia. Plasma, the liquid portion of blood, is valuable in combating shock, in the treatment of burns, and its protein substances can be isolated and used to combat various diseases. Plasma, does not contain blood cells, does not have to be typed and in most cases, can be given from any person to any other. Plasma can also be frozen and dried and kept indefinitely.

In case of atomic attack, a tremendous amount of whole blood and plasma will be needed. Wise medical preparedness calls for the existence of efficient functioning blood procurement programs on a nation-wide scale.

Each donor will receive a registration card which will list his blood group and RH factor which will be needed to him in a few weeks after he gives his blood donation. Each donor will receive a blood donor pin.

If you have any questions not answered here, please request the desired information from your Red Cross Headquarters, across from the Florence Hardware Store, telephone Florence 84.

Even in our darkest moments we fight to keep our life. If we are sick we immediately call a physician to help us get better. We will go to any extremity to hold onto the spark of life that is in us. Will you give the gift of life? Be a Red Cross blood donor.

Boone County Boy To Be Ordained At Grant Church of Christ

Bro. Edwin Smith, former minister of the Grant Church will have charge of the services.

Extension Advisory Council Will Meet Thursday, Nov. 1st

Program Will Be Reviewed, According To Reports.

The Boone County Extension Advisory Council will meet in the courthouse, Burlington, Ky., at 2:00 p. m. Thursday, November 1, according to the Extension offices. It takes MONEY TO BUILD!

"I just had to have more barn room . . . and some of the other buildings needed repairing.

"But it takes money to build . . . more than we had saved up. Then, a neighbor tipped me off about a Federal Land Bank loan. He told me to see the National Farm Loan Association. It was a pleasant surprise to learn that the Association was made up of my friends and neighbors . . . all good, solid, substantial farmers.

"Well, today you'd hardly recognize the old farm, it looks so nice. I can keep my livestock and crops in better shape—can operate more efficiently and make more money. And I'm happy about that 4 percent Federal Land Bank loan. I can take 20 to 33 years to pay . . . or pay just as fast as I want to without any penalty whatsoever. And I didn't have to pay a cent in application fees, appraisal fees or commissions.

"If you need money to build or improve your farm in any way, let me suggest a Federal Land Bank loan."

POWER TAKE-OFF
WORK DONE BETTER!

...with the new Ford Tractor and

PROOF-METER

Everyone knows that implements driven by power take-off should be run at their recommended P.T.O. speed, for best results. But how can you tell what the P.T.O. speed is, in actual operation? Up to now, there's been no way to check it—without special equipment.

But NOW you can know! Now the Proof-Meter—standard equipment on every new Ford Tractor—shows the P.T.O. speed right before your eyes all the time while the implement is moving, while it's under load! This exclusive Ford advantage eliminates costly "guess-work." It enables you to set the throttle to keep P.T.O.-operated implements always running at just the right speed for best work, greatest fuel economy, longest life! The Proof-Meter can increase profits on power take-off jobs, a lot. It's valuable in many other ways too...

5 Instruments in ONE! In addition to P.T.O. Speed, the Proof-Meter shows you Tractor Travel Speed, Engine Speed, Belt Pulley Speed, and indicates Hours Worked. Nothing else like it.

Only the Ford Tractor has the Proof-Meter!

SEE FOR YOURSELF! Let us show you, right on your own farm, the dozens of ways in which the versatile Ford Tractor and Dearborn Farm Equipment can help you cut costs, get better results, and help make more money for you.

Three Men Injured In Crash On Dixie Highway Sunday

Following Attempt To Elude Police In Wild Chase.

Three young men, Everett Warrington, Hamilton, O., Jack Reed, and Robert Adams, both of Covington, were injured, the driver critically, when their auto crashed off Dixie Highway, about two miles south of Florence, following an 80-mile-an-hour chase in an attempt to shake off pursuing police.

Warrington suffered possible internal injuries; Reed fractured right wrist and ankle and Adams possible fractured right leg. Warrington's condition was listed as critical.

Erlanger Patrolman William Stewart, named Warrington as the driver. He said he commenced chasing the new auto when it passed Forest Avenue, Erlanger, going between 60 and 70 miles an hour.

The officer overtook the car at Smith Street, in Florence, where Dixie Traction buses turn for the return trip north. Patrolman Stewart said he pulled his cruiser in front of the halted auto. He alighted and started to approach the car, when the driver started up again.

The officer reported the driver headed the car directly at him. He stated that he didn't have time to reach for his gun, but dived out of the path of the approaching car. He said when the car passed the cruiser the tires were throwing gravel all over the place. He jumped back in the cruiser and again gave chase.

The officer said the last time he looked at his speedometer it was in the 80's. He held the fleeing auto's tail lights in view, but could not gain on it. He stated that near Highland Stock Farm he saw a flash of green light. He slowed down and came upon the wrecked auto.

The car had run off the left side of the road, crashed into a utility pole and knocked down about 50 feet of fence before coming to a halt. The three men were trapped in the car.

The ambulances of Elsmere Fire Department, Stith funeral home and Chambers and Grubbs funeral home removed the injured youths to St. Elizabeth Hospital.

Florence Home Destroyed By Fire Monday Afternoon

Damage Estimated At \$4,000 In Kentaboo Blaze.

Fire destroyed the home of Mr. and Mrs. Lawrence Ray, of Kentaboo Drive, Monday afternoon, it was reported by Florence Firemen. The home was a complete loss, with damage estimated at \$4,000.

According to reports, two children, were playing in the house, and it was believed that one of the children accidentally pushed an upholstered chair against a hot stove in the living room.

The greater part of the furniture in the house, including a new electric refrigerator and a television set, was lost.

The Florence Volunteer Fire Department was summoned, and the blaze had gained such headway, it was impossible to control. However, the department saved nearby homes, which would have been destroyed had it not been for their timely work.

Firemen attributed their ability to arrest the progress of the flames to a new portable pump purchased with the proceeds of the department's last fund-raising campaign.

The Boone County American Legion Post No. 4, is soliciting donations for this family and will appreciate any assistance given.

Attention Called To Increase In Taxes On Cigarettes, Etc.

Tax Will Become Effective November 1st, Is Word.

Commissioner of Internal Revenue John B. Dunlap issued a statement today calling the attention of manufacturers and importers of, and wholesale and retail dealers in, small cigarettes (including the standard and so-called "King" sizes), to the fact that the Revenue Act of 1951 provides for an increase in the rate of the Federal tax on small cigarettes from \$3.50 to \$4.00 per thousand, effective November 1, 1951. The Act also imposes a floor stock tax of fifty cents per thousand (equal to 1 cent on each standard package of twenty) on all stamp (tax paid) small cigarettes held by manufacturers, importers, dealers, and other persons, for sale at the first moment of November 1, the day on which the increase becomes effective.

The Commissioner emphasized the need for every manufacturer, importer, and wholesale and retail dealer, to take an actual inventory of all stamped small cigarettes on hand at the first moment of November 1, in order to prepare and file with the collector of internal revenue of the district a return and inventory covering the tax due. In addition, manufacturers and importers are required to include in their return and inventories unattached small cigarette stamps on hand November 1, for the purpose of payment of the difference between the amount paid for the stamps at the \$3.50 rate and the cost of the stamps on and after that date. All unattached stamps in transit to manufacturers and importers on November 1, purchased at the lower rate, are also required to be included in the returns and inventories.

The floor stocks tax return and inventory forms, Form 187, Revised, prescribed for the use of wholesale and retail dealers and Form 188, Revised, prescribed for use of manufacturers and importers, are now in the hands of the printer and efforts are being made to have these forms delivered to collectors of internal revenue in time for distribution to manufacturers, importers, and wholesale and retail dealers by November 1. Every person liable to file return and pay floor stocks tax on small cigarettes should apply to the collector of internal revenue for his district for the necessary floor stocks tax return and inventory form. The Act requires a complete and accurate floor stocks tax return to be filed and tax paid by the appropriate collector of internal revenue on or before December 31, 1951.

The Commissioner also emphasized the importance for every manufacturer, importer and dealer to keep a copy of the cigarette floor stock tax return and inventory filed by him, as well as any other records showing the details of the inventory and how and by whom it was taken, and other information sufficient to enable the Commissioner to determine whether the correct amount of floor stocks tax has been reported and paid.

Boone Conference Winners Will Play Caverna Six Friday

Hebron Chalks Up Decisive Win Over Florence Knights.

In what will amount to the "State Crown" in 6-Man football will be decided Friday night of this week when the undefeated Burlington Eagles of the Northern Kentucky Conference play the Caverna Colonels another undefeated six who represent the Barren River Conference at Caverna.

The Caverna team, coached by E. B. "Bub" Sidwell—who incidentally was Burlington Coach George Maines' high school tutor—has run rough shod over all opposition this season. They defeated Bardstown, last year's lone winner over the Eagles, by a 48-12 score recently. Last week Caverna, playing under wraps as Burlington's coaching staff looked on, defeated Park City by a 49 to six score.

The Colonel team, according to reports, is large, fast, offensive minded and has an excellent passer in Billy Sidwell, the coach's son.

Early this week, as this article was written, the Eagles were in good shape for the big game. Only co-captain Ray Holbrook who is out with a broken collarbone, is on the "no-action" list. Backs Ronnie Jones and Ray Deck are nursing minor injuries but Coach Maines thinks they will be in top shape by game time.

Players who will make the trip to Caverna are Gayle Rouse, Bud Smith, Kay Kelly, Ray Deck, Ray Holbrook, Raymond Smith, Jerry Lustenberg, Jerry Ryle, Edgar Rice, Frank Thaman, Billy Ryle, Jack Patterson, Ronnie Jones, Don Stamper, Shorty Ryle, Hobart Adams, Donnie Ockerman and Jeff Wilson.

According to an announcement from the Caverna officials the game will begin at 7:30 C. S. T. The Caverna school and playing field is located in Cave City, on Highway 31W.

Continued Progress Shown By Association During Past Year.

The annual stockholders meeting of the Northern Kentucky Production Credit Association was held Friday, October 19, at Pettit's Farm Machinery building, Williamstown, Ky.

The annual report given by the bookkeeper, Miss Alice Rae Bagby, showed continued progress for the association during the past year. It showed an excess of \$1,000,000 in loans to members throughout the eight counties in northern Kentucky in which the association serves. The report indicated that the strength of the association gave encouragement to the members that they would be completely farmer owned during 1952.

In the election of two directors Roscoe Jump was elected to succeed himself and Chas. L. Hempling was elected to fill the vacancy caused by the death of C. Liston Hempling. Some 200 stockholders and

There were many comments from the members saying, "It was one of the best addresses heard on Production Credit Association." Mr. Grierson stressed the great strength of credit through farmer cooperation and stated that the Production Credit Association was one of the greatest strengths of our nation in supplying needed credit to agriculture.

Music was supplied for the meeting by the "Mudcats," Orville and Arnold Nantz, Emory Brown and Homer Souder.

Several valuable door prizes were given away by the association and refreshments were served to the group.

Russell H. Lawrence, Secretary-Treasurer of the Association was unable to attend the meeting on account of the automobile accident September 29. He wired his greetings to the association from his room at St. Joseph Hospital, Louisville, Ky.

Constitutional Amendment Would Destroy Constitution

If Voted By Citizens of Kentucky, According To Reports.

The proposed multiple Amendment to the Kentucky Constitution as provided for in Senate Bill 16 enacted by the 1950 regular session of the General Assembly would destroy the Constitution it is believed by many.

This amendment is to be submitted to the voters of Kentucky November 6. It is suggested that every voter read this act. You will find it on page 570 of the Acts of the General Assembly of the Commonwealth of Kentucky, regular session 1950.

Section 1 of this Act proposes that Section 256 of the Constitution be amended by repealing said section in its entirety. This however, is not done. There are 342 words in Section 256. The Multiple Amendment contains 211 words verbatim from Section 256. It only omits 131 words of Section 256. 131 is 38% of 342. Is 38% of 100% repealing Section 256 in its entirety?

To amend a provision of a constitution means to change it by adding, striking out, or substituting something, but certainly not to abolish the whole provision. To remove Section 256 in its entirety from the Constitution would be amending the Constitution, but it would not be an amendment of Section 256 which the Act in Section 1 proposes to do.

According to Section 256 of the Constitution, amendments can only be proposed at regular sessions of the Legislature; the Multiple Amendment in addition to permitting the proposal of amendments at regular sessions, also provides that amendments may be proposed at special sessions, "if stated in the act of proclamation as a subject to be considered."

Section 256 provides that "proposed amendments shall be submitted to the voters at the next general election for members of the House of Representatives"; the Multiple Amendment provides that they shall be submitted to the voters at the next general election which occurs not less than ninety days from the final passage of such amendments."

Section 256 provides that "amendments shall be so submitted as to allow a separate vote on each"; the Multiple Amendment provides "amendments shall be so submitted as to allow a separate vote on each, unless the General Assembly provides for a single vote on two or more amendments."

It is possible that voters of the commonwealth would be asked to accept or reject 100 or more amendments by a simple "yes" or "no" vote. If the vote should be "yes," so counted, estimated, or otherwise, then our superior Constitution will be reduced to a deleted, mutilated scrap of paper.

If our Constitution is in such great need of change, why are not two amendments to be submitted this fall?

It is the duty of every voter in Boone County to go to the polls next Tuesday and cast his or her ballot according to the dictates of his own conscience.

Tobacco Stripping Demonstration Set November 7 and 8

Adrian Raisor, Federal Grader Will Be In Charge Of Meetings.

Four tobacco stripping and grading demonstration meetings will be held in Boone County November 7 and 8, according to Bill Davis, County Agent. Two demonstrations will be held each day. Meetings on Wednesday, November 7 will be at the farms of Walter King, Verona at 9:30 a. m. and L. W. Rogers, Grant at 2:00 p. m. Thursday's meetings will be at the farms of Arnold Easton, Florence at 9:30 a. m. and Harry Gully's, Burlington at 2:00 p. m.

Adrian Raisor, federal grader will be in charge of the meetings. Farmers who attend are asked to bring about 10 sticks of their tobacco for Mr. Raisor to strip as a demonstration.

Many thousands of dollars are lost each year by improper stripping and sorting of tobacco crops. These demonstrations are held in an effort to point out to farmers the financial advantages of careful sorting of crops.

\$64,656 Received By Boone County During Past Year

Three Types of Aid Given Local Citizens, According To Department.

During the past 12 months (October 1950 through September 1951), \$64,656 went to residents of Boone County in public assistance payments, according to the Department of Economic Security whose Division of Public Assistance administers the grant-in-aid program. Assistance under the federal-state financed program includes three types of aid: Old age assistance, aid to dependent children, and aid to the needy blind.

Vego E. Barnes, economic security commissioner, said that of the total payments in Boone County, \$56,034 went to the needy aged; \$7,319 to the upkeep of dependent children; and \$1,303 to the needy blind.

Average payment in Boone County for aged assistance during September 1951 was \$28.77 to the old people who receive assistance monthly checks. Under the dependent children's program, an average of \$51.00 went last month to 10 families. Five blind people received an average of \$29.80.

Barnes explained that beginning in July of this year, following action by the special session of the Kentucky Legislature which appropriated an additional \$2 million for the assistance program, the department was enabled to increase, on a statewide basis, payments in each of the three categories. Old age assistance from a state average of \$20.58 to \$30; aid to dependent children from \$37.17 to \$42; and aid to the needy blind from \$22.11 to an average of \$32. Barnes reminded that in July 1948, monthly payments to the needy aged averaged \$17.56.

Over the same 12-month period, statewide payments totaled \$30,167,373, Barnes said, of which \$18,459,940 went to aged needy; \$10,932,460 to dependent children; and \$774,973 to the needy blind.

"Public assistance is a human relations program designed to help the needy of the state who are unable to provide for themselves," Barnes said. "It should not be confused with old age pension. It is not a pension but a cash assistance program for old people who without it would be in want for the necessities of living."

Mrs. Marie E. Schaefer

Requiem High Mass was sung at 9:00 a. m. Thursday at St. Henry Church for Mrs. Marie Elizabeth Schaefer, Erlanger road, Erlanger, who passed away at her home. Prayers were said at 8:30 a. m. at the Taliaferro funeral home, Erlanger. Burial was in St. Mary Cemetery.

Mrs. Schaefer, 62, was the wife of Andrew Schaefer, proprietor of the Right-Way Cafe and Restaurant, Erlanger.

Besides her husband, she leaves three sons, Clement Schaefer, Ludlow; and Walter and Robert Schaefer, both of Erlanger; two daughters, Mrs. Hilda I. Vermann, Dayton, O., and Mrs. Maaret Steffen, Erlanger; a brother, Larry Nuxoll, Erlanger; a sister, Mrs. Walter Munch, Park Hills and 11 grandchildren.

Many Answer Red Cross Plea For Blood Donors Mon.

One Hundred Twenty-One Give Blood When Unit Visits Airport.

The first bloodmobile visit to the Boone County Chapter, American Red Cross on Monday, October 29, at the Boone County Airport secured 121 pints of blood, for the Defense Department's Armed Forces Blood Donor Drive. The minimum quota for this visit was 100 pints and the chapter is grateful to the Boone County people and the Air Force personnel who made this collection of blood so successful.

Interest in the Defense Department's Blood Donor Drive has gained momentum steadily in the area, according to the Boone County chapter, and the drive will be continued as the mobile unit plans to make other visits to the county in the near future.

Lt. Col. Verdier E. Moore, Commanding Officer of the 222nd AFMTC, indicated that he was pleased with the spirit shown by members of his command.

John O. McEvoy, Florence attorney headed the committee as general chairman, assisted by Mrs. Allen Gaines, Walton; Mrs. Eve Grater, Union; Mrs. Ruby Caldwell, Burlington; and Mrs. Elizabeth G. Nestor, Florence.

It takes MONEY TO BUILD!

"I just had to have more barn room . . . and some of the other buildings needed repairing.

"But it takes money to build . . . more than we had saved up. Then, a neighbor tipped me off about a Federal Land Bank loan. He told me to see the National Farm Loan Association. It was a pleasant surprise to learn that the Association was made up of my friends and neighbors . . . all good, solid, substantial farmers.

"Well, today you'd hardly recognize the old farm, it looks so nice. I can keep my livestock and crops in better shape—can operate more efficiently and make more money. And I'm happy about that 4 percent Federal Land Bank loan. I can take 20 to 33 years to pay . . . or pay just as fast as I want to without any penalty whatsoever. And I didn't have to pay a cent in application fees, appraisal fees or commissions.

"If you need money to build or improve your farm in any way, let me suggest a Federal Land Bank loan."

NEW HAVEN HOMEMAKERS

The New Haven Homemakers Club met at the attractive home of Mrs. Jake Cleek, under the country sky, the trees were ablaze with many brilliant hues and the breeze was a tonic after those hot humid days. A perfect October day brought together thirty-one members and three guests to enjoy a most delightful day.

The meeting was called to order by the president, Mrs. George Baker. After an inspirational reading on "Love Thy Neighbor" by Mrs. Geo. Moody, the business on the agenda was taken care of. The project this month was embroidering huck guest towels and learning to make decorative stitches. Many pretty and colorful towels were made by the members.

As we worked and conversed with each other we feel: "For these opportunities we are grateful—we are grateful for the courage of yesterday, the hope of tomorrow, and a growing consciousness of God's love always."

—Publicity Chairman.

CONSTANCE HOMEMAKERS

The Constance Homemakers held their October meeting at the home of Mrs. Alice Kenyon.

Twenty-one members answered roll call. Miss Nancy McClaskey gave a talk on "Fabrics" and told members to attend the annual meeting which was held October 5th. We had six members on the 100 percent attendance record for the year.

The Citizenship Chairman collected pennies for Friendship.

Mrs. Ruth Kottmyer and Mrs. Virginia Gay gave our lesson on "Decorative Stitches."

Our next meeting will be held at the home of Mrs. Dola Domaschko.

—Publicity Chairman.

HELPERS CIRCLE MEET

The Helpers Circle of Hebron Lutheran Church held its last meeting at the home of Mrs. Chas. Vogelsang with most of the members attending. The lesson was given by Mrs. Vera Dolwick and Mrs. Evelyn Lancaster and was both interesting and informative.

Mrs. Henry Anderson presided over the business meeting. Several meetings of importance were discussed including our convention at Louisville, to which several plans to attend.

"I just don't have the time." How often have we heard, or perhaps used, this excuse when asked to attend missionary meetings or to take part in special programs, forgetful that except as it is granted to us by God we have no time at all. It seems only fitting that as Christians we should take time to do God's work in what every way we can.

The October meeting of Helpers Circle will be held October 25th. May we see you there?

—Publicity Chairman.

Estil Koger of Wayne county prepared 55 acres for fall seeding of alfalfa.

HATHAWAY HOMEMAKERS

The Hathaway Homemakers held their regular meeting October 17 at the home of Mrs. Lloyd Stephens, with Mrs. D. L. Lewis, president, presiding.

Our meeting opened with our club collect, followed by roll call with eleven members answering the call with the "name of the material of the dress they were wearing."

Miss McClaskey told of the blood unit to be in Boone County, urging everyone who could to donate blood.

Mrs. Russell McClure gave a talk on the importance of women voters. Our devotional was read by Mrs. Howard McClure, ending in prayer by Mrs. D. L. Lewis.

Our lesson for the day was "Decorative Stitches" given by Mrs. D. L. Lewis and Miss Katherine Utz.

Our next meeting will be held at

Mrs. Edward Bowen's.

Those attending were Mrs. Russell McClure, Mrs. Howard McClure, Mrs. Lennie Love, Mrs. Hiram Stephens, Mrs. James W. Smith, Mrs. Irvin Crocker, Mrs. D. L. Lewis, Mrs. E. C. Bowen, Mrs. Harold Gruelle, Miss Katherine Utz, our hostess, Mrs. Lloyd Stephens, and one visitor, Mrs. Dale Williamson.

No Burial Fund Under Old-Age And Survivors Program

"There is no 'Burial Fund' or 'Burial Insurance' paid under the old-age and survivors program," said Elbert M. Bohon, manager of the Covington, Kentucky Social Security Administration office, in a statement made today.

"A lump sum death payment," continued Mr. Bohon, "is made under the amended law to the survivor of every insured worker. This lump sum is paid immediately upon application to the widow or widower of an insured worker, but to others only upon receipt of satisfactory evidence that have paid the burial expenses of the insured worker. In other words, exclusive of the widow or widower, an application for the lump sum payment must be supported by an itemized 'paid' funeral bill."

This statement was occasioned by a rumor, no doubt started by the less informed, that the Social Security Administration assumes the burial expenses of an insured worker. "Don't rely on rumors," concluded Mr. Bohon, "Call our office and get the facts first-hand."

PROFITABLE DAIRYING BUILT AROUND FORAGE

Profitable dairying is built around grass, hay and other roughage crops, says Dr. R. F. Elliott of the Dairy Section of the University of Kentucky Experiment Station.

"Year-round the dairyman expects his cows to get 70 to 80 per cent of their feed from pasture, silage and hay," he said. "Cows increase their milk output when turned on pasture in early spring. This is because grass is highly succulent and contains a large amount of available nutrients. In early spring the protein and carbohydrates are

in their most available form, so cows are then able to produce more milk, and need less grain to supplement pasture."

Care in managing pastures tends to prolong these favorable nutrient levels, Dr. Elliott added. Controlled grazing, clipping, and even irrigation, increase the quantity and quality of pasture and the length of the grazing season.

"Its the quality of the hay harvested that a farmer should brag about," said this dairy authority. "A high-quality hay, cut at early

maturity, has more of what it takes to produce milk than has hay that is cut late and is coarse and stemmy."

Rain is the great bugaboo of hay-making. Rain may cause the loss of up to 27 percent of the digestible protein and 37 percent of the total feed value, according to Dr. Elliott. He stressed the value of silos, since forage crops as well as corn can be put in them. This method of preserving surplus pasture or rain-endangered hay is becoming more popular.

New Social Security Act Explained By Bohon

"The coverage of self-employed persons under the amended Social Security Act has caused much misunderstanding as to whether coverage is voluntary or compulsory," stated Elbert M. Bohon, Manager

of the Covington Social Security office today. "A number of self-employed people," continued Mr. Bohon, "have recently contacted our office inquiring about their status under the new law, and especially as to it being optional or compulsory."

"To clear up any misunderstanding, the facts are that if you are self-employed and derive as much as \$400.00 in net profit from your trade or business in any taxable

year after December 31, 1950, your Social Security coverage is compulsory by law," Mr. Bohon concluded.

The self-employed will report their 1951 social security amount when they file their 1951 income tax return after January 1, 1952. It is not to be reported in any other manner. Some believe that they can include their names on the regular social security reports on which they report employee earnings. This

is not true, and self-employment income can be reported only in connection with the regular yearly income tax Form 1040.

Idleness Breeds Evilness

The Recorder is in receipt of the following letter from Lt. Paul G. Ammon, stationed at Patrick Air Force Base, Cocoa, Fla., giving a brief story on the advantages of interscholastic sports and what sports are doing in the penal institution at Raiford, Florida.

We believe that Lt. Ammon has a good thought and are publishing his letter in full. The letter follows: "I am stationed at Patrick Air Force Base, Cocoa, Florida. Probably some will recall that I refereed football and basketball in and around Boone County before my recall active duty as a pilot at the Air Force's Guided Missile Test Center here.

"On 14 October 1951 our base football team traveled to Raiford, Florida to play the Florida State Prison team. I had the privilege of helping referee that game. Never have I been in such a curious position, we referees never had a single complaint from 'State's' team or the partisan spectators. We never had to penalize their team over 5 yards at any one time and such cooperation from the coach and prison officials I never again expect to enjoy.

"At dinner with Superintendent Chapman, (no one calls him 'Warden'), we learned that the prison does not participate in athletics necessarily to win—but, to keep the minds of the men occupied. 'Why,' said Mr. Chapman, 'if these men weren't out playing football and the other betting and cheering for them, they would all be in their cells scheming and trying to figure some way to escape.' Coach Herb Thomas told us that only 4 or 6 of their men ever played football before and several men on the team had never even seen a football game. The same thing is true of all their sports—less than one per cent of all the inmates had ever participated in any sport. Warden Chapman mused, 'Yes, we have a goods sports program—but, too late.'

"If all our people could visit a state prison I sincerely believe we'd have better sports programs in all communities—the words of Warden Chapman, 'I believe a compulsory sports program in every high school would do more to eliminate crime and juvenile delinquency than any other single thing we could do.'

"It was hard to realize that the men in that place were criminals—men who would lie, cheat, steal, or even murder. Those men are paying what they owe to society—and when they get their ten dollars, new suit, and freedom you can be sure most of them will be much better citizens than many of their 'society' brothers."

"Upon our leaving 'State' one man came up to me and said, 'Say Lieutenant, if you have a professional wrestler or two down there (at the base) bring them up and we'll put on a show—I wrestled professionally when I was on the street.' I told him I didn't know if we had any wrestlers or not, but he said, 'Well if you do, bring 'em on up—I'll be here for 15 years!' At that every one laughed, shook hands and our team left them all waving and telling us to come back. We won the game, but that wasn't our fault and the team wasn't thinking of that—many comments were made on the bus that I wish I could remember but the most frequent and outstanding was, 'Boy, that's the only way I want to go in there—as a visitor.'

"I wrote this letter so you can print in the Recorder and so the folks around home will realize a little more why we have interscholastic sports and maybe they won't be so prone to say, 'Yeah, sports are O. K., but what those kids really need is to spend their energy working.' That's what happened to the prisoners—they spent their time working—working out a scheme to rob someone or to grab a quick buick.

"Idleness breeds evilness."

90% For! 10% Against

Railroad workers are represented by 23 standard unions. By mutual agreement, 20 of these unions—comprising about 1,200,000 men, or more than 90%—are working under wages and rules agreed to by them and the railroads. But leaders of three unions—with only about 130,000 men, or less than 10%—still refuse, after more than a year of negotiations, to accept similar wage and rules agreements. These are even more favorable than the terms recommended by the Emergency Board appointed by the President.

Yes, it certainly seems to be finally about time that the leaders of the three unions stop their delaying tactics—their quibbling. But the leaders of the Brotherhood of Locomotive Engineers, the Brotherhood of Locomotive Firemen and Enginemen, and the Order of Railway Conductors continue to refuse. They continue a course of dillying and dallying. It is definitely time to

END THIS QUIBBLING!

On June 15, 1950, an Emergency Board appointed by the President under the terms of the Railway Labor Act—an Act largely fathered by the unions themselves—made its recommendations on certain wage and working conditions ("rules") in railroad language, which had been in dispute between employees and the railroads.

More Than 90% of Employees Accept
Since then, terms equal to or better than the Board recommendations have been accepted by about 1,200,000 railroad employees—more than 90% of the total of all workers. They are represented by 20 of the 23 standard railroad unions.

Less Than 10% Refuse
But three unions—with about 130,000 men, or less than 10% of the total—have refused to accept, even after months of negotiations. These three unions are the Brotherhood of Locomotive Engineers, the Brotherhood of Locomotive Firemen and Enginemen, and the Order of Railway Conductors. These are three of the so-called "operating" unions. Already the highest paid men in the industry, their leaders demand still further advantages over other workers.

In all, there are about 270,000 operating employees. But not all of them, by any means, are represented by BLE, BLF&E, or ORC. As a matter of fact, less than half—132,000—are in these three unions. More than half—about 140,000—are in other unions, principally the Brotherhood of Railroad Trainmen. What makes the whole situation so hard to understand is that these 140,000 operating employees are working under wages and rules which the leaders of the other 130,000 say they cannot agree to.

What Do the Railroads Offer?
They offer these three unions the same settlement which was contained in a Memorandum of Agreement signed at the White House on December 21, 1950, by four brotherhoods and the railroads. Later these brotherhoods sought to repudiate this agreement. But on May 25, 1951 the Brotherhood of Railroad Trainmen signed a complete agreement carrying out the

principles of the Memorandum Agreement of December 21. They have been working under this agreement since May 25.

What About Wages?
Under the terms of the agreement, yard engineers, firemen and conductors would now be receiving a wage increase of \$.34 an hour (\$2.72 a day) and road engineers, firemen and conductors would now be receiving an increase of 19 1/2 cents an hour (\$1.56 per day). Large sums of retroactive pay have already accrued and if the agreement is carried out, will be paid promptly.

What About "Cost of Living" Increases?
The White House Agreement includes an "escalator" clause under which wages will be geared to changes in the Government's cost-of-living index. Two such increases—April and July, 1951—have already been paid to the 90% of railroad employees covered by signed agreements.

What About the 40-Hour Week?
The White House Agreement calls for the establishment of the 40-hour week in principle, for employees in yard service. The employees can have it any time after January 1, 1952, provided the manpower situation is such that the railroads can get enough men to perform the work with reasonable regularity at straight time rates. If the parties do not agree on the question of availability of manpower, the White House Agreement provides arbitration by a referee appointed by the President.

What Else Do the Union Leaders Demand?
The continued quibbling of the leaders of the three unions has to do principally with

rules changes, which have already been agreed to by the Brotherhood of Railroad Trainmen. Of these, the principal one seems to be that having to do with so-called "interdivisional service"—runs which take in two or more seniority districts.

The union leaders would bar progress and efficiency in the industry, and better service to the public, by maintaining a situation where they can arbitrarily stop a railroad from establishing such interdivisional runs. The carriers propose that if a railroad wishes to set up an interdivisional run, the railroad and the unions should try to agree on such run and the conditions which should surround its establishment, and if the railroad and the unions can't agree, the matter will be submitted to arbitration.

But the three union leaders still refuse.

Rules Can Be Arbitrated
The railroads have not only offered these three unions the same rules agreed to by the BRT and covered by the White House Agreement, but have even agreed to submit such rules to arbitration.

The Industry Pattern Is Fixed
With the pattern so firmly established in the railroad industry, it seems fair to suggest that the leaders of BLE, BLF&E, and ORC stop their quibbling and take action to make the railroad labor picture 100% complete. Certainly today's economic and international situation calls for a united front. And certainly no good reason has been advanced why these three unions should be preferred over all other railroad employees.

We are publishing this and other advertisements to talk to you at first hand about matters which are important to everybody.

BRIEF BIOGRAPHIES OF DEMOCRATIC CANDIDATES FOR STATE OFFICES

LAWRENCE W. WETHERBY

The Governor was sworn in as Kentucky's Chief Executive November 27, 1950.

Governor Wetherby, 43, is a native of Middletown, Kentucky, and the son of a county doctor, the late Dr. Samuel D. Wetherby and Mrs. Wetherby. He succeeded Earle C. Clements as Governor when the latter became United States Senator. Prior to this Wetherby served as Lieutenant-governor for three years.

Wetherby spent much of his youth on a farm. Until graduating from college, he was actively engaged in farming and was a charter member of the Junior Agricultural Club—fore-runner of the present 4-H Clubs. As a member of the club, the Governor completed an agricultural course at the University of Kentucky, and served on the Club's judging teams. He has exhibited hogs and corn at the Kentucky State Fair.

Governor Wetherby was graduated from Anchorage High School where he played football, basketball and baseball. In 1929 he was graduated from the University of Louisville Law School, where he played football and basketball. The Governor served as Secretary of the Democratic State Central Executive Committee until he became Chief Executive. He also has been active in Kentucky Young Democratic circles.

Before taking office in Frankfort, he was a member of the Board of Governors of the Children's Agency, served on the Mental Hygiene Clinic Board, the Jefferson County Health and Welfare Council and the Board of Maryhurst School for Girls.

In 1930, Wetherby married Helen Dwyer, daughter of Dr. William M. Dwyer. They have three children, Lawrence W. Jr., Barbara and Suzanne.

SAVE OUR CONSTITUTION

from this VICIOUS amendment

On your November election ballot, there will appear the most vicious Amendment to our Constitution ever proposed. If passed by a majority of only one vote, it will permit the Legislature to:

- 1 Submit any number of amendments it desires and require only one vote to pass them, whether good or bad.
- 2 To repeatedly re-submit bad amendments year after year until they finally pass by just one vote.
- 3 To completely rewrite our State Constitution and submit it for approval by a majority of one vote every year.

In the considered judgment of many of our most able Kentuckians, Democrats and Republicans alike, this proposed amendment is the most serious threat to orderly Constitutional Government ever presented to the people of Kentucky.

EAST BEND PASTOR FORTY YEARS AGO

Rev. S. J. Bradley

The above picture is a likeness of Rev. S. J. Bradley forty years ago, when he first took over the pastorate of the East Bend Methodist Church.

Rev. Bradley, again takes over the East Bend Methodist Church pastorate, at a time when the field needs a worker of his caliber.

When he first came to the church he stated that there were few members, and many of them failed to attend services. After being on the field a few months, attendance improved, and in a short time the church was filled to capacity at each service. Many of his members were visited in those days by walking a distance of several miles. However, he stated that he visited each member regardless of the distance he was required to walk.

Rev. Bradley, now retired, has accepted the pastorate of the church,

and states that he expects to visit his members the same today as he did forty years ago. His first visit to the church under the present appointment was Oct. 14 and the next service will be held Sunday, November 4th.

Highway Department Warehouse Levelled

A large warehouse being used by State Highway crews, off Dixie Highway in Erlanger, was destroyed by fire Sunday. Loss was estimated at \$2,000, according to reports.

The blaze apparently started from spontaneous combustion in a bin of straw, according to Chief Andy Scheben, of the Erlanger Volunteer Fire Department.

Erlanger and Elsmere firemen were hampered in fighting the blaze as a corrugated metal roof held the blaze inside the building.

PASTURES IMPROVED IN FACE OF DROUGHT

Despite burned pastures, many farmers in Estill county who have started pasture programs made August seedings, says Fred Brockman, UK farm agent.

Nelson Alexander of West Irvine is seeding 78 acres, one of the largest acreages. Starting two years ago, when he had insufficient pasture for his herd of about 60 registered Herefords, he has treated and seeded more than 100 acres. Surplus pasture has been cut for hay.

"No more corn to be drowned out, and no more hogs to worry with. Pasture for beef production involves less risk from weather, less labor and more profit," says this farmer.

Mr. Alexander's practice is to remove soybeans or corn from wet bottomland in early September, disk in fertilizer and then seed to fescue and Ladino clover.

Oldham county farmers who applied potash after soil tests have reported excellent success with alfalfa.

Indiana Allocates Funds For Ohio Toll Bridge Planning

Floor Of Bridge Will Be 165 Feet Over Present Water Level.

The Indiana State Budget Commission allocated \$16,600 for preparation of plans for the Ohio River toll bridge to be built at Lawrenceburg, it was announced Tuesday of last week. The new bridge is expected to cost approximately \$4,000,000, and will connect Lawrenceburg, Ind., with Boone County near Petersburg.

The funds, allocated to the state toll bridge commission, were included in distribution of \$905,000 to various state agencies. The money previously had been appropriated by the 1951 legislature. The work has already been started.

The elevation indicates that the bridge will reach the ground level approximately at the storage building of the L. & L. Copper Co., in Lawrenceburg. The approach will be filled to about Tate street and from there will be supported on concrete pillars to a point at the water's edge where the long span will be supported by one of the two huge piers that will swing the bridge over the river and allow a free 800-foot clearance for river traffic. The floor of the bridge will be one of the four highest in the world, 165 feet over the present water level.

Approach to the bridge on the Boone County side will be constructed by the Kentucky State Highway Department.

Interest in this project has been high in Boone County as well as by Indiana residents.

Roll call is to be answered by the name and something of interest about an American Bird.

The club may be fortunate enough to also have a guest speaker.

Everyone should know more about birds. Plan to attend. Visitors and new members are welcome.

Rabbit Hash Store Robbed Tuesday Night of Last Week

Loot and Cash Taken Total \$330; Gas Lines of Trucks Are Cut.

Thieves entered the general store of W. J. Craig, Rabbit Hash, on the Ohio River Tuesday night or early Wednesday morning of last week and escaped with loot valued at \$330 according to Sheriff Wendell C. Easton.

Mr. Craig, proprietor of the store reported to Sheriff Easton that hardware and miscellaneous items worth \$300 had been taken in addition to \$30 from the cash drawer. The thieves gained entrance to the store by breaking down a door in the feed storage room of the store. Before leaving, the culprits cut the gasoline lines of two trucks belonging to the store's equipment.

Sheriff Easton stated that no clues were left by the culprits, which could aid in their arrest.

Twelve Hundred Given Free Chest X-Rays In County

Approximately 1200 Boone County people were given free chest X-ray examinations last week at Burlington, Florence and Walton through the State Health Department and Boone County Tuberculosis Association's mobile unit project, it was announced by Mrs. Sibbia Reimer, president of the County Association.

Practically every high school student in Boone County's school received an examination and many grade school students under 15 years of age who had been in contact with tuberculosis received one, Mrs. Reimer stated.

State Department officials and the mobile unit operators said that they received the best cooperation in Boone County that they had ever received anywhere. They especially pointed out the cooperation of the Electric Company who were so cooperative in servicing the equipment, the schools and high school students, county officials and newspapers.

The X-ray unit will return to Boone County within the next three weeks to give another examination to those whose examination was doubtful, Mrs. Reimer stated.

"I am proud to serve in any capacity that helps the Boone County Tuberculosis Association, which is fighting 12 months a year to protect us against a disease which is killing at the rate of one person every 13 minutes in this country," said Mrs. Cropper.

"The association is working for us the year around," Mrs. Cropper pointed out, yet it appeals just once a year, with the Christmas Seal Sale, for financial support for its many services. The forthcoming Christmas Seal Sale will finance the work of the Association during 1952."

Mrs. Sibbia Reimer, president of the Boone County Tuberculosis Association, pointed out that the organization was "counting heavily" on Boone County people to volunteer their services for Christmas Seal work.

Mrs. Cropper added that "We are going to get started as soon as possible on Christmas Seal Sale preparations and we need all the help we can get."

It takes MONEY TO BUILD!

"I just had to have more barn room . . . and some of the other buildings needed repairing.

"But it takes money to build . . . more than we had saved up. Then, a neighbor tipped me off about a Federal Land Bank loan. He told me to see the National Farm Loan Association. It was a pleasant surprise to learn that the Association was made up of my friends and neighbors . . . all good, solid, substantial farmers.

"Well, today you'd hardly recognize the old farm, it looks so nice. I can keep my livestock and crops in better shape—can operate more efficiently and make more money. And I'm happy about that 4 percent Federal Land Bank loan. I can take 20 to 33 years to pay . . . or pay just as fast as I want to without any penalty whatsoever. And I didn't have to pay a cent in application fees, appraisal fees or commissions.

"If you need money to build or improve your farm in any way, let me suggest a Federal Land Bank loan."

FLORENCE HOMEMAKERS

The Florence Homemakers held their October meeting at the home of Mrs. Herman Wesler on Hopeful Road. Assistant hostesses were Mrs. Mabel Sayre and Mrs. George Morith.

A stimulating talk on "Citizenship," with special emphasis on the civic responsibility of mothers to their children, was given by Mrs. James Miner, citizenship chairman. This was followed by a round table discussion on this year's candidates and issues.

Mrs. Grant Maddox reported on the membership drive, and hints on gardening were given by Mrs. Wesler. Mrs. Roy Lutes gave a short explanation concerning the annual

collection of "Pennies for Friendship," and this year's collection was taken.

Following a covered dish lunch at noon, a house-plant sale was held. Miss Nancy McClaskey, home demonstration agent, gave a report on the annual county meeting. Mrs. John Schram and Mrs. Robert Cox

were leaders for the day's lesson on decorative stitches.

A Christmas workshop will be held at the Florence Town Hall on Monday, November 12th at 10:30 a. m. All members are urged to take this opportunity to use skills learned at meetings during the past year to make Christmas presents.

HOLIDAY WORKERS NEED SOCIAL SECURITY CARDS

The holiday season is fast approaching. It means that many people not normally in the labor market will be working during the next few weeks.

Be sure you have a Social Security account number card before going on your new job. If you have never had a card, or if you have lost your card, contact the local Social Security office.

"Are you self-employed?" If so, you will need a social security number when you file this year's income tax return.

The Covington office of the Social Security Administration is located in room 18 of the New Post office building, seventh and Scott Streets, Covington, Ky.

MARSHALL FARMER PUTS UP POLE BARN

The first pole type beef cattle barn in Marshall county was built by W. L. Frazier of Gilbertsville. Fifty-two feet square, it will cost about \$800 for all materials, including pressure treated poles and rough native lumber, according to UK County Agent J. Homer Miller. It will care for about 40 cows and storage for hay for the winter.

The barn was built with the help of farmers throughout the county, who worked under the direction of experts from the UK College of Agriculture and Home Economics and the Doane Agriculture Service. The building was about two-thirds completed in one day by the farmers, who showed considerable interest in this type of barn, said Miller.

DAIRY, BEEF CATTLE PAY FOR HILL FARM

Good use of typical hill land in Crittenden county was seen by farmers on Banker-Farmer Field Day when they toured the L. E. Lucas farm. Mr. Lucas has 153 acres, with 76 acres in improved pasture and meadow, five acres in small grain, clover and grass, six acres in corn, and the rest in wood land.

It was in 1925 that Mr. and Mrs. Lucas bought the farm, going in debt for \$3,000 which he says he paid off with cream checks from a herd of eight to 10 cows. They brought in an average of \$50 a month. Manure, lime and phosphate were used gradually to improve the farm. When it was paid for, Mr. Lucas changed over to beef cattle, and now has 40 head of Herefords of high quality, according to UK County Agent Oakley M. Shelby. He also has two Jersey

cows and two brood sows.

Mrs. Lucas helped out with flocks of good laying hens through the years, and now has 150 which produce eggs for the local U. S. hatchery.

SPRAYING SAVES CORN

W. J. Emmick of Hancock county bought a self-propelled outfit for spraying corn after it was too high for ordinary spray equipment. He reports he is well pleased with the machine and the results he is getting. Due to wet weather a larger area of corn than usual in the county was sprayed with 2,4-D says UK County Agent Charles L. Goff.

QUALITY WOULD UP INCOME FROM EGGS

Better care in handling eggs, both by farmers and market agencies, would add two to four million dollars a year to incomes of poultry raisers in Kentucky, according to the annual report of the

Agricultural Experiment Station of the University of Kentucky.

A report on egg quality says: "Of the eggs reaching city markets, three out of 10 would not satisfy a quality-minded buyer wanting clean shells."

An examination of 40,400 eggs delivered by farmers to local stores and produce buyers showed that 16 percent were stained, 11 percent dirty and between 3 and 4 percent had cracked or damaged shells. Losses varied from one percent in fall and winter to 7 percent in July and August.

Producers who sold eggs on the basis of U. S. consumer grades had little loss and marketed only 6 percent dirty, stained and quality C eggs. They averaged about 8½ cents a dozen more than was paid locally for "run of the farm" eggs. Some farmers received as much as 6 cents a dozen more.

PEOPLE'S SHOE STORE
814-816 Madison, Covington

When your feet begin to roll inward and go down, the nerves and blood vessels in your feet are pinched and cramped, permitting waste matter to collect at the joints. Then comes inflammation and pain. It often creates symptoms of rheumatism, arthritis and other ailments. Those backaches—those headaches—those leg pains may be coming from the shoes you are wearing. Don't take chances with your health, happiness and peace of mind. Go where schooled men will make an honest, scientific foot analysis and recommend your correct shoe. Don't wait—stop that suffering now.—Adv.

SOCIAL SECURITY OFFICER TO VISIT ERLANGER NOV. 15

Elbert B. Bohon, manager of the Covington Social Security office announces that a representative of his office will be at the Post Office in Erlanger from 10:00 a. m. to 11:00 a. m. Thursday, November 15th. He will receive applications for old-age and survivors insurance benefits under the amended law, as well as issue account number cards and consult with interested persons.

Mr. Bohon states that many self-employed persons have already applied for and received individual social security account number cards, but that the number is less than half of those who will be required to have a card when they report earnings from self-employment after the close of the year. Of course, a goodly portion of the self-employed may have had an account number at some time since January 1, 1937 and should use that number again; however, he estimates that over 2000 self-employed persons are still without account number cards. Get yours now, and avoid the rush!

13 STATES LEVY TON-MILE TAX TO SPREAD ROAD COSTS

Thirteen states, faced with the same highway problems as Kentucky, have turned to a gross ton-mile tax on trucks as a means of more fairly spreading the burden of mounting road costs. They are Kansas, Michigan, Wisconsin, Oregon, Colorado, Florida, Idaho, New Mexico, New York, South Carolina, South Dakota, Utah and West Virginia.

In theory, motor vehicle operators, whether pleasure cars or big trailer-trucks, pay in direct proportion to the number of ton-miles driven; but in Kentucky, it doesn't work that way for, based upon damage done to the roads, the big trucks should be paying 11 times as much as passenger cars, but are paying only three and six-tenths times as much, according to highway officials.

Thomas McDonald, commissioner of the U. S. Public Roads Bureau, told a recent governors' conference that the number of heavy trucks using the highways for their owners' profit had increased 1300 per cent in the last 10 years and the governors of 40 states testified that, as heavy truck traffic increased, the highways in their states broke down more rapidly, each year.

A principal expense in providing rights-of-way for the huge highway boxcars in Kentucky is maintenance of bridges. Kentucky has more miles of navigable streams than any other state. This means the commonwealth must build and maintain many, many road bridges. Hundreds of these are antiquated and worn out . . . and never were intended to withstand the strains placed upon them by trucks with 42,000-pound load limits, often exceeded.

The ton-mile tax, to bring the Highway Department more revenue and to spread the road burden more fairly, is needed by Kentucky, in the opinion of best informed authorities.

"GIVE THE PEOPLE WHAT THEY WANT," SAY ICE FOLLIES PRODUCERS

"An example of what can be done in this great land of ours—if we give the people something they want."

It was Oscar Johnson, Eddie and Roy Shipstad, talking about their "baby"—the fabulous Ice Follies, one of the truly great miracles in the entertainment world. The 1952 edition opens at the Cincinnati Garden November 15th through November 25th with matinees on 17, 18, 22, 24, 25.

The story of "the boys" as the cast calls them, is the story of three ordinary American boys. They could come from your city; they could come from mine.

It is the story of three boys and an idea, an idea that has grown into a fabulous enterprise. It could happen to anyone in America.

When Eddie, Oscar, and Roy get together, there's a fusing of energies, of ideas, of aspirations that have driven them to the high pinnacle of success that is theirs.

It all started back in Minneapolis in 1936. The three boys all liked to skate. When winter came, they skated upon public ponds. They didn't cause much of a furor. Good skaters there are a dime a dozen.

But Oscar used to hurdle a few park benches, cut a few capers on the ice. So did Eddie and Roy. Pretty soon they got to toying with the idea of a little ice show.

They went to work, got together a little act. It was nothing elaborate.

They took it on the road, managed to make a little money where ice skating was a novelty. In Chicago, they entertained crowds between halves of ice hockey games. Came Madison Square Garden, and they filled in with their act during the intermissions.

"The boys" pooled their savings. They chartered a bus. Then they talked a few pretty girls into joining the show. Pretty soon they added a few men, and made arrangements to appear in any city with suitable ice rink, and a willing promoter.

By comparison to the present-day extravaganza, it wasn't much . . . 28 people when they first opened in Tulsa, Oklahoma. But they pumped every nickel they made back into the show. Soon they became solidly organized, and the Shipstads and Johnson began their magic ride to success.

"We put on a family show that dad, mom, and all the kids can enjoy," say the boys. "We also appeal to the masses, and we don't want to get away from prices that they can meet—even though the

cost of staging the Ice Follies has greatly increased."

During the past few years when attendance at entertainment events has declined sharply, the Ice Follies' attendance has kept at a high level, and in some cities, even increased.

"If you give the people something they want, they'll go to see it"—that's the theory of Oscar Johnson, Eddie and Roy Shipstad, producers of the fabulous Ice Follies.

HOMEMAKERS SEW TO OFFSET HIGH PRICES

Boyd county homemakers reacted against the high cost of clothing by doing much of their sewing at home the past year. A check-up at their annual county-wide meeting showed the women had made 1,758 dresses and 474 wool suits and coats for themselves and their children; remodeled 852 garments, made or re-trimmed 352 hats and made 24 pairs of gloves.

A study of glassware and silver for better selection, the making of corsages and floral arrangements, and beautification of the exterior of their homes were other high spots of the year's work, said UK Home Agent Mrs. Lois Sharp.

A new pole-frame barn completed in August on the farm of J. C. Sugg in Webster county has aroused considerable interest among farmers.

Mining land that has been idle in Livingston county for many years is now being worked with a heavy disk and will be seeded to pasture.

How the Railroads Contribute to Kentucky's Prosperity and Progress

FOR 121 YEARS Kentucky's railroads have been good citizens, making a major contribution to the progress and prosperity of the Commonwealth and performing a variety of services to advance the interests of agriculture, industry, commerce and culture in the State.

Last Year's Record

In 1950—the railroads spent in Kentucky a total of \$238,535,390—nearly a quarter of a billion dollars. Here are the details:

State, county and city taxes took \$7,191,890—of which \$3,660,047 went to support Kentucky's schools and the education of her future citizens.

Improvements, expansion and upkeep took \$94,000,000 in the operation of 3,860.42 miles of first main tracks in Kentucky—of which \$23,690,846 went for new equipment, road and right-of-way improvements. In addition, \$77,133,418 was authorized, or planned, for new lines, equipment, and further improvements.

Salaries and wages paid to 29,876 Kentucky railroad employees amounted to \$105,243,320—most of which was spent locally all over the State for food, clothing, fuel, housing, medical services, etc.

Purchase of goods and materials took \$32,066,473—much of which was spent with Kentucky suppliers.

Yes—for more than a century Kentucky's railroads have been among the State's principal contributors to its progress and prosperity. And today these railroads are more alert than ever to their responsibilities to the people and to the State's needs.

Boone Co. Pioneers

THEIR ANCESTORS AND THEIR DESCENDANTS

They Became Americans

Alexander Spotswood, Governor of the Colony of Virginia, like many other English officials, was a land speculator on his own account. He had acquired thousands of acres at the foot of the Blue Ridge Mountains, on which there was iron ore. To develop mines and to establish a blast furnace, the first in the colonies, he sent an agent to Germany in 1714 to secure skilled iron workers for the operation of the mines and the furnace. In passing, it may be mentioned that England did not permit her colonies to manufacture anything. Crops and mineral resources had to be shipped, in English ships, to England.

The "sow-iron," as it was then called, or "pig-iron" as it is now known, had to be hauled to the coast and loaded on sailing vessels bound for England, where it was bartered for merchandise needed in the colonies. The colonists needed nails and salt-impregnated kettles, for instance, and though they had the iron, it had first to be shipped to England, fabricated there and then shipped back to America.

Spotswood's agent sent back from Germany twelve families to develop the Governor's iron industry. Among them were Jacob Holzclaw, Herman Fishback, John Hoffman, or Huffman, Joseph Coons Tillman or Dillman, Weber (Weaver) and Peter Hitt. These men or some of their descendants were afterwards identified with the Madison County

colonists, and were among those who emigrated to Kentucky. Families living in Boone, Oldham, Jefferson and Bullitt Counties today can trace their lineage to them.

These colonists were sent to what was then Essex County, on the Rapidan River, above Fredericksburg. The settlement they made on the frontier of Virginia was named "Germania," because of their nationality, and they were known as the "first colony of Germania." When Spotsylvania County was formed from Essex in 1720, Germania, the only settlement in the county, became the county seat, when Orange County was formed in 1734 it included Germania and what was afterwards Madison County. Orange County, in fact, as the western-most part of Virginia, embraced all of Kentucky, too, for the boundaries of the colony at the period, extended "from sea to sea" and north to the Great Lakes. When Culpepper County was organized in 1748 from Orange its boundaries included the present county of Madison which was not created until 1792. In tracing the Madison County ancestry of early Boone County citizens therefore, we must search the records of Essex, Spotsylvania, Orange, Culpepper and Madison Counties between the years from 1714 to 1798, when Boone County, Kentucky was formed.

Germania long ago disappeared from the maps but its history is important in the story of the "second colony at Germania," also some of the "first colony of 1717." There were the men, women and children on their voyage to Pennsylvania, who were marooned by a storm at sea on the shores of Vir-

ginia. Governor Spotswood needed them for his mines at Germania, so he paid for their transportation and they became his "indentured servants" for seven years—years of shabby, harsh treatment and many hardships. Spotswood promised them a chapel of their own and a remission of the taxes imposed for maintaining the parish church of England, "as long as they remained at Germania." Neither promise was kept, but he kept them employed in the iron mines and in building an "enchanted palace" for himself.

To the colonial council Spotswood reported, "I have placed these Protestant Germans at Germania, built them a fort and supplied them with two cannons, guns and ammunition" (all at the Colony's expense), "which will awe the Indians and be a barrier for the protection of the tide-water settlements." Cannon fodder, in Spotswood's judgment—just ignorant German-speaking foreigners!

When at last, after most of the colony of 1714 had moved away, the second colony also prepared to move farther West on the Rapidan River, the Governor sought to restrain them by filing suits against them, alleging they failed to keep their agreement as set forth in a written contract. George Utz and Zerichan Flesham appeared before the Council "for themselves and fourteen other high Germans," and asked for the appointment of counsel to represent them and demand that Spotswood furnish them with a copy of the agreement. Counsel was appointed, but the Governor failed to produce the "agreement" and the cases were dismissed. Now, at long last they were free to secure homes for themselves; they said goodbye to the royal governor with no regret and moved from Germania to a site they had selected in what was afterwards Madison County at the junction of Robinson River and White Oak Run (Creek). They were the first white settlers in that section of Virginia and there were no settlements on the west between them and the Mississippi River. In 1726 in the Spotsylvania County Court most of them "proved their emigration" and received their "head-right,"—fifty acres of land for each person; others made their declarations in 1728. As soon as their cabin homes were built and land cleared for crops, they entered their names on the organization of a church and the establishment of a school. Now they were Americans!

KENTUCKY FISH HATCHERIES PAY OFF

Despite an unfavorable early spawning season, Kentucky's fish hatcheries have paid off this year better than ever before. Already all farm ponds have been stocked and twice as many bass have been placed in streams than any other one previous year. The Division points out that bass still are being taken from the hatcheries in addition to streams, where suitable, are to be stocked. An example of the hatch this year may be gleaned from a report on one pond at the Williamsburg hatchery. Previously it yielded about 10,000 bass. More than 30,000 were taken from this pond this year. In addition five times as many rock bass have been produced and freed this summer than ever before. This species is produced at the Ashland hatchery.

The Division is experimenting with stream stocking to determine its value. Extremely heavy stocking is being done in some streams and results will be obtained as a guide to future stocking policy. The Division hopes to work out a formula for stream stocking, but knows beforehand that some type streams will require different techniques than others.

CONVERTS FARM TO GRASS

Roy Calmes of Lee county is gradually converting his farm to grassland farming, now having about one acre in truck and corn crops and 35 acres seeded to fescue and Ladino clover. Mr. Calmes is working to stock his farm with good beef cattle, says Hollis Henderson, UK farm agent. His plans are to develop his 45 acres of cropland into pasture that will support 25 to 30 beef cows and their calves.

CARD OF THANKS

It is our desire to thank all of our friends and relatives for the cards, letters, candy, fruit and cigarettes that was sent and given to me during my recent illness at St. Elizabeth Hospital.

Especially we want to thank those who called both at the hospital and my home; those who offered their services; and to our relatives who stayed day and night with my wife; to Rev. Roy Johnson and Rev. Sam Reid, who called on me and to all these fine people who say "many thanks" and may God bless every one of them.

Boone Airport Expansion Program Planned For Spring

Weather Halts Two Million Dollar Project, According To Report.

Expansion work on a \$2,000,000 project of Greater Cincinnati Airport in Boone County to accommodate an Air Force Reserve Training Center and Training Wing, will begin in the spring as soon as weather permits, according to a report from the office of Rep. Brent Spence, of Ft. Thomas.

Two Air Force units, the 2252d AFRTC and the 910th AFRT Wing will be moved to Clinton County Air Force Base at Wilmington, O., on a "temporary basis" because of lack of facilities at the local airport.

An Air Force spokesman said that the word "temporary" was used because it wasn't known how long the units would be at Wilmington, or where they would go if transferred from there.

A report from Rep. Spence's office indicated that the units would be returned to the Greater Cincinnati Airport when adequate facilities could be completed.

In Washington it was pointed out that the Air Force only improves bases for its use, and does not build new fields when airports such as the Greater Cincinnati Airport already are available.

Walton Bearcats Only Boone Team To Hit Win Column

In County Games Friday Night; Cats Defeat Holy Cross 55-49

The Bearcats of Walton-Verona was the only Boone County basketball team able to break into the win column in a quartet of games involving county quints last Friday night. The cats defeated the Holy Cross Indians by a 55-49 score at Walton. In other games Simon Kenton trimmed Burlington's Eagles 50-41, Silver Grove took a hotly contested game from Hebron's Cardinals 55-55 and New Haven's Tigers lost to the Crittenden Bulldogs 46 to 40.

In the Walton victory the Cats held a lead throughout and held leads at the rest periods of 22-9, 39-20 and 51-36. The winners used substitutes mainly in the final quarter and were outscored 13 to 4. Monk Vest spearheaded the Walton attack with 17 points; with Grubbs adding 13. For the losers Wilson had 14 and Flannagan 11.

Pioneers Win Over Eagles
Burlington's Eagles showed a definite lack of practice and experience in falling to Simon Kenton at the winner's floor. The Eagles trailed 12-6 at the first quarter and 21-18 at halftime. The margin of Simon Kenton was extended to nine points, 34-25 at the end of the third period.

Human of the Pioneers tallied 18 points and Chapman added 16 to the winner's cause. For the Eagles Rouse had 17 and Ryle 14. The Eagle reserves lost a 32-17 decision to the Simon-Kenton seconds.

Silver Grove's Big Trains rung up their fifth consecutive victory when they defeated the Hebron Cardinals by a 55-55 count at the winner's hardwood. The Cards led at the first three quarter stops 11-7, 24-23 and 43-40 only to see the Big Trains win in the final few seconds on a layup shot by Brausch. Weiner with 13 points, Doll with 12, Remley 12, and Brausch 10 paced the winner's scoring. For Hebron it was Crigler with 19 and Garnett 18 to take scoring honors.

New Haven was on the short end of rest period scores of 11-8, 24-21 and 40-32 before falling 46-40 to the Crittenden Bulldogs of the Pen-gran Conference at the Grant County school's court last Friday night. Catlett was the big offensive gun for the winners with 24 points. Early had 8 and Thornton added five to the winner's cause. For the Tigers Cook had 14, Flynn 8 and D. Mason 8.

Local Citizens Receive Christmas Seals This Week

Sale Of Seals Will Help In Fight Against Tuberculosis.

One of the world's most familiar symbols of unselfish giving, Santa Claus, is featured on the 1951 Christmas Seals, which reached the homes of Boone County residents through the mails early this week. Mrs. C. L. Cropper, County Christmas Seal Sale chairman, said yesterday.

Mrs. Cropper discussed the Christmas Seal with other volunteer workers last week while the group were preparing the seals for mailing. The 1951 sale of Christmas Seals will be conducted by the tuberculosis association from November 19 to Christmas day to raise funds for the tuberculosis control work of the association.

"In my opinion, the artist could not have selected a more appropriate figure for the Christmas Seal," Mrs. Cropper said. "To adults and children alike, Santa Claus represents unselfish giving and the unselfish gifts of the American people in the last 45 years—their annual purchases of Christmas Seals—have helped immeasurably in this nation's fight against tuberculosis."

The red, chubby face of Santa Claus is portrayed on the Christmas Seal against a green-blue background. The designer, Robert Stephens of Newark, N. J., used as a model a clay Santa Claus he had fashioned for his small daughter.

Just as the Christmas Seal is always sold to raise funds to fight tuberculosis, so it always, too, bears the emblem of the international campaign against tuberculosis—the Double-Barred Cross, according to Mrs. Cropper. The Double-Barred Cross, a modification of the Cross of Lorraine, she said, is the registered insignia of the National Tuberculosis Association and its 3000 affiliates.

The Boone County Tuberculosis Association is very grateful to those who aided in preparing letters and Seals for distribution.

Burlington Lodge To Confer E. A. Degree

Burlington Lodge No. 264 F. & A. M. will confer the E. A. degree on a class of candidates Friday night, November 23, at 7:30 p. m., at the hall in Burlington. It was announced this week by Dudley Rouse, Master.

The regular meeting which is the fourth Thursday was set one night later due to Thanksgiving Day. The work in this degree will be under the direction of Alvin Clore, Past Master and a team selected by him.

All members of the lodge are urged to attend and visitors from neighboring lodges are cordially invited.

The marriage of Miss Virginia Earl McGlosson, daughter of Mr. and Mrs. Earl McGlosson, of Constance, Ky., to Mr. James Paul Stutzman, son of Mr. and Mrs. James Stutzman of Saylor Park, Ohio, took place at 7:30 Saturday evening, November 17, at the Hebron Lutheran Church with Dr. J. E. Stomberger, pastor of the Hebron Lutheran Church officiating. A wedding reception was held immediately following the ceremony.

Vocal selections for the ceremony were beautifully rendered by Mrs. George Wohrley of Covington, Ky. She was accompanied at the organ by Mrs. Omer Dolwick, of Hebron, Ky. Mrs. Wohrley sang "I Love You Truly," "Together With Jesus," "The Wedding Benediction," and "The Lord's Prayer."

Penn and large baskets of gladioluses and Fiji chrysanthemums were placed on each side of the entrance to the candle-light chancel.

The bride, who was given in marriage by her father, wore a bridal gown of imported Chantilly lace over nylon net and satin. The gown had a fitted bodice with long fitted sleeves tapering at the hand. The fingertip length veil of illusion was edged with lace and fell from a diara of pearl orange blossoms. She carried a bouquet of miniature gold chrysanthemums and orchids especially selected for this type of gown. She also carried her mother's grandmother's wedding handkerchief of fine linen and lace.

The bride's matron of honor was her sister-in-law Mrs. Rodney McGlosson. The bridesmaids were Miss Sue Reeves and Miss Sue Hetzel, friends of the bride. Miss Selma Jean McGlosson, younger sister of the bride, was junior bridesmaid.

Mr. Richard Marshall of Cleveland, Ohio, brother-in-law of the groom, was his best man and Mr. Rodney McGlosson, brother of the bride, was groomsmen. The ushers were Mr. Richard McGlosson and Mr. Melvin Ray McGlosson, brother and cousin of the bride respectively.

The bride's attendants wore identical gowns. The fitted bodices and gloves were of fuchsia velvet with full orchid-hued skirts of nylon net over tulle. They carried bouquets of matching chrysanthemums.

The mother of the bride was attired in black crepe with white hat and accessories. She wore a corsage of orchids. The groom's mother was gowned in aqua tulle with black hat and accessories. She also wore a corsage of orchids.

He will deliver an informal address of an historical nature at the anniversary dinner on Monday night, November 26th, at 6:30 p. m. The dinner meeting will also be the occasion for giving recognition to the members of long-standing.

On November 26, 1901, the Erlanger Christian Church was organized with thirty-four charter members. At this time Rev. Edgar DeWitt Jones, who had been preaching in Erlanger, Petersburg, Florence, Point Pleasant and Bullittsville, was engaged to hold a meeting for this newly organized church. At the close of the meeting, Rev. Jones accepted their invitation to remain with them as the church's first minister.

This new church met in the Erlanger Town Hall which at that time was located on the second floor over Scott's Drug Store on the corner of Commonwealth and Lexington Pike, until the present edifice was erected in 1904.

After leaving Erlanger in the summer of 1903 the Rev. Edgar DeWitt Jones, D. D., Litt. D., served as the minister at the Franklin Circle Christian Church, Cleveland, Ohio for several years, the First Christian Church, Bloomington, Illinois for fourteen years and the Central Woodward Christian Church, in Detroit for twenty-six years, and is now minister emeritus of that church for life.

In addition to his outstanding ministry in his local churches Dr. Jones has ministered in a notable number of foreign countries as a leader, lecturer and author. Dr. Jones was president of the Federal Council of Churches of Christ of America, 1936-38, and exchange preacher to Scotland in 1932. He was president of the Association for Christian Unity for ten years and has been active in many cooperative and ecumenical movements among the churches.

Dr. Jones has spoken on many platforms, lecturing on Americana and especially in the realm, Lincolniana. He has published some eighteen volumes, the latest of which is "The Royalty of the Pulpit." Other books that have attracted wide attention are: "Lincoln and the Preachers," "Lords of Speech," which is a study of American oratory, and "American Preachers of Today." As a member of the staff of the Detroit News, his column entitled "Successful Living" has appeared daily on the editorial page of that paper for some ten years. He also served as foreign correspondent for the Detroit News in 1925 and 1935.

The fiftieth anniversary committee, which has outlined the program of celebration, consists of the following members: Russell Victor, chairman, Mrs. Walter Frakes, O. K. Price, Clarence J. West and the Rev. Winston C. Bell. Rev. Bell has been pastor of this church since July 1950.

Burlington School Students Sponsor Clothing Drive

Campaign Will Close November 30th, Officials Report.

The following letter from members of the Burlington High School Citizenship class was sent to the citizens of this week with the request that we print it in the Recorder as the group's clothing drive which is now underway and which will extend until the end of the month: "To the Citizens of the School Community:

"Did you realize that there are people in our community and County who do not have sufficient clothing to wear during the cold winter months ahead? With this thought in mind, we thought maybe you may have some serviceable clothing, which you no longer use, packed away in boxes or in the attic which some of our less fortunate people, especially children, may be able to use. If you do, won't you take a few minutes of your time, go thru your wardrobe, collect a few pieces and send them to school by your boy or girl. If you have no children in school call Burlington 183 during the day or 519 in the evening and we will be glad to come to your home and pick them up.

"Our class is not going to undertake to distribute the clothing collected to the needy families, but we plan to turn it over to an agency better prepared for this work and they have assured us that the clothing will be distributed to our own needy a this county.

"We will greatly appreciate your interest and cooperation in this drive, but most of all some ill-clad child or adult will appreciate it even more.

"Sincerely thanks,
"Vaughn Rogers, Class Pres.
Mary Lou Dringenberg, Class Secy"

Leaf Sales In State Will Open Nov. 27 According To Report

Holiday Recess Will Begin December 21; Markets Reopen Jan. 3

Kentucky burley tobacco sales will open November 27th on a 3½ hour daily basis, it was announced last week.

The Sales Committee of the Burley Auction Warehouse Association, representing approximately 95 per cent of the auction centers in the burley belt, determined the sales days and hours at a meeting held in Lexington Thursday.

The opening date this year is one of the earliest in recent years, and three days ahead of last year's sales. Some representatives first voted for an even earlier opening, Nov. 26, before unanimously deciding on the 27th.

Another factor cited was the possible clogging of redrying facilities and hardship of buyers, currently working other tobacco markets.

The Covington Independent Warehouse, operated at Erlanger, will be the first sales market to open when the auctions begin Nov. 27. The Erlanger market will get underway at 9:30 a. m. opening day. Alternating with the Covington Independent Warehouse is the Kenton Loose Leaf Tobacco Warehouse, Covington which will have its first sales Nov. 28th.

Speaker Lauds County For Good Government

In Annual Turkey Dinner Of Burlington Men's Bible Class

Edwin E. Freshney, of Park Hills widely known Lutheran layman, and past Grand Master of the Masons in Kentucky, praised Boone County for its reputation for good government in a talk Saturday night at the 11th annual banquet of the Men's Bible Class of Burlington Baptist Church.

"Boone County has earned a statewide reputation for good government. Your county officials have helped make your community one you can be proud of," Mr. Freshney said.

Commenting upon the fact that only 32 per cent of the people vote, Mr. Freshney said, "I believe that we are collectively, as a community, failing to express our views at the polls."

Mr. Freshney said that during the last ten years the United States had spent \$260 billion more than was spent from 1789 to 1940, and that of this, \$123 billion was given to foreign nations. He said that 29.7 per cent of the national income is paid in taxes.

Rev. R. A. Johnson, pastor of the church introduced Mr. Freshney. Approximately 133 persons were present for the evening, it was reported.

It takes MONEY TO BUILD!

"I just had to have more barn room... and some of the other buildings needed repairing.

"But it takes money to build... more than we had saved up. Then, a neighbor tipped me off about a Federal Land Bank loan. He told me to see the National Farm Loan Association. It was a pleasant surprise to learn that the Association was made up of my friends and neighbors... all good, solid, substantial farmers.

"Well, today you'd hardly recognize the old farm, it looks so nice. I can keep my livestock and crops in better shape—can operate more efficiently and make more money. And I'm happy about that 4 percent Federal Land Bank loan. I can take 20 to 33 years to pay... or pay just as fast as I want to without any penalty whatsoever. And I didn't have to pay a cent in application fees, appraisal fees or commissions.

"If you need money to build or improve your farm in any way, let me suggest a Federal Land Bank loan."

John W. Ryle Tells Of Interesting Visit To State of California

The following is a letter received from Mr. Ryle of 1104 Center Row, Erlanger, Ky.:

"Arrived at San Francisco Airport at 5:15 October 17th. Was met by my sister, Mrs. Fannie Hage and

husband and then we had dinner with Nora Mae Sotires and husband. "After visiting with these families about 10 days, Mrs. Hage, Mrs. Sotires and I went to Los Angeles to visit Mrs. Lizzie Williamson, a very well known lady from Boone County. After a day's rest Lizzie's grandson Dell Sheperd drove us to points of interest in Los Angeles, Beverly Hills, Hollywood and by the

homes of some of the movie stars and to Santa Monica and back to Los Angeles by way of the beautiful Wilshire Boulevard. We had luncheon at the famous Clifton Cafeteria. I will never forget the beautiful and odd decorations, waterfalls and fountains and the beautiful music. "On October 24th we visited Knotts Berry Farm, wandering thru their many shops and food bazaars and green houses with ferns, flowers and water falls and famous long dining rooms and chicken dinners. You make reservations and go walking through the shops and when it is ready they call you by loud speakers. The food for the dining rooms is raised on the Berry Farm. "We then visited Ghost Town. It must be very much like Virginia City or others of the early mining towns in the gold rush days. You can pan gold in the sluice box. The water in the box or trough is pumped by large wheels in the old gold mine. Then you can take a ride on the stage coach or the covered wagon and stop by the old tavern or other interesting buildings."

University To Show Sheep, Steers, Hogs At International

The University of Kentucky will show 19 sheep, eight steers and six barrows at the International Live Stock Exposition in Chicago, Nov. 24-Dec. 1.

The show flock in charge of the noted shepherd, Harold Barber, contains four Southdown ram lambs, three Southdown ewe lambs, three Southdown wether lambs and nine

Hampshire wether lambs.

All the Southdowns were sired by the famous ram, Champ, which as a lamb was reserve champion at the 1947 International show. This ram also has sired three grand champion wethers and one reserve champion ram at the International. He was bred and raised by the University.

The Kentucky institution has won 11 grand championships on sheep at the International Live Stock Exposition, nine reserve grand championships, 104 first prizes, 76 second prizes and 68 third places. The University's steer herd to go to Chicago includes three Shorthorn summer yearlings, one Hereford junior yearling, one Hereford senior yearling, one Angus summer yearling, and two Angus summer yearlings for the carcass contest. The junior yearling Hereford was first in its class at the National Polled Hereford Association show in Louisville.

Hogs being finished by the University for the Chicago show include three lightweights, two middleweights and one in the heavyweight class. All are Hampshires, six to seven months old, and weigh 210 to 250 pounds.

Book Club Holds 'Open House' Meeting

On Friday, November 2, the Boone County Book Club held its annual "open house" program at the Florence Christian Church.

A very lovely musical program was presented under the direction of Mrs. V. Williams. Mrs. R. C. Garrison opened the program with a definition of music. Mrs. Omer Delwick then rendered a beautiful organ solo. Mattie Kreylich, much to the delight of her friends, recited "A Visit to the Milliners." June Brown and Laverne Jergens favored the group with piano solos. Mrs. John Kyle and Mrs. J. Northcutt brought a humorous turn to the program with a skit entitled "Johnny's First Day at School." Tea and homemade cookies were served to guests and members. All left, looking forward to next year when the club hopes to be hostess to their friends again.

Boone Garden Club Member Of Federated Garden Clubs, Is Word

The Boone County Garden Club is now a member of the Federated Garden Clubs. This was announced at the November meeting held at the home of Mrs. Sam Denham, Sr., Dixie Highway. Enrollment fee and membership dues have been paid for the coming year.

Mrs. Wm. Fitzgerald, Mrs. V. T. Williams and Mrs. Ruby Hollis were appointed by the president, Mrs. Sam Denham, Sr., to serve on the nominating committee.

Mrs. Geo. Morith, leader, stated more should be known about American Wild Birds and suggested a book entitled "Audubon's Bird Book" by John J. Audubon that is very instructive and enjoyable.

The guest speaker Mrs. M. M. Maxey, Beechwood Road, Ft. Mitchell, was pleased with the timely topic as it was American Bird Week. Mrs. Maxey's subject was "Canaries" and in addition to the history and discussions of each type, she had several specimens, all of which were show birds. They added much color and song to a program that delighted everyone. Mrs. Maxey also had four Parakeets that were very beautiful. If you want your canary to sing, try leaving it in a dark room for a time, then bringing out in the light. Do this several times.

Another guest, Mrs. Rust, Dixie Highway, Florence, raises and sells canaries. Both Mrs. Maxey and Mrs. Rust are members of the American Bird Society.

Mrs. Robert Hume, of Dry Ridge, Ky., talked on the advantages of being a Federated Club.

Mrs. Ruby Hollis made and donated two lovely corsages. They were won by Mrs. Robert Hume and Mrs. R. C. Garrison.

Delicious refreshments were served by the hostess, Mrs. Sam Denham, Sr., to the guests Mesdames M. M. Maxey, Robert Hume, Rust, Vogel, F. Berkshire, Miss C. Walton, Miss Jane Abbott and club members Mesdames Harold Comer, R. C. Garrison, Geo. Morith, Grant Maddox, Ruby Hollis, V. T. Williams, E. E. Abbott, W. A. Fullerton, Sam Denham, Jr., Wm. Fitzgerald, Roy Lutes, H. V. Leonard, C. Blankenbaker, Fanny Scott and Eva Goodridge.

Next month the Christmas party will be held at the home of Mrs. Fanny Scott. Everyone is assured an enjoyable day.

Sheepmen To Deal With Dogs, Rabies At Annual Meeting

The program of the second annual convention of the Bluegrass State Sheep Association, to be held at the University of Kentucky at Lexington Nov. 29-30, has been planned to appeal not only to sheep raisers but to all stockmen, as well as to the general public, according to C. M. Kindoll, association president. The main theme will be the critical dog and rabies problem.

One of two prominent out-of-state speakers will be W. S. Hager, deputy secretary of agriculture in Pennsylvania, who spoke at a meeting of Kentucky sheepmen two years ago. He will tell about the Pennsylvania dog-control program, which has been highly successful for more than 25 years.

Another speaker will represent the California Wool Growers Association, the oldest livestock organization in the United States. He is Wesley Wooden, of Dixon, Calif., widely known rancher and breeder and closely connected with the organization of sheepmen in the western state.

Both Hager and Wooden will speak the first day, and the second day meet with the dog and rabies committee of the Kentucky association.

A number of Kentuckians will speak at the convention, including Dean Frank J. Welch of the College of Agriculture and Home Economics; Ben Adams, state commissioner of agriculture, and Col. Wayland Rhoads, farmer and stockman.

The meeting the first day will be open to all interests, and not just to members of the association, it was stated. A banquet that evening will be attended by members of the State Legislature, representatives of breed organizations, civic leaders, health authorities and others.

Programs may be had by writing to Richard C. Miller, College of Agriculture and Home Economics, Lexington, or from county agents or local sheep associations.

Big Bone Springs Is Topic At Meeting Of Historical Society

Historic Spot Mentioned As Selection For Site of National Park.

Big Bone Springs, in Boone County, was the topic for discussion at the meeting of the Boone County Historical Society, held at the Florence Town Hall, on Friday, October 19, 1951.

From time to time there is mention of the selection of Big Bone as the site of a state park. Each time an interest is aroused a war seems to cause the plan to be laid

aside until some more suitable time. Many years have passed since the hotel was destroyed and before long all points of interest will have disappeared.

A. M. Yealey, a life long resident of Boone County, and for over fifty years a school teacher and historian, has gathered much material on the history of Big Bone. The following paper was presented at the meeting of the Historical Society:

Big Bone Lick has long been remembered for its salt spring and for the remains of prehistoric animals found there.

The first known white man to visit Big Bone was a Frenchman named de Longueville who reportedly located the spring in 1739, during the French and Indian War. As much of the fight was in the Ohio Valley very few settlements were permitted to remain there.

Robert Smith, who lived in Ohio,

was a frequent visitor to the spring and was one of the first to realize the importance of the mineral water and of the deposit of bones. Some time between 1744 and 1751 he removed a quantity of them to his home near Urbana where he displayed them. By this act he established what was probably the first museum west of the mountains and thereby aroused interest in Geology, Zoology, and Paleontology. Shortly afterward the village was destroyed by the Indians and with it a choice collection of the bones from Big Bone.

Christopher Gist visited Big Bone while surveying for the Ohio Land Company of Virginia. Colonel George Grogan is reported to have removed a quantity of the bones to Virginia. Mary Ingles mentions Big Bone in her account of her experiences. John Floyd and William Preston, surveyors from Fincastle County, Virginia, visited Big Bone. They were surveying the territory in preparation for land grants.

At the close of the French and Indian War the King of England gave the governor of Virginia the power to make grants of land to American soldiers who had fought for her against the French. Thomas Jefferson, governor of Virginia from 1799 to 1800, granted 1000 acres to William Christian. This grant included to springs and the area in which the prehistoric bones had been found.

Mr. Christian shortly afterward sold his land to David Ross. Ross, at that time, owned about 100,000 acres of land he had purchased from soldiers who had acquired the land through grant from the state of Virginia. Ross sold the Big Bone section to Wilson Allen, Edmund Rootes, and Jacob Myers in 1806.

About 1808, William Clark, a brother of George Rogers Clark, spent several weeks at Big Bone gathering bones and other materials calculated to be of value to science. Boxes of such material were shipped to president Jefferson, the Philosophical Society in Philadelphia, and to the National Institute of France, in Paris.

In 1808 the property was acquired by Mr. Volquoughon who established a salt industry. Salt had been produced here since 1756, but the cost was about \$4.00 a hundred, which proved to be too high for export. Mr. Colquhoun, hoping to reduce the cost, built two fine furnaces and mounted kettles that would hold from 15 to 100 gallons of water, but his work was in vain. He found that transportation over bad roads made the cost too high. Mr. Turner's shop record show that he purchased salt on the Cincinnati market in 1812 for \$2.94 a barrel, or about 1 1/2 cents a pound. While the salt industry was short-lived it advertised the springs to the public and opened a way for a new enterprise.

The Henry Clay Hotel (named for

the great Kentuckian) was built in 1815 and for thirty years Big Bone was one of the best health resorts and watering places west of the Allegheny mountains. In addition to the hotel were bath houses, summer houses, a dance pavilion, and accommodations for the many servants, horses and carriages needed to care for the guests.

The best families came to Big Bone by carriage or by boat to Hamilton where hacks met each boat load of vacationers and health seekers. In the evening, there was dancing to the music of the negro fiddlers. From the bluegrass sections came the planters with their families, carriages and servants. Many families spent the entire summer at the springs.

Leonard Stephens, who became the first sheriff of Kenton County in 1840, was actively engaged in politics from 1825 to 1845. Big Bone was his headquarters and there he met with political leaders to plan for Northern Kentucky campaigns. Records show the names of Clays, Marshalls, Breckinridges, and Johnsons visiting with Mr. Stephens.

A new hotel was built higher up on the hill about 1870. The fever had passed. Other locations attracted the people who could afford to frequent such places. The war had created a new type of society and had so rearranged the economic status of the community that the glory of the Big Bone resort faded into a memory.

In 1943, the remains of the Big Bone Hotel fell under the hammer and the chant of Lute Bradford, Boone County's genial auctioneer. The buildings were demolished and the lumber was carried away to serve some other purpose.

Records in the Court House at Burlington show that the Big Bone land has been broken up and sold to many different people many times.

Let us hope that some steps may be taken to preserve this historic spot before all traces of it are gone.

Because of a hay shortage, Lee Mashburn of Caldwell county is seeding a 30-acre lespedeza field and a 30-acre corn field to Balboa for pasture.

Plant Nutrients Boost Grass, Legume Yields By Two Tons Per Acre

Adding fertilizer carrying nitrogen, phosphate and potash has increased pasture yields as much as 2 tons per acre, declared Prof. C. J. Chapman, University of Wisconsin extension agronomist, in reporting on the results of pasture demonstrations in the state.

On the Henry Berg farm near Blanchardville, in Lafayette County, pastures fertilized with 10-10-10 showed yields of 8,025 pounds per

Fertilizer carrying nitrogen, phosphate and potash increased growth of both grass and clover on the Harold Churchill farm in Pierce County, Wis.

acre on July 5, 1951, compared with 3,750 pounds on unfertilized fields, an increase of 4,275 pounds.

When 10-10-10 fertilizer was added to white clover and bluegrass on the Betlach farm near Sun Prairie in Dane County, pasture yields increased by about 1 1/2 tons per acre. The output was 8,025 pounds per acre on July 2, 1951, on the fertilized fields and 2,300 pounds on the check plots.

The pasture demonstrations are being carried on in cooperation with farmers, county agents, vocational agriculture teachers and organizations in the fertilizer industry.

Boone Co. Pioneers

THEIR ANCESTORS AND THEIR DESCENDANTS

Carpenter
Sixty years ago William Henry Carpenter was living at Florence,

Kentucky. He was born in Boone County in 1815. His parents were William Carpenter, (Sr.), the first pastor of Hopeful Lutheran Church, and Polly (Mary) Aylor. His given names were those of his paternal and maternal grandparents, William Carpenter, (Sr.), and Henry Aylor, both descendants of the "colony of

1717" of Madison County, Virginia. John and William (D) Carpenter, brothers, whose German name was Zimmerman, came to America with another branch of the Zimmerman family by way of Pennsylvania. The Pennsylvania family at once accepted the English equivalent of the name and John and his brother also adopted it. They joined the 1717 colony at Germanna in Virginia in 1821. Christopher Zimmerman, another branch of this Swiss or German family, was one of the 1717 colony, and retained the Zimmerman name. Both names are found in the official records of Spotsylvania, Orange, Culpepper and Madison Counties, Virginia.

When John Carpenter "proved his importation in order to take up land" the record in the Orange County Court reads "John Zimmerman, alias Carpenter." He married Barbara Kerker, daughter of Andrew Kerker and his wife Margurita; they came to America in 1717. Andrew Kerker was the first treasurer and a warden of Hebron church. He died in 1738, and his estate was settled by John Carpenter as his administrator in the Orange County Court. Among the papers filed in the settlement was the "Church account of Andrew Kerker, treasurer of the Evangelical Lutheran congregation of Spotsylvania County, Virginia," for the years, 1733-34. The account is interesting; each family agreed to give "two pounds, seven shillings for the minister's salary." The receipts in 1733 amounted to "56 pounds, 7 shillings, 2½ pence." Expenditures included "various amounts for 'communion wine'; traveling and other expenses to George Sheibly and 'our minister John Casper Stoever' when he went to Pennsylvania to be ordained; expenses of Urban Tunner (Tanner) in traveling to Williamsburg on church business; payments to William Carpenter (D), and 'for drink

money paid to William Carpenter's wife on account of ye land bought for ye minister"; a payment of one shilling to Michael Willhite; (for what is not stated, but at least one of his descendants would like to

know—you can give a fellow "two-bits" for so many different things); to Michael Koch for a table "for the minister's house."
John and Barbara Carpenter were the parents of four sons: John (J.), he married Dorothea Cook, daughter of Michael Koch; Andrew, a soldier in the Culpepper County Militia in the French and Indian wars, he married Barbara Weaver, a daughter of Peter Weber, who proved his importation into the colony in 1735; William (Sr.), a soldier in the Revolution, and present with his son William, (Jr.), and Samuel at Cornwallis' surrender. Yorktown, he married Mary Wilhite, daughter of Adam and granddaughter of Michael Wilhite; Michael (Sr.), he married Mary Crisler, daughter of Fawatt or Deobald Crisler and Rosina Garr.

William Carpenter, Jr., born 1762, Culpepper County, Virginia, died 1833, Boone County, Kentucky; pastor of Hebron Lutheran Church, Madison County, Virginia for twenty-six years; pastor of Hopeful Lutheran Church, Boone Co., Kentucky, for twenty years. In 1931 his grave near Florence was officially marked by the Covington Chapter, D. A. R., as that of an American Revolutionary soldier.

He was an earnest, sincere preacher of the Word, and a loyal American patriot. The books in his library were inscribed with the Latin motto, "Ubi Libertas, ibi Patria." "Where Liberty is, there is my country." As a second-generation American he learned English in the Hebron community school, and when he became the first American-born pastor of the Hebron Church he began preaching on alternate Sundays in English. The older members of the congregation violently opposed this innovation, but the preacher was encouraged by the native-born second and third generations, and eventually all services were in English. In 1804 pastor Carpenter made a trip on horseback over the mountains to Boone County, Ky., to visit some members of his congregation who had emigrated to the "far West." Other members of his congregation joined their relatives and friends in Boone County and in 1806 the minister made a second trip and organized the congregation of Hopeful Church. In 1813 he became their pastor.

William Carpenter, Jr., married his cousin, Mary (Polly) Aylor, in Madison County, Va., in 1794. She was a daughter of Henry Aylor and Barbara Carpenter, whose father, Andrew Carpenter, was a brother of William Carpenter's father, William Carpenter, Sr.

William and Mary Aylor Carpenter were the parents of eleven children; the names of seven are recorded in the baptismal register of Hebron Church. It is probable that they came with their parents to Boone County in 1813. The three youngest children were most like-

ly born in Boone County. Numerous descendants of these children are now citizens of Boone. 1, Jeremiah, M. Julia Rouse; 2, Jonathan; 3, Julianna M. Rouse; 4, Frederick Augustus; 5, Jacob Israel, M. Susan Aylor; 6, Menoch; 7, Polly Aylor, M. Price; 8, Lydia, b. 1810; 9, Ann Barbara, b. 1812; 10, William Henry, b. 1815; living (1894), at Florence; 11, Elizabeth, b. 1818, M. Griffith.

Mrs. John Uri Lloyd, (Emma Rouse, a native of Boone County) says in her book, "Clasping Hands With Generations Past," "Father Carpenter was quiet and dignified

in manner, with xxxx a pleasant greeting for everyone. In thought and education he was far in advance of his times. He was one of the outstanding ministers of Virginia in pioneer days." In a footnote Mrs. Lloyd adds, "The diary of Father Carpenter is now (1932) in the possession of Mrs. Hattie DeGarmo Campbell, of Cincinnati. Mrs. Campbell is a great-granddaughter of Father Carpenter."

Foot Comfort Specialist at—
PEOPLE'S SHOE STORE
814-816 Madison, Covington

Standing and sitting erect require less muscular effort than the slumped posture for the normal, healthy person. With the body in an erect attitude the center of gravity passes more nearly through the center of the body and places the weight on bones and ligaments that are by nature equipped to meet this demand, the shoulders droop, the spine curves and the abdomen bulges; then muscles must taken on more and more of this burden of weight bearing a burden for fatigue and later actual deformity of certain of the bones and joints.

The first necessity in good posture is good feet. Show me a person with good posture and bad feet. It's almost impossible. But show me a person with good posture and I'll show you a person with good feet for good posture starts with good feet. The foundation of any super structure is the most important.

Don't suffer another day with your feet. No matter how many shoes or trial supports you have tried, try just one more and have one of our foot comfort specialists make a free foot analysis and show you how to get rid of all foot pains, leg pains, backaches and headaches. **Trapping Season Opens
December 1 in State**

Trapping season for Kentucky furbearing animals opens on December 1 and continues through January 31, the Division of Game and Fish, announced this week.

Trappers are required to have a trappers license, which costs \$1 for a state resident but \$10.50 for a non-resident. Also, it is pointed out, each trap must be tagged with identification and residence of the operator. These tags are available from the Division of Game and Fish at cost, which is 5 cents each. The

trapper is required to inform the Conservation Officers of his county the location of his line and traps must be run at least once every 24 hours. Only single spring steel traps, with smooth jaws not more than five and three-fourths inches in length may be used.

CARD OF APPRECIATION

We would like to take this opportunity to thank everyone for the many kindnesses shown me following my recent accident. I have received more than 100 cards, many telephone calls, and more than seventy-five visits.

Words cannot express how deeply I appreciate the many friends who have called, sent cards, or visited me during this time. You have made it possible to carry on even when life has its problems. The word, smile, or a card from a friend means more than we can ever express in words. From the very depths of my heart, I say, "thanks to all."

Your prayers have been like mighty wings to bear us up because we know that you have been remembering us in a very special way. If at any time I can ever return these many kindnesses I will always be at your service.

100-BUSHEL CORN ON

JOHNSON GRASS LAND
Despite a heavy infestation of Johnson grass, Andrew Oakley of Trig county will make more than 100 bushels of corn to the acre on a Cumberland River bottom. Oakley's method, says Keith S. Venable, UK county agent, is to plow in the fall, which causes much of the Johnson grass to winter-kill. Then heavy fertilization with ammonium nitrate pushes the corn ahead of the grass in the spring. Herbert and Clayton Light are also producing a successful crop. For the fifth straight year, they will make more than 100 bushels of corn to the acre on the same ground.

NOTICE

On October 10, 1951, and at a time when the Board of Directors of the Owen County Rural Electric Cooperative Corporation, was considering a pay raise for its employees, the International Brotherhood of Electrical Workers, made demand upon the Cooperative by letter, that it be recognized as sole bargaining agent for the employees of the Cooperative.

On October 18, 1951, the Directors of the Cooperative, finding that certain employees, for whom the Union claimed to act, were not eligible for membership in the Union and the Directors, therefore, refused to recognize the Union as sole bargaining agent unless the eligible employees were permitted to conduct an election.

On November 13, 1951, representatives of the Cooperative met with the business manager of the Union. Several employees of the Cooperative and a field examiner for the National Labor Relations Board and tentatively agreed upon the date and details of an election.

On November 15, 1951, the Directors of the Cooperative, approved the election agreement in full and authorized their representative to sign its agreements on its behalf. The agreements were immediately signed and mailed to the Cincinnati office of the National Labor Relations Board.

Notwithstanding that the Cooperative had agreed to the holding of an election and still agreeable to an election, the Union called a strike of the employees of the Cooperative effective November 19, 1951.

During the pendency of the strike, supervisor employees of the cooperative will endeavor to maintain service to the best of their ability.

**HARRISON SCHOOL HAS
LANDSCAPING PROGRAM**

The first step in a five-year plan for landscaping the grounds of the Harrison County High School near Cynthiana was taken recently with the planting of 89 shrubs, trees and evergreens. It is a cooperative project of the homemakers clubs of the county and the County Board of Education.

Forty of the evergreens and shrubs were planted across the front of the building, the remainder of the shrubs and flowering trees being placed in a triangle along the entrance to the grounds.

It is hoped that there will be found eventually a collection of evergreens, trees and shrubs that will serve a dual purpose: to beautify the school and grounds, and to serve as a source of information for classroom use, explained Prof. N. R. Elliott, expert in horticulture at the College of Agriculture and Home Economics, University of Kentucky.

The cost of about \$460 for the initial planting was borne by the homemakers and the school board. Another step in the landscaping program will be taken this fall when each of the 17 homemakers clubs in the county will plant a native tree, each bearing the name of the donor.

County landscape co-chairmen working with Prof. Elliott and Miss Elizabeth Donnell, home agent, are Mrs. Frank Ross and Mrs. William McKee.

The location of the school building on a hill, surrounded by 18 to 20 acres of land of irregular contour, should result in one of the outstanding school grounds in the state, said Prof. Elliott.

Automatic fountains in laying houses have been installed by Bill Damerson and Oscar Prater of Floyd county, each having 450 layers.

**Keeping today's little schoolhouse
out of the Red!**

It takes a heap of taxes to educate a child. Schools, teachers, books, and buses run into a lot of money. As a taxpayer you'll be interested to know that the railroads paid in Kentucky last year a total of \$7,191,890 taxes—of which \$3,660,047 went to support public schools... including those in your community.

And in addition to sending three-quarters of a million children to school every year, railroad taxes do a lot more. Parks, fire and police departments, sewage disposal—name a public project, and railroad taxes helped pay for it! Your community benefits right now from taxes paid by the railroads.

And there's another fact about the railroads which is even more important to you, as a taxpayer. The railroads pay their own way in every way. They pay every nickel of the cost of everything they use.

What's so extraordinary about this? Just that it's true of no other form of public transportation! All the others depend on your tax dollars for support.

The railroads pay their own way in every way. They pay a billion dollars in taxes besides.

Burlington Pastor Urges Citizens To Read Holy Bible**Neglect of Bible Reason For Confusion Throughout World, Says Pastor.**

Rev. R. A. Johnson, pastor of Burlington Baptist Church urges citizens throughout the county and northern Kentucky to return to the outstanding book, the "Bible" in order to eliminate confusion, trouble and the ills of today's world.

An article written by him follows: Our world is in a lot of trouble. Confusion is everywhere, and we are like the blind trying to lead the blind. Darkness is all around us—men's hearts are failing them! Why? There is but one answer, "neglect of the Bible, God's word."

The Bible is being used too much for surface reasons and not enough for what it should mean in leading men to honor God. We do not hesitate to say that the Bible is used in many places today, not as a sacred Book but as a formality. This is God's Word and not just another book to be carried about.

The writer attended a service (in another county) sometime ago where the man who carried the Bible has said many times that he did not believe this Book. What a shame that we have become so unconcerned about the Word of God to allow it to be handled in such a careless manner.

The American Bible Society has requested the reading of the Bible daily beginning Thanksgiving Day and continuing through Christmas. This is one of the greatest challenges that could be issued today. Why not turn back to the one Book that alone has led more people out of darkness into the light and fellowship of God than anything that has ever been presented to the world? Why, because it is God. If you want to find God, go to His Book. If you want to find Christ, His Son, go to His Book; if you want to find the leadership of the Holy Spirit, go to His Book; if you want to know the will of God in the life of man, go to His Book—and the Bible is that Book.

Why not stop our acts of formality and begin to use this Book as our forefathers used it? They made it the standard of their living, they used it to settle problems, to keep homes together; mothers used it for their reading to children for their bedtime message. Yes, it was the one Book above all others. May we, the people of America, whose great nation was founded upon this Word, go back to this Bible and begin anew the turning of its pages every day and there find the bread of life, the fountain of living water and make it the first reading material in our homes.

The writer of this article will deliver a series of sermons beginning November 25th and continuing through December 23, as follows:

Nov. 25, 11:00 a. m., "The Bible, The Inspired Word"; evening "The Bible, Concerning Man."
Dec. 2, 11:00 a. m., "The Bible, The Word of Authority"; evening "The Bible, Concerning Sin."
Dec. 9, 11:00 a. m., "The Bible, What Darkness Cannot Dim"; evening, "The Bible Has Never Been Outgrown."

Dec. 16, 11:00 a. m., "The Bible, the Authority For Giving"; evening, "The Bible, Concerning Heaven."
Dec. 23, 11:00 a. m., "The Bible, The True Revelation of Christ"; evening, "The Bible, The Final Word."

December 9th is Bible Day, and members of the Burlington Baptist Church are being requested to bring their Bible for the Bible School and worship service. A goal of 300 Bibles has been set for this service.

Rev. Johnson issues a cordial invitation to the public to attend the services on the above dates, and assures everyone attending they will hear firm Bible preaching.

SOIL TESTS SHOW FERTILIZER NEEDS

Reporting on 30,500 soil tests made over the state, the Experiment Station of the University of Kentucky says soils throughout the state need more lime and phosphate, even though some 14 million tons of limestone and a million to a million and a half tons of phosphate have been used in the past 12 years.

Over half of the soils tested need two to three tons of limestone an acre for growing general crops, the report states. Sixty-three percent of the soils need phosphate and 56 percent need potash.

A detailed report on 17,424 soil tests showed only 9 percent not acid; 35 percent, slightly acid; 45 percent, moderately acid, and 11 percent, strongly acid. Sixteen percent of the soils were found very high in phosphorus; 21 percent, high; 19 percent, medium; 22 percent low, and 22 percent, very low.

Only 7 percent of the soils were very high in potassium; 16 percent, high; 21 percent, medium; 28 percent, low, and 28 percent, very low. Kentucky has 80 county-owned and county-operated soil testing laboratories under the supervision of county extension agents and the University of Kentucky.

"Through the extensive use of

limestone and phosphate, along with nitrogen and potash fertilizers, Kentucky farmers are going forward not only in conserving the soil but in building it better," says the report. "Testing of the soil is one of the helps designated to make the

task of maintaining fertility more widely understood and get it more widely accomplished."

Spreading of fertilizer and lime this fall in Montgomery county has topped records of any previous year.

Boone County Man Found Dead Near Edge of Ohio River

Coroner Returns Verdict Of Accidental Death Following Investigation.

Arthur Haden, 49, Boone County resident was found dead Sunday on the bank of the Ohio River, about three miles above Petersburg.

An investigation by Sheriff Wendell Easton and Coroner Robert Brugh was made, and a verdict of accidental death was returned by Coroner Robert Brugh. The investigation was made when a large gash on the back of the victim's head was discovered. It was believed that the wound was caused when the victim fell.

Haden left his home near Petersburg Saturday night for Lawrenceburg, Ind., to go to a grocery, and to visit a physician about a heart ailment. He rowed across the river in a skiff, leaving home about 12:30 p. m. Saturday.

When he failed to return Saturday night, Mrs. Haden commenced a search. She found his body on a rocky shore about a foot from the water. The boat was downstream about 300 feet.

Sheriff Wendell Easton said Mrs. Haden told him the victim had about \$12 when he left home. No money was found on the body. A burlap bag containing a quantity of groceries was found in the skiff. The boat had been pulled into the shore and tied, and the oars had been put inside the boat.

The spot where the body was found, is isolated by an almost impenetrable undergrowth and two bluffs.

Chambers and Grubbs, Walton funeral directors, were in charge of arrangements.

New Service Is Organized By Local Red Cross Chapter

Project Will Be Under Direction of Mrs. Bert Markesbery.

Recognizing the need in Boone County for clothing for the less fortunate, the Boone County Chapter, American Red Cross is organizing a new service, namely, "Clothe The Needy" which will be under the able leadership of Mrs. Bert Markesbery of Florence, who will county chairman and will be on a year around basis. The plan will be for a clothing drive throughout the county, sent to a central location where it will be mended, sized and distributed to needy families in Boone County on a year round basis.

This cannot become a working service until enough clothing is collected. Local residents are urged to look through their closets and if they have anything you do not need or your children have outgrown, let Mrs. Markesbery know.

This is a Boone County project and all items collected in the county will be distributed in the county. Please see that any used clothing contributed is clean. Mrs. Markesbery and her committee will see that it is mended and sized.

Persons needing clothing and reading this article, are asked not to apply for them yet, as the service is now in the organization phase and will not be ready for distribution until sufficient clothing is collected to put it on a working basis. Burlington Eagles Take Early Lead In Conference Standing

Hebron Trounces New Haven Five By Score Of 61-43.

The Burlington high school Eagles moved into the win column the past week with wins over the St. Henry Crusaders and the Hebron Cardinals. Both victories were on the loser's hardwood. The Florence Knights dropped a game to Dixie Heights and New Haven's Tigers lost twice—to Hebron and St. Thomas. Walton's Bearcats edged the Williamstown Demons at Williamstown, but lost to Beechwood at the South Ft. Mitchell school's floor.

Scores
Burlington 66, St. Henry 38.
Dixie Heights 63, Florence 39.
Hebron 61, New Haven 43.
Burlington 45, Hebron 43.
St. Thomas 49, New Haven 47.
Walton 47, Williamstown 39.
Beechwood 65, Walton 34.

Burlington's fast-breaking Eagles ran roughshod over a good St. Henry five last Wednesday night after some first quarter difficulties. The Crusaders took a 11-9 quarter lead, but a strong second quarter paced by Gayle Rouse and Terry Tillery took the Eagles to a 28-20 halftime margin. The Eagles increased their lead to 49-27 during the third quarter. The Eagles scoring was Rouse 17, Deck 13, McFarland 12, Tillery 10, Dringenberg 7, Ryle 4, Patterson 2 and Kelly 1. For St. Henry Derks and Draham divided 26 points, Duncan 5, Warning, Schroer 3 and Geisse 1. The Burlington reserves won 29-25.

Freeze To Win
After holding a ten-point lead with three minutes to go in the game, the Eagles were forced to freeze out the game to win a 45-43 decision over Hebron last Friday night at Hebron. Both teams were handicapped with the loss of first string players via the personal foul rule, yet the contest was well played. The Eagles led 10-8, 25-19 and 34-28 at the rest periods. For the winners Rouse and McFarland split 26 points and Crigler had 13 for the losers.

Hebron seconds won a 42-38 thriller over Burlington's reserves. Paced by Crigler, Hebron's high scoring center, the Eagles won their first conference tilt last Wednesday night by trimming New Haven 61-42. The contest was fairly close for a half but the winners pulled away during the final stages as Crigler poured in enough for a 29-point total for the evening.

New Haven's losing jinx still clung with them last Friday night as they lost a 49-47 overtime affair with St. Thomas of Ft. Thomas at the winner's floor. The Tigers led 14-9 at the quarter, 24-20 at the half and 32-20 at the three quarter stop. Sanders paced the winners with 19 tallies. Cook with 18 and Faegan with 13 led the Tigers. The Tiger reserves won 47-27.

Dixie had little trouble with the Florence Knights as they held 17-6, 31-14 and 47-26 rest period leads before going on to a 63-29 win over the Knights at the Dixie floor last Wednesday night. For the winners Berny with 16 points was high scorer. Jacobs had 13, Barnett 8 and Maloney 8 to added to the winner's margin. For the Knights Bethel with 10, Lipscomb 8, Clayton 7 and Woods 6 did most of scoring.

Local Boy Aboard Destroyer "Sinking" Red Shore Battery

The Destroyer U. S. S. Renshaw, of which James A. Rhodes, SN is one of the crew returned to Pearl Harbor after six months in Korean waters.

The U. S. S. Renshaw claims to be the only ship in Navy history to sink a shore battery. Under the command of Cmdr. Francis J. Blorin the Renshaw bears marks of her gun duel with enemy shore batteries off the village of Changjin, about 90 miles north of Wonsan last October 11th. Her stock is peppered with four shrapnel holes and other scars are visible along her port side.

A shore battery occurred about one minute after the 75mm enemy gun opened fire. The shore battery was situated on the brink of a cliff about 200 ft. above the sea. The Renshaw about 3500 yds. from shore had gone in close to demolish a railroad bridge. The destroyer's main battery returned the enemy fire and the fourth salvo scored a direct hit on one of the enemy gun emplacements. This hit knocked the enemy gun and crew off the cliff into the sea, thus "sinking" not only the gun but her crew of half a dozen communists.

The Destroyer U. S. S. Renshaw returned to Pearl Harbor Nov. 14 and was greeted by the Navy band, a hula troupe and many others.

James R. Rhodes, SN has rated two battle stars and three ribbons. He is the son of Mrs. George W. Code of Florence, Ky., R. 1.

Mr. and Mrs. Sam Trouberman and daughter "Debbie" were dinner guests of Mrs. Giles of Cincinnati, Ohio, Sunday.

Boxes Are Sent To Overseas Service Men For Christmas

Boxes Distributed To Both Coasts For Shipping.

A request was made to the Boone County Red Cross at Washington, for 25 boxes for servicemen overseas and on the high seas who would not receive Christmas boxes due to their location or otherwise. Under the chairmanship of Mrs. Patsy Slayback, Union, Mrs. W. D. Scroggins, Verona, Mrs. Ruth Martin, Florence and Rev. Roy A. Johnson, Burlington, twenty-nine boxes were sent to Norfolk, Va., where they were to be distributed to both coasts for shipping.

Instruction requested that each package be attractively wrapped in Christmas paper and a list of items were sent which were to be enclosed in the packages and which could be selected by the senders. The items were writing portfolio, pencils, with clip, gum or life savers or hard candy in airtight cellophane bags, photo folders, crossword puzzle books, joke or cartoon books, small flat clothes brush, wallet, toothbrush, razor blades, pipe and pipe tobacco, stationery, cigarettes, soap, pocketsize books, deck of cards, small games, as dominoes, miniature chess or checkers, oilskin pouch, handkerchiefs, washcloth, camphor ice, nail file and manicure scissors, comb.

The packages from Boone County were beautifully wrapped in bright Christmas paper, ribbons and colored tape which showed the interest with which they were made and much appreciation is expressed by the Red Cross to the chairman who did this nice job. Somewhere in the world, thousands of miles from here a serviceman will be made happy on Christmas by this act of thoughtfulness.

Boone County Girl Awarded Prize In Nationwide Contest

Nancy Stephens Receives \$50.00 And Elgin Watch.

First prize in the Teen-Age Girls Classification of the Nationwide Crochet Contest was awarded to Nancy Jane Stephens, of Union, Ky., for her beautifully crocheted tablecloth entered in the contest through the Burlington 4-H and Utopia Fair. She receives \$50.00 and an Elgin watch.

Preliminary judging in the Nationwide Crochet contest was held at 816 state, county and local fairs throughout the United States. Each fair awarded a special blue ribbon to the best piece in each of sixteen classifications. These winners were then eligible for national judging. The sixteen classifications were: Tablecloths, bedspreads, luncheon cloths and sets, centerpieces, buffet and vanity sets, chair sets, dollies, scarves, and wall panels, household accessories, edging and insertions, fashion accessories, pot holders and hot plate mats, men only, teen-age girls, 4-H club girls and ladies over 65.

The excellent workmanship and taste displayed by the country's crocheters made the task of choosing the national prize winners a difficult one for the leading needlework authorities who acted as judges. These national winners and the 3,000 prize winning pieces from the fairs from which the final pieces were chosen will be on exhibit at the Congress Hotel in Chicago from November 27 to 30. Proceeds from the exhibit will be donated to the Damon Runyon Cancer Fund.

Repair Of Mail Boxes Urged In Fall Work

Patrons of rural mail routes can do themselves a favor and reap the benefits of improved service by donating a few minutes of their time to checking and repairing their mail boxes and approaches before winter.

According to R. Fred Lawrence, president of the Kentucky Rural Letter Carriers' Association, mail delivery problems multiply with the coming of bad weather and uncertain road conditions. Well maintained boxes and solid approaches kept free from snow go a long way toward keeping up schedules.

The rural mail box should be solidly set on a strong support the height of an automobile window, and the approach grveled so the carrier can get started after serving the box. The box should be tight to protect the mail from the weather.

Before the ice and snow and Christmas rush, take a minute to inspect your mail box. If you are in doubt about its condition, ask your carrier—he will be glad to suggest the repairs that are needed.

County Chairman Confident That Seal Goal Will Be Reached

"Response Is Excellent," Says County Chairman Mrs. Kathryn Cropper.

Although Boone County's annual Christmas Seal Sale is less than two weeks old, officials of the Tuberculosis Association and Mrs. Kathryn Cropper, seal sale chairman, are confident that the goal will be reached by Christmas.

"The response to the Christmas Seal Sale has been excellent," Mrs. Cropper stated. "All of us are grateful to those who have bought and plan to buy Seals, but we urge those who have not yet done so to acknowledge their Christmas Seal letters. Meanwhile, we are confident of whole-hearted support by the residents of the county which will make it possible for the association to put all its plans for the new year into operation," she said.

The proceeds from the sale of Christmas Seals will be used to keep Boone County patients in sanatoriums, to provide X-ray service to Boone County people, and to finance a program of Health Education and case-finding in the county.

Mrs. Sibbia Reimer, president of the Boone County Tuberculosis Association, has asked that if anyone knows of a family who did not receive their seals through the mails to notify the association. She added that the association made every attempt to get seals to all family groups but that some new residents of the county may not be on the organization's mailing list.

Give a gift of health—Buy Christmas Seals.

It takes MONEY TO BUILD!

"I just had to have more barn room... and some of the other buildings needed repairing.

"But it takes money to build... more than we had saved up. Then, a neighbor tipped me off about a Federal Land Bank loan. He told me to see the National Farm Loan Association. It was a pleasant surprise to learn that the Association was made up of my friends and neighbors... all good, solid, substantial farmers.

"Well, today you'd hardly recognize the old farm, it looks so nice. I can keep my livestock and crops in better shape—can operate more efficiently and make more money. And I'm happy about that 4 percent Federal Land Bank loan. I can take 20 to 33 years to pay... or pay just as fast as I want to without any penalty whatsoever. And I didn't have to pay a cent in application fees, appraisal fees or commissions.

"If you need money to build or improve your farm in any way, let me suggest a Federal Land Bank loan."

Millions Suffer**N. TULCH**

Foot Comfort Specialist at—
PEOPLE'S SHOE STORE
814-816 Madison, Covington

It has been proven that you cannot be well with unhappy feet! Those headaches, those backaches, those leg pains are caused by the shoes you are wearing. Why not demand the same progress in shoe construction as on trains, planes, and other transportation? You walk miles each day, stand hours and yet wear shoes that will surely lead to ill health and awkward posture.

Parents scold children for slouching and slumping when their shoes are to blame. People suffer mental upset nervousness, aches, and pains when proper shoes (shaped to fit and support those fifty-two bones in your feet) would benefit the entire body and preserve your general health.

Fortunes are spent on patent medicines and appliances when a correct shoe alone is the answer. Why suffer long? Why take chances with your health, comfort and peace of mind? Visit the store that has been schooled in foot anatomy and foot mechanics to insure getting the proper type shoe for your particular feet.—Adv.

TOBACCO MARKET

Next week the auctioneer will begin his chant in selling the 1951 crop of tobacco for the farmers in the Burley belt. When you get your check for the sale of your crop it would be well to consider saving a good portion of the proceeds and place it in a Checking or Savings Account in this bank. Tobacco may not always sell for the prices anticipated this year.

Boone Co. Pioneers THEIR ANCESTORS AND THEIR DESCENDANTS

Snyder-Aylor
Henry Snyder (Schneider) and his wife Dorothy arrived in Virginia with the colony of 1717. He patented land in 1726 and signed a petition with Michael Cook and others for a road "from Germanna to Smith's run on the Rapidan river." In 1742 he made his will, stating that he was "old and infirm." The will mentions his wife Dorothea his daughter Ana Magdalena Aler (a widow), and his grandchildren, Henry Snyder, Elizabeth Tanner and Henry Aler. The will was probated in 1746; it was witnessed by Michael Smith and Andrew "Gare" (Garr), named as executors, and by Michael Kaifer. Appraisers of the estate were John Zimmerman, Peter Freshman and John "Tomas" (Tanner).

Other Sniders, Schneiders or Snyders, coming it is thought from Pennsylvania, were citizens of the Madison Community at this time; they may or may not have been related to Henry Snyder.

Philip Schneider married Margaretha Cook, daughter of Michael Koch; her sister Dorothea married John Carpenter, son of John I. Philip and his wife are named in the Hebron Church birth register as sponsors for children of George Koch.

Michael Schneider and wife Mary were the parents of Adam, born 1774, who married Ann Towles; Anna Magdalena; Elizabeth and Joshua Snyder.

John Snieder, or Schneider, who witnessed the will of Michael Wilhoit in 1842, came from Pennsylv-

vania to the German settlement on Robinson river in Madison county. He was the father of Adam Snyder, born 1755, who married Mildred Wright, daughter of Thomas; his father was probably Joseph Right; he came to Virginia in 1719. John and Adam Snyder received Virginia land grants, probably for military service, in Kentucky on the Kentucky river in 1782. Descendants of this Adam Snyder are now citizens of Oldham county, and doubtless related to the Snyders of Boone county.

When Henry Snyder wrote his will in 1742, his daughter Ana Magdalena Aler was a widow, and the writer has no data as to her husband's given name, or when and where he died; he does not appear to have been one of the colonists of 1717. Henry Snyder's will mentions his grandchildren Elizabeth and Henry Aler; at that time Elizabeth was already married to Christopher Tanner, son of Robert Turner (Tanner) and his wife Maria.

Henry Aylor married Barbara Carpenter, a daughter of Andrew and Barbara (Weaver) Carpenter; her father was another Samuel Carpenter, a cousin of pastor William Carpenter, and her mother was Margaret, or "Peggy" Blankenbaker. Gabriel and Susan Jane (Smith) Aylor were the parents of Julia Ann, Fielding, William, George, Wilmer, Johnson, James N., Minnie, Margaret and Harriet Aylor.

Henry Johnson Aylor married in 1834 in Boone county Addie Rouse, daughter of William Rouse and his wife Sarah Gordon; Harriet Aylor married William J. Utz, son of Augustus and Malevia (Rouse) Utz, in Boone county, 1882.

Jemima Aylor married, 1849, Sarah Hicks; Perry Aylor married, 1866, Harriet Utz; her parents Ezekiel Utz and Cordelia Birdwhistle

writer. It is his belief, however, that all of them are descendants of Henry Aylor, and, in the female line, of his sister, Elizabeth (Aylor) Tanner.

Jeremiah Aylor was the second husband of Elizabeth (Carpenter) Hoard, widow, daughter of Samuel and Dinah (Crisler) Carpenter; (This Samuel Carpenter was a brother of pastor William Carpenter). Anna Aylor married Silas Carpenter, a son of Samuel and Dinah.

In 1812 in Boone county Nancy Aylor married Caleb Wilhoit, a descendant of Michael Wilhoit, Virginia 1721; and Moses Aylor married in Boone, Hattie Snyder, also a Wilhoit descendant. About 1845 Jemima Aylor married Lewis Conner, whose parents, Lewis Conner and Anna Crisler, were married in Boone county in 1803. James Aylor married Elizabeth Wilhoit, whose parents, William and Anna (Clore) Wilhoit were citizens of Boone county in 1800.

Gabriel Aylor married Susan Jane Smith, whose parents were Fielding Smith and Rhoda Carpenter; her father was another Samuel Carpenter, a cousin of pastor William Carpenter, and her mother was Margaret, or "Peggy" Blankenbaker. Gabriel and Susan Jane (Smith) Aylor were the parents of Julia Ann, Fielding, William, George, Wilmer, Johnson, James N., Minnie, Margaret and Harriet Aylor.

Henry Johnson Aylor married in 1834 in Boone county Addie Rouse, daughter of William Rouse and his wife Sarah Gordon; Harriet Aylor married William J. Utz, son of Augustus and Malevia (Rouse) Utz, in Boone county, 1882.

Jemima Aylor married, 1849, Sarah Hicks; Perry Aylor married, 1866, Harriet Utz; her parents Ezekiel Utz and Cordelia Birdwhistle

were married in Boone in 1825.

Lewis P. Aylor married Rosa Tanner, daughter of Benson Tanner and his wife, Sarah Crigler, who were married in Boone in 1861. Benjamin Aylor and wife Anna were members of Hopeful Church congregation in 1814.

The Aylor family and their descendants have been identified with Madison county, Virginia for more than two hundred years; there is an Aylor post office in Madison, and one of the peaks of the Blue Ridge is known as "Aylor Mountain," named for a former owner of the land. In Boone county, Kentucky, the Aylors have been known for 150 years as good citizens. In both Virginia and Kentucky they and their descendants have always been loyal Americans.

—W. C. Barrickman.

The State Agriculture Department reported Monday the average was established on the sale of 55,885,622 pounds for \$30,003,947.02.

This season the markets began auctions Tuesday, establishing an all-time high daily average in Kentucky at the outset. The average was \$54.09. The best previous daily high during record sales history was the \$51.90 established January 12, 1948.

Most grades of burley moved at an average of \$3 to \$6 a hundred over the first week last year. Leaf gained from 50 cents to \$7, tips \$1 to \$6, lugs \$2 to \$5, flyings \$1.50 to \$11.

Largest increases were for lowest quality offerings. The only exceptions were losses for best and poorest crude nondescript. These amounted to \$2.50 and \$3.50, respectively.

Most grades averaged \$1 to \$5 above the Commodity Credit Corp. loan rates which this year averaged \$49.80.

Sales in Kentucky during the week ending Saturday as reported by the State Agriculture Department follows: Carrollton 2,951,624 pounds for an average of \$51.19; Covington, 396,080 pounds for an average of \$47.70; Lexington, 9,817,320 pounds for an average of \$54.23.

Christmas Seal Sale Response Very Good, Says Chm'n.

Part of State Program For Next Year Is Reviewed.

Mrs. Kathryn Cropper, chairman of the Christmas Seal Sale in Boone County, announced this week that response to sale was continuing "very excellent" and that she was sure that many more people would acknowledge their recent letter containing the 1951 Seals before the campaign closes.

Mrs. Cropper and Mrs. Sibbia Reimer, president of the Boone Tuberculosis Association, reviewed a part of the program that the state association plans in 1952 and they gave some facts about tuberculosis in the state.

They said that the five new 100-bed tuberculosis hospitals of the state are filled to capacity and arrangements are being made to transfer new patients on waiting lists to Hazelwood Sanatorium, Louisville. "It is interesting to note," they said, "that the first of the new hospitals was opened as recently as July, 1950."

"With the new tuberculosis hospitals open, better case finding than ever before, an intensified education program and better care can be given patients in Kentucky in the future," they said.

"The success of our fund-raising program is attributed to the democratic principles upon which it is based. No other voluntary health agency depends on so many people for financial support."

Remember: Give a gift of health; buy Christmas Seals.

It takes
MONEY TO BUILD!

"I just had to have more barn room . . . and some of the other buildings needed repairing.

"But it takes money to build . . . more than we had saved up. Then, a neighbor tipped me off about a Federal Land Bank loan. He told me to see the National Farm Loan Association. It was a pleasant surprise to learn that the Association was made up of my friends and neighbors . . . all good, solid, substantial farmers.

"Well, today you'd hardly recognize the old farm, it looks so nice. I can keep my livestock and crops in better shape—can operate more efficiently and make more money. And I'm happy about that 4 percent Federal Land Bank loan. I can take 20 to 33 years to pay . . . or pay just as fast as I want to without any penalty whatsoever. And I didn't have to pay a cent in application fees, appraisal fees or commissions.

"If you need money to build or improve your farm in any way, let me suggest a Federal Land Bank loan."

FIRST THINGS FIRST

In starting out in life the first thing one should think about is owning a home. This cannot be accomplished without first saving a sufficient amount of money to make a satisfactory down payment on that home so that a loan can be negotiated for the balance of the purchase price, to be paid off in regular monthly, semi-annual or annual payments.

This bank is ready to help you start saving for that home and to make you the loan when you have saved the proper down payment.

An all-day missionary meeting will be held at the Baptist Church Friday, December 7th.

Mr. and Mrs. Thomas Hensley, Jr., of Louisville, visited his parents here over the week-end.

Hill Top

Martin Voll flew to Chicago Saturday on the Delta plane, making the trip in one day. He was called there to attend the funeral of his aged aunt. He has the sympathy of this community.

Sympathy is extended to Wm. Warner and daughter in the death of their loved one, Mrs. Sadie Warner (nee Sadie Peano), also her brothers, sisters and other relatives.

Friends of John Herbstreit are glad to know he is much improved after a recent illness.

A large crowd attended the show Saturday evening at the Con-

stance school lunch room in honor of Mr. and Mrs. Elmer Reeves, Jr. They received many beautiful and useful gifts. Congratulations to this fine young couple.

It takes MONEY TO BUILD!

"I just had to have more barn room . . . and some of the other buildings needed repairing.

"But it takes money to build . . . more than we had saved up. Then, a neighbor tipped me off about a Federal Land Bank loan. He told me to see the National Farm Loan Association. It was a pleasant surprise to learn that the Association was made up of my friends and neighbors . . . all good, solid, substantial farmers.

"Well, today you'd hardly recognize the old farm, it looks so nice. I can keep my livestock and crops in better shape—can operate more efficiently and make more money. And I'm happy about that 4 percent Federal Land Bank loan. I can take 20 to 33 years to pay . . . or pay just as fast as I want to without any penalty whatsoever. And I didn't have to pay a cent in application fees, appraisal fees or commissions.

"If you need money to build or improve your farm in any way, let me suggest a Federal Land Bank loan."

Paper Read On Ohio River Valley At Historical Meet

Huey Family Will Be Discussed At December Meeting.

The Boone County Historical Society met in the Florence Town Hall on Friday, November 16, at 8:00 p.

m. President Lucian Bradford presided. Mrs. Elizabeth Goodridge Nestor, of Florence, read a paper on "The Ohio River Valley, Yesterday and Today." The next meeting will be held on Friday, December 21, at the Florence Christian Church. The subject for discussion will be the "Huey Family in Boone County." Anyone having any material on this subject is urged to bring it to the meeting.

Anyone interested in the history of Boone County is invited to attend and to join the society. The paper read by Mrs. Nestor

on "The Ohio River Valley, Yesterday and Today" followed. The present Ohio river is not old as rivers go. It is thought to have achieved its present form only forty or fifty thousand years ago. Millions of years before that, the sea covered much of the continent of North America, during which time most of the bedrock under the Ohio valley was laid. This sea teemed with strange nightmarish undersea life. In the region surrounding Cincinnati is a huge pushed-up dome, called the Cincinnati Arch, which is rock exposed to view by erosion. When the sea receded the Cincinnati Arch was the first land exposed.

Possibly a couple of hundred thousand years ago, average annual temperatures fell and the ice-cap came creeping southward from the polar regions. The glacial age was upon this region and lasted thousands of years. The glaciers drove deepest into the United States at the Ohio valley. By the time the cycle of cold weather was over and the ice-cap finally retreated, the waters which had come from the melting ice broke through old divides or followed established drainage and the modern Ohio river was formed. Thousands of years passed before the glacia shrank to its present area and the bitter cold went away and the weather became warm enough that vegetation started to grow.

Underground seepage which supplied springs flowed over salt-bearing rock or silt which had been left when the seas covered this land and resulted in the salt springs which we know. These salt springs attracted varied and exotic animal life which were preserved in that natural pickling vat, the Big Bone Lick, which was a short distance from the Ohio river in what is now Boone County, Ky. Mastodon, artie elephant, peccari, giant elk, the bones of these and probably also of tapir and giant sloth were still strewn about the lick in historic times.

Primitive man followed closely after the receding glaciers, at least, no one has been able to prove that he arrived earlier. There is little doubt that mankind first reached America by way of passage from Asia across the frozen Bering Strait into Alaska and followed animal trails until they reached the warmer climates of the Ohio valley. These primitive Mongolians of different mixtures and strains most probably were the forebears of the American Indians, from whom they inherited high-bridged noses, black hair and brown eyes. With the entrance of these people the settlement of America by men was underway.

The early Indian tribes who lived in the Ohio valley were the Iroquois, Shawnees, Cherokees, Miami, and Mascoutens. From the Shawnees, Loups, Wyandot, Delaware, Piankashaws, Kickapoo, and Weas, Senecas, and Ottawas. Great Indian Chiefs of these tribes were Chief Blackfish of the Shawnees, Chief Cornstalk of the Cherokees, Chief Dragging Canoe of the Cherokees, Elskatawas, called The Prophet, and his brother, the Great Chief Tecumseh, of the Shawnees.

The oldest Indian tribe known to mankind was the ancient Iroquois who called the river "Ohio," which was translated by the French to mean "The Beautiful." The Iroquois drove the other Indian tribes from the region now known as Kentucky and so by common consent no Indians made this region their permanent home but used it as a recreational and hunting area. For that reason this country became a magnificent game preserve, overflowing with valuable fur-bearing animals which made it seem a great prize to be fought over by the French and British. We, of course, know from our history books that the British were the victors at that time.

The Ohio river's point of beginning cannot be mistaken. It begins at Pittsburgh, Pa., where the Monongahala and the Alleghany rivers meet and empty into the Mississippi after 981 miles of windings. The reason for the huge floods each year is that so many rivers and tributaries empty into the Ohio. Beaver river, Muskingum, Little Kanawha, Hocking, Kanawha, Big

Sandy, Scioto, Little Miami, Licking, Great Miami, Kentucky, Green, Wabash, Saline, Cumberland, Tennessee and the lesser known Rolling river, the Tradewater, Pigeon Creek and Little Pigeon Creek, Indian Kentucky Creek, Big Grave Creek, Sinking Creek, Bull Skin Creek, and Green Bottom Riddle. The Ohio, now a great river indeed, is away on its last long reach where it makes one of America's most impressive natural scenes, the junction of the Ohio and the Mississippi.

Most probably the first white man to come down the Ohio river were the French who came to bring the Catholic faith to the Indians and also gather furs. A Jesuit Priest, Father Lalemant, writing from Montreal in 1662, states that he had been told about this river from the Iroquois Indians, and the French laid formal claim to the American northwest in 1671.

When the French lost the new continent to the British, the Indians felt resentment as they lay received good treatment from the French and were not enthusiastic over British rule so they were ready to listen to any leader who would come forward on their side. Such a leader was Chief Pontiac, of the Ottawa tribe, who tried to drive the British from the west and who was the first of a long series of Indian chiefs who tried to keep the white man from taking their country from them.

Other early white men to come into this region were Christopher Gist, Dr. Thomas Walker, John Finley, and Daniel Boone. Daniel Boone was the best of the long series of the frontier. Not that Boone was one to seek fame, quite the contrary, he was only a fearless man and had fame thrust upon him. Boone was one who in his position as leader in the movement of a people to a wild new land took the challenges offered, which often were for a battle to the death, not only for himself, but for whole communities of his people.

In 1776 the American Revolution was under way and we know from our histories that Kentuckians took a noble part in securing their newly adopted land from the British. Many people living in Boone County today can trace their ancestry to those who fought at historic Bryans Station and to the woman who carried water to the fort the day of its historic attack in the face of the Indians. When the treaty with Britain was signed on April 9, 1784 the Ohio river and its lands belonged once and for all to the United States.

Some of the greatest rogues in history were in the Ohio valley at times, namely, Aaron Burr, who planned to use the Ohio to the needs of his nefarious schemes; Simon Girty, Micajah and Wiley, Harp, Samuel, and Colonel Plug. With the war over and the fear of Indians lessened, people swarmed into the new country. Artisans of all trades, rich and poor, gamblers, and women of easy virtue. They came to the Ohio valley in a great wave, the rich, the poor, the practical, the dreamers, and the no-accounts.

With the exception of those who came by horse, wagons, or walked, the travelers came in on the broad waters of the Ohio river, Arks, flatboats, and rafts carried the earliest arrivals and on these they carried their possessions, often cattle, which they milked on board as they drifted along. Steamboats were on the Ohio by 1830. The Greene family of Cincinnati, who operate their boats until this day, first started on the Ohio river soon after war of 1812.

One of the worst hazards of life and property was steamboat racing. The reason for these hazards were the number of boiler explosions, and since at that time, the river was unimproved, snags, stumps, and sand bars together with too much rye under the captain's belt caused disaster. A story goes that there was a Kentucky widow, who was a farmer and a prudent manager, who took her products from the farm to New Orleans to sell. Before going she made the boat captain swear that he would do no racing. The trip began and the day was fine, but

before long another boat of comparable speed came alongside and challenged the captain to a race. The captain ignored it. The challenge came again offering odds on his bet, again the captain ignored it. The lady could stand it no longer and she said, "Are you going to let that scum'ous-actin' man get away with that sort of talk?" "I'm bound by my promise to you, madam," replied the captain. "Suh," said the widow, "Yo, ah released in view of his impudence. He sounded to me like a Damn-Yankee. You go ahead and beat him, captain, and teach him bettah manners, and if ah may say so."

Chas. Crigler was removed to the hospital Thursday evening after suffering a paralytic stroke. His son Henry, was taken to the Ft. Thomas Veterans' Hospital.

Little Judy Hafer was the Sunday afternoon and evening guest of Mr. and Mrs. Ralph Prable.

Headquarters For "Clothe The Needy" Set Up At Florence

Clothing Donated Will Be Distributed In Boone County, Says Chairman.

Mrs. Bert Markesbery, county chairman of the new Red Cross service to the less fortunate, namely, "Clothe the Needy" has announced her headquarters will be the Florence Methodist Church where she will be each Wednesday from 11 a. m. to 2:30 p. m. She is requesting that those who have used or new clothing to donate bring them to the church during the named hours. She is also asking for donations of clothes hangers and will appreciate any number received. She cannot begin giving out clothing until enough has been donated to make it a working unit. Boone countians are urged to look through their clothing and if there is anything you are not using, bring it to Mrs. Markesbery on Wednesday at the Florence Methodist Church.

All clothing donated will be used strictly in Boone County and will remain in Boone County. Mrs. Markesbery will announce when she is able to distribute this clothing. The Gunpowder Homemakers Club has adopted this as their project and two ladies from the group will assist Mrs. Markesbery each week in mending, sizing, sorting and giving out the clothing.

The Florence Methodist Church is donating the use of the church and its facilities, and the Florence Rotary Club has made the racks on which to hang the clothing.

Both Mrs. Markesbery and the Boone County Red Cross wish to thank these organizations and their members for their wonderful cooperation.

Jesus said, "Even as ye have done it unto the least of these, my brethren, ye have done it unto me." The joy of sharing by many people with material goods who wish to assist their less fortunate fellowman will be a blessing to all. The giver will be made happy as well as those who receive. Although many people are working there is still much suffering and poverty in the world.

Much appreciation is also extended to Lewis Riddell, Florence grocer, who packed the 29 boxes sent from Boone County for servicemen overseas, and who also took them to the depot at Erlanger, Mr. Riddell served in the Air Force in World War II.

Hatcheries Must Have Licenses In Kentucky

Hatcheries and dealerships in baby chicks that sell more than 1,000 chicks a year must be licensed by the State, Commissioner of Agriculture Ben S. Adams reminded today.

The reminder came with the opening of the hatching season for most hatcheries—some of which have not yet obtained a permit for the current year.

Adams said that all hatcheries are subject to sanitary inspection by men from the State Department of Agriculture and that no place is licensed that has more than two per cent pullorum disease in the flock providing the eggs. Out-of-state hatcheries doing business in Kentucky must meet the same requirements and be approved by the department, he said.

Licenses are \$10 a year and applications may be made by mail to the department, Frankfort, Ky.

THEIR ANCESTORS AND DESCENDANTS

Utz

"Utz" as a family name is distinctly American in origin, the result of the attempts of colonial officials to Anglicize the Swiss name of "Zeuche."

Hans Jorge Zeuche first appears in the records of Hebron church in 1733 as a warden of the church. He was one of the Germana colony of 1717; in 1726, after the colony had moved to Robinson River and White Oak Run, in what was afterwards Madison county, he patented land as George Utz, receiving 479 acres, which indicated at least nine members in his family. In 1725 he again patented land, the grant being made to George

"Woods"; in 1731 he bought land from John Hoffman and the deed was made to "George Woods." In other records, the name is spelled "Ouds," "Dotz," and "Utz." At a later date some of his own descendants spelled the name as "Utz" and "Uitts"; but to paraphrase Shakespeare's "a rose by any other name would smell as sweet," no matter how the name is spelled, the immigrant ancestor was Hans Jorge Zeuche, and he was some man. In 1724 he and Zerichias Flesham represented the colonists in opposing the suits brought against them by Governor Spotswood for debt; the suits were dismissed. He and Michael Clore were bondsmen for Susanna "Creagler" as administratrix of Jacob Crigler; he witnessed numerous deeds and wills, and in 1739 he and Michael "Clore," as "trustees of the German congregation," bought a farm of 685

acres for the use of the church. The will of George Utz, dated 1753, was probated in the Culpeper County Court in 1766; he mentions sons George and Michael Utz, and daughters Margaret Blankenkaker and Barbara Blankenkaker. Ann Margaret Blankenkaker mentioned in the will of Balthasar Blankenkaker, dated 1762, as his wife, may possibly be the "daughter Margaret" named in the will of George Utz; his daughter Barbara married Jacob Blankenkaker, and they appear in the Hebron church records in 1754. Jacob was a son of Nicholas Blankenkaker, and both Nicholas and Balthasar were members of the colony of 1717. Michael Utz patented 291 acres of land in 1744. Michael and Susanna Utz (perhaps his wife) are shown by Hebron church records as sponsors for children of Nicholas Crigler, John Weaver and Michael Yager. Michael Utz's will was probated in 1790, either in Culpeper or Madison county, Va., but the writer does not know its provisions or if wife and children are mentioned. George Utz, Jr., married Mary Kaffer or Kaifer, daughter of Michael; she was a sister of Elizabeth, who married Adam Carr, of Barbara, wife of John Weaver, of Margaret, wife of Nicholas Crigler, and of Dorothy Kaifer, wife of John Clore.

George and Mary Utz were parents of 1. Rachel, born 1763; 2. Abigail; 3. John; 4. George, (III) born 1770; 5. Hannah; 6. Salomon; 7. Moses; 8. Maria Barbara; 9 and 10, Maria and Susanna, twins born 1790. Other children in Culpeper and Madison counties, Va., whose names appear in the Hebron church records, but whose parentage the writer does not know, are: George Utz, wife Dinah; children: 1. Lydia, first wife of Jacob Crigler, the preacher, married Madison county, Va., 1799; 2. Joel; 3. Elizabeth; 4. Julius; 5. Rosina; 6. Maria; 7. Drusilla; 8. Fanny; 9. Levi, b. 1800.

Daniel and Marie Utz were parents of Daniel, Jr., and Nellie Utz; Adam and Elizabeth Utz had a daughter Elizabeth, and Michael Utz, Jr., and his wife were the parents of Nancy Utz.

Lewis Utz was "confirmed" in Hebron church, age 16, in 1785. He married (1) Mary Carpenter, a sister of the Rev. Wm. Carpenter; their children: Joel, Sarah, Augustus, Alpha and Ezekiel, twins. Lewis Utz married (2) Nancy Carpenter, daughter of Samuel and Dinah (Crisler) Carpenter; Samuel was the Rev. Wm. Carpenter's brother; Lewis Utz's children by his second marriage were Ella, M. Alfred Utz, Dinah, Lydia and Ann and Elizabeth Utz, twins.

It is probable that Ephraim Utz and his family moved from Virginia to Kentucky about the time Boone County was organized. Ephraim was a Revolutionary soldier and entitled to a land grant from Virginia for his military service. His wife, Christine Blankenkaker was a granddaughter of Nicholas the Virginia Immigrant of 1717. All or most of Ephraim and Christine's children were in Boone county by 1825, or earlier. They were: 1. Aaron, who married Mary Fray Virginia; 2. Margaret M., in Virginia; 3. Eliza Rouse; 4. William, M. Alpha Yager, daughter of John Yager and Margaret Wilhite; 4. Jemima, M. Lewis Crigler, grandson of Nicholas; 5. Tabitha, M. Joel Rouse; they were pioneer settlers in Boone, and then, about 1834, pioneered to Indiana, where he patented 80 acres, a part of which it is said is now included within the city limits of Indianapolis; 6. Julia, M. Eliza Rouse in Boone county, 1816; 7. Ezekiel, M. Cordelia Birdwhistle, in Boone county, 1825. Their oldest son, Thomas Jefferson born Utz, left Kentucky, married in Windsor, Canada, settled down in St. Louis, and afterwards, perhaps because he felt so "low" in leaving what Joe Blackburn used to call "the garden spot of the world," tried to disguise his identity by spelling his name "Utz." And Jasper, son of John R. Utz, was so downcast when he found himself living in Kansas did even worse, he mutilated his name to "Uitts."

But there are still left in Boone county enough families of the Utz name to make up for the downfall of a few "black-sheep!" In another article I want to tell Recorder readers about a Utz now living in Connecticut and another who lives in "the piney woods" of East Texas. In the meantime, if you have a copy of the "Saturday Evening Post" of October 20, 1951, save it as it is of interest to all the Utz families. (To be continued)

—W. C. Barrickman.

The tobacco barn was practically new, having been erected only a short time, being 48x48x16 ft. Loss was estimated at approximately \$2,000 which was only partially covered by insurance with the Farmers' Mutual Co., of Boone County.

Burley Prices Show Decrease During Sales Last Week

Markets Will Be Closed Until January 8th, Is Report.

Burley tobacco brought an estimated average price of \$32.39 a hundred pounds in Kentucky last week, a slight decrease over the previous week's general average of \$33.13. The opening week's sales averaged \$53.69, an all-time high in recorded sales history.

Members of the Burley Sales Committee voted to postpone reopening of the markets after the approaching holidays in the eight-state belt from January 3 to January 8.

Officials announced that the later reopening would give redryers and buying companies more time to process tobacco they have acquired. The committee had been requested by association members to delay the reopening.

The Kentucky Department of Agriculture reported Sunday that last week's sales totaled 72,495,350 pounds and returned \$37,981,937.03, according to its compilations, which included several estimates on auctions at some individual markets because complete reports were not received.

Kentucky's sales this season have averaged \$53 a hundredweight, according to the state department's tabulations, totaling 203,881,005 pounds and returning \$108,075,844.22.

Increased proportions of non-descript leaf and less good grades lowered the general quality last week, it was reported. Principal sales continued to consist of low to good leaf, low and fair lugs, flyings and tips, and nondescript.

Last week Covington sold 925,174 pounds for a total of \$398,746.00 or an average of \$43.10 per hundredweight.

Carrollton sold 3,756,456 pounds for a total of \$1,768,410.00 or an average of \$47.08 per hundredweight. Lexington sold 13,076,784 pounds for a total of \$6,899,969.00 or an average of \$52.77 per hundredweight.

Monday's sales rallied somewhat after last week's drop. An average of \$51.26 was established on sales at 26 markets. Monday's improvement was credited by the Federal-State Market News service to better grades of offerings. Prices by grades were steady with those of Friday. Gains were shown in a few lower quality grades and declines were registered in a few other grades.

Erlanger Man Shot In Service Station Holdup Saturday

Gun Wielder Escapes In Old Model Convertible.

John E. Ray, attendant at the Spur Service Station, 308 Dixie Highway, Erlanger, was shot three times by one of two men early Saturday morning, according to reports. One shot hit him in his abdomen and two in his right wrist. He was removed to St. Elizabeth Hospital where his condition was said to be serious.

Revenge was believed to have prompted the shooting as it was recalled that the victim fired three shots at four men who held up the station recently. It was believed that the two were part of the gang to hold up the station recently. This gave rise to the revenge theory.

Mr. Ray said the men entered the station shortly after 5 a. m. and ordered him to lie down on the floor. As he started to comply one man pulled a gun and started shooting. The gunman's companion shouted, "Now you've done it, you crazy fool!" and the men fled. They drove south on the Dixie Highway in an old model convertible.

The victim gave descriptions of the men to Erlanger Police Chief Charles Nelson and Patrolman William Stewart.

Mrs. Scott was assisted by Mrs. Frances Berkshire and several members in the absence, due to illness of the co-hostess, Mrs. C. F. Blankenbaker.

It takes MONEY TO BUILD!

"I just had to have more barn room . . . and some of the other buildings needed repairing.

"But it takes money to build . . . more than we had saved up. Then, a neighbor tipped me off about a Federal Land Bank loan. He told me to see the National Farm Loan Association. It was a pleasant surprise to learn that the Association was made up of my friends and neighbors . . . all good, solid, substantial farmers.

"Well, today you'd hardly recognize the old farm, it looks so nice. I can keep my livestock and crops in better shape—can operate more efficiently and make more money. And I'm happy about that 4 percent Federal Land Bank loan. I can take 20 to 33 years to pay . . . or pay just as fast as I want to without any penalty whatsoever. And I didn't have to pay a cent in application fees, appraisal fees or commissions.

"If you need money to build or improve your farm in any way, let me suggest a Federal Land Bank loan."

May Christmas bring you every joy and the New Year be rich in health and happiness is our wish to the Recorder staff, the many readers, correspondents and our boys in service. Also greetings and thanks to the folks who contribute items to this column. We appreciate your cooperation.

Mr. and Mrs. Fred Kleemeier, Jr., and Dick and Rosetta Aylor were the Sunday evening guests of Mr. and Mrs. Larry Aylor and daughters.

Rev. and Mrs. H. L. Reid were recent Sunday luncheon guests in the home of Mr. and Mrs. Clyde Arnold.

Mrs. Ella Weaver was a guest Saturday in the home of her son Harold at Union.

Mr. and Mrs. R. E. Tanner were recent luncheon guests of Mr. and Mrs. Emerson Smith.

Mrs. Mae Tanner, who is confined to her home due to a rheumatic condition is doing very well, and

her friends wish her the best. She is being cared for by Mrs. Rosa Stephens.

A cold wave, accompanied by snow and sleet hit this section during the week-end sending the

mercury to a low of 4 degrees below zero Sunday night. A three-inch snowfall with freezing rain Friday night was responsible for the worst traffic jam in years in and around Covington and Cincinnati.

We regret to report the illness of Mr. and Mrs. C. F. Blankenbaker at their home on U. S. 42 and Fred VonBerg of Goodridge Drive. Their friends wish them a rapid recovery.

Sunday of last week, Mr. and Mrs. Mortimer Moss entertained at luncheon for Mr. and Mrs. Bill Sharp of Covington and Mrs. W. R. Miller was an afternoon caller.

Saturday evening, December 8, Miss Sue Sayers became the bride of Robert Carroll in an impressive ceremony by Rev. H. L. Reid at the

Florence Christian Church. Mr. and Mrs. Carroll are residing on Sanders Drive. We join in wishing them happiness and prosperity as they embark on the sea of matrimony.

Union

The choir of the Union Baptist Church, under the direction of Mrs. Jason Ross, will present a Christmas cantata on Sunday evening, Dec. 23 at 8:00 p. m. The public is invited.

TOYLAND REVUE IS FOR CINCINNATI GARDEN

Cincinnati—One of the gay and sparkling production numbers to be seen in Skating Vanities of 1952, coming to Cincinnati Garden on December 20 through 23, will be "Toyland Revue," part of the 32 acts and nine scenic sequences performed by a cast of 150 in the \$1,000,000 musical on skates.

Encompassed in the invention will be jack-in-the-boxes, which will display the talents of three of the show's outstanding artists, Peggy Wallace, Nancy Lee Parker and Elvira Collin. Miss Wallace is the former world's champion; Miss Parker won the women's titles for three years running before turning professional to join Vanities; and Miss Collin is one of the European importations who teamed with Fernand Leemans, has figured on top in some three dozen tournaments. The trio will also participate in a "Xylophone Parade" with other girls in the cast, including Caroline Buchanan, Pat Cavanaugh and Anna McClellan.
Pretty Eileen McDonnell and

acrobatic skating champ Tony Mirrell will pair in "Soldier and Doll." The entire troupe will present a dynamic pivot spin on ramps while dramatizing their roles as "Toy Dynamos." Teddy bears and other animals associated with nursery rhymes will adorn the number, with the music, directed by Broadway batoneer Benjamin Schwartz, to include such famous melodies as "March of the Toys," "Parade of the Wooden Soldiers" and "Runaway Rocking Horse."

DO CHRISTIANS LIE?

The following article titled "Do Christians Lie?" was written by Rev. J. Walter Koon, pastor of First Church of God, Erlanger, Ky. The article follows:
Parents and teachers in training children are building for eternity. There must be no mistakes; do not rob them.
Alta Mae Lighty relates the following conversation between three small boys:
Said one, "Did you know there

isn't any Santa Claus? I found out it's Dad and Mother."

Said the second boy, "We'd better look into this God business then. Since they lied about Santa Claus, I'll bet you there isn't any God either."

The third boy said, "I'll bet there isn't any devil either."
According to your profession of faith in Jesus Christ, does your children have any right to expect the plain and simple truth of you as a parent?

Let him who would enjoy life and see happy days, keep his tongue from evil and his lips from uttering deceit. 1 Pet. 3:10.

Lie not one to another, seeing that ye have put off the old man with his deeds. Col. 3:9.

For he (the Lord) said, "Surely they are my people, children that will not lie." Isa. 63:8.

All liars shall have their part in the lake that burneth with fire and brimstone. Rev. 21:8.

Can there be any fellowship between Truth and Falsehood?
Can there be any mixing of paganism and Christianity?

Upon what grounds do you justify your right as a parent to mislead the trusting mind of innocent little children, with such falsehoods as Santa Claus, Easter Rabbit, Hal-low-e'en witches?

This matter is not optional . . . Christians do not lie. (Christ is the source of both Christian and Christ-mas).

CHRISTMAS PARTY

Mrs. Harry Daugherty was the gracious hostess for the annual Christmas party of the Woman's Society of Christian Service of the Florence Methodist Church at her home on Main St., December 8th. Reports were heard following the invocation by Mrs. C. N. Ogg, Mrs. Paul Chaney, president presided over the business session. Mrs. Mildred Mundy, vice president introduced Mrs. C. S. West who gave for the devotion "Thoughts for Christmas." Mrs. West also gave for the program a reading entitled "The Littlest Angel."

Mrs. Paul Chaney was delightfully surprised when Mrs. C. N. Ogg presented her with a gold pin and certificate of life membership on behalf of the society as a token of appreciation for her faithful devotion to the missionary cause and excellent leadership in the society.

Musical selections were rendered including "Silent Night" and "O Come All Ye Faithful." The dismissal prayer was by Mrs. Allie Markesbery. At the close of the meeting refreshments of ice cream, cake, coffee, and confections were dispensed and enjoyed by all.

Attending were Mesdames Geo. Miller, C. A. McKibben, A. T. Knox, Rozella Hardin, C. N. Ogg, Marie Thompson, Mildred Mundy, C. S. West, Ruby Carpenter, Allie

Markesbery, Mae Bristow, Ella and Helen Bethel, Harry Barnett, Nannie Mitchell, Paul Chaney, Leila Allen, Harry Daugherty and Chester Stephens who was welcomed into our society as a member.

CARD OF THANKS

Mr. Wm. Kennedy wishes to thank everyone sending cards and flowers to him. He is still in the Hospital (Veteran's) at Dayton, Ohio.

It was necessary to amputate his other leg and will be confined there for sometime.

Any cards or letters will be appreciated.

Mrs. Hazel Kennedy

CARD OF THANKS

We wish to thank our friends and neighbors for the splendid job they did in helping to save most of the furniture in the fire, Sunday, Dec. 16th.

We also wish to thank our kind neighbors, especially Harmon, West, Hafer, Marshall, Hoover and Shull for the numerous offers we had for the shelter and storage of our furniture and ourselves after our home was completely destroyed.

We also wish to express our gratitude to the Florence Fire Department for arriving so promptly and keeping the fire under control until the house was cleared.

June and Harry Mitchell on Gunpowder Road.

GUNPOWDER HOMEMAKERS

The spirit of Christmas prevailed at the December meeting of the Gunpowder Homemakers Club in the home of Mrs. Bert Markesbery. The Christmas story as recorded in the second chapter of St. Luke was read by Mrs. Cliff Norman.

The business session was conducted by Mrs. Charles Tanner at which time the club voted to buy T. B. bond and give a basket of fruit and some toys to a needy family.

The club has adopted a project, "Clothe The Needy" of which Mrs. Bert Markesbery is chairman. The headquarters are at the Florence Methodist Church where those who have used or new clothing to donate should bring them between the hours of 11:00 a. m. to 2:30 p. m. each Wednesday.

The roll call to "Things I like most about Christmas" was answered by Mesdames Dolpha Sebree, Robert Moore, B. M. Stevens, Kenneth Connors, Mel Shelton, Virgil Kelly, Burle Furgeson, Glenn Stevens, Chas. Tanner, Edgar Utzinger, Elva Piper, Vic Ratford, Robert Smith, Cliff Norman, Bert Markesbery and Miss Nancy Clasky. Visitors welcomed were Mrs. P. J. Weltz, Mrs. John Palmer, Mrs. K. Kessler, Mrs. Vic Huser, Mrs. Jack Waltz, Mrs. John Baker, Mrs. B. M. Jones, Mrs. Alfred Roberts, Mrs. Harold Presser, Mrs. Don Roberts and Mrs. Markesbery.

State Police Head Urges Christmas Road Safety

Nine Kentuckians were killed in traffic accidents during a four-day period at Thanksgiving. Commissioner of State Police Guthrie F. Crowe reminded motorists today in calling for greater highway safety during the Christmas period. Crowe is also chairman of the Governor's Highway Safety Committee.

He said traffic on the state's highways is expected to be much heavier than over Thanksgiving and the outlook is for a larger traffic toll. The heaviest part of the Christmas travel will be from Friday, December 21, through Christmas day, he said.

Besides the hazards caused by increased traffic, Christmas motorists may have to combat weather that is the worst for driving, and they will probably encounter more drinking drivers than at any other time of

the year, Crowe pointed out.

He asked employers to emphasize the dangers of drinking and driving when planning Christmas parties for their employees and urged party-goers to make plans for safe transportation before attending holiday functions.
